OUR MOTTO.

"We will speak out; we will be heard
Though all earth's systems crack;
We will not bate a single word
Nor take a letter back.
We speak the truth and what care we
For hissing and for scorn,
While some faint gleanings we can see
Of freedom's coming morn?
Let liars fear, let cowards shrink,
Let traitors turn away;
Whatever we have dared to think
That dared we also say."

In the Democratic primary in Mecklenburg county last Saturday, Mr. Webb got 2,914 votes out of a vote of 11,922. This does not show him very strong.—Lincoln Times.

We are just wondering if the prohibition democrats in Rowan are going to vote for Col. Boyden for the Senate this fall. We would like to hear from the editor of the Carolina Watchman on this subject.

It will take Wake county ten years to win back all she has lost in her good name and all on account of this affair for which there never was a Democratic reason offered.—Raleigh Times, (Dem)

A newspaper is under no more obligations to hoist the name of a candidate than he is to hoist the name of a business or professional man, unless he is properly remunerated for the hoisting. We don't hoist; we announce when authorized, requested and paid to do so.—Ex.

We congratulate our Republican members of Congress from this State that, although only one-fourth of our State delegation, they secured nearly half of the postoffice appropriations of the State, getting \$380,000 to \$520,000 for all the remainder of the State.—Southern Republican.

He is a mighty small man who will have his work done in some other county or state, when he could save money by having it done at home. Some day The Record will be called on to print the obituary notices of the "grave diggers" who are so little that they won't patronize their home people. Not many free lines will they get.

"The Record reaches six thousand people every week."—Davie Record.
How? who? where?—Coolidge Journal

The three questions propounded above are easily answered. 1st. By publishing the news that is of interest to the people of Davie. 2nd. The best class of people in the country. 3rd. The Record reaches 4,000 people in Davie county alone—the other 2,000 living throughout the length and breadth of this broad land of freedom. Our subscription books are open for inspection. Come up and examine them.

To the few who are loosing sleep over the fact that they don't know what our politics are, we wish to say that we are a Republican—never been anything else—but we belong to no ring, clique, combine, trust or monopoly; we have never received any campaign boodle from either party, and don't want any. Neither of the old parties owes us anything—if they did, perhaps it would be a hard job to collect it. We are as independent as a flea on a dog's back. We vote as we please and give every one of our subscribers the same privilege. Our paper is here to publish the news first, last and all the time, with a little politics scattered around at the proper seasons. The Record is read by people of all political creeds and its friends are numbered by the thousands. It has a larger circulation than any paper ever printed in Davie county. It tries to be fair and above board in all matters.

Afraid of Ghosts

Many people are afraid of ghosts. Few people are afraid of germs. Yet the ghost is a fancy and the germ is a fact. If the germ could be magnified to a size equal to its terrors it would appear more terrible than any fire-breathing dragon. Germs can't be avoided. They are in the air we breathe, the water we drink.
The germ can only prosper when the condition of the system gives it free scope to establish itself and develop. When there is a deficiency of vital force, languor, restlessness, a sallow cheek, a hollow eye, when the appetite is poor and the sleep is broken, it is time to guard against the germ. You can sleep in broken, it is time to guard against the germ. You can fortify the body against all germs by the use of Dr. Pierce's Golden Medical Discovery. It increases the vital power, cleanses the system of clogging impurities, enriches the blood, puts the stomach and organs of digestion and nutrition in working condition, so that the germ finds no weak or tainted spot in which to breed. "Golden Medical Discovery" contains no alcohol, whisky or habit-forming drugs. All its ingredients printed on its outside wrapper. It is not a secret nostrum but a medicine of known composition and with a record of 40 years of cures. Accept no substitute—there is nothing "just as good." Ask your neighbors.

IT'S HARD TO TELL

good paint from bad by just looking at a pot of paint. It's only after it has been exposed to the weather for a few months that you can see the effects of poor paints. Then it is too late. If you buy your paints of us you always get good paint—the kind that wears.
