WEDNESDAY DECEMBER 14, 1910

It's all right to pay as you go if you can't get credit.

An editor's life is full of Peruna, cob pipes and disappointments. His dollars are numbered and his system is filled with gall.

If two-thirds of the people in Davie county could hold some kind of an office they might be satisfied and not howl so much.

The Record has purchased a new receipt book which the editor or the devil will take delight in using for any of our dear delinquents.

We would like to ask the Charlotte Observer how much wood would a woodchuck chuck, if a woodchuck would chuck wood?

Those who are tired of hearing "Red Wing," and "Honey Poy" and wish to escape them, might go to church. They are never heard there.

Hope vanishes with youth. As a man grows older he quits hoping and begins to gather unto himself everything in sight that isn't nailed down.

Our readers will kindly excuse the scarcity of news this week, as our assistant editor has been out rabbit hunting all the week. He killed one jay bird.

There is no better county in the State than Davie; there is no better State in the Union than North Carolina; and no finer country in the world than the United States.

The population of North Carolina is 2,206,287. Davie county has a population of 13,394, which is a gain of only about 1,000 over ten years ago. Small favors thankfully received, larger ones in proportion. It could have been worse. Some of the counties in the State lost part of thae which they had in 1900.

The Farmers' Union in Davie.

The Farmer's Union is growing in Davie county. The past year has been one of great growth to the Union, not only in this county, but also in the State and nation as well. One year ago Prof. J. D. Hodges was elected county organizer and lecturer, and on account of sickness failed to do much work until last spring. At that time D. G. Tutterow was also appointed organizer by the county President. When they went to work there were only about eight locals in the county with a membership of about one hundred members. Today there are nineteen strong locals with a membership of between 400 and 500 farmers, and among them are some of the best farmers in the county. Of course this is a small membership to what there is in some counties, but we think it is a pretty good showing for six months' work, with the small beginning the organizers had to start with. In the State themem bership has doubled in the past year. It has grown from 20,000 to 40,000. What do you think of that, Mr. Farmer? Do you not feel like joining this great band of farmers? When do you ever expect the farmer to come into his own without organization. Consider the benefit derived from organization of the Standard Oil Co.,

and the mighty sugar trust. But understand the profit was not for you, but it went into the pocket of the organized. Do you not believe there is profit in the Farmer's Union for you if we will go about it in the right manner. We will make mistakes. General Washington made mistakes, but the independence of the United States was won just the same, and you independents can be won if you will only try, and to those who, after getting benefits from the Union, goes back on it on account of a little mistake, we want to say that you are not much of a Union man. One important thing we wish to say--don't take any sacks with you when you go to join and you will get along better. There is not a member of the Farmer's Union, who has been a member three months who has not got something out of it if they tried. If you don't see anything in the Farmer's Union, you are certainly looking through the wrong glasses. The Farmer's Union is just what its members make it. Do not put it all on the officers. They can't do anything unless you help them. Are you helping them? If not, why not? Think of others, my friend, and do all you can to help the farm, the farmer and the Farmer's Union. Hurrah for the Farmer's Union in this year of grace, nineteen hundred and ten. A MEMBER.
