WEDNESDAY JULY 19, 1911

Davie county will not get the State highway, but if the people are determined about the matter, she can get some good roads.

The town of Mocksville is making some improvements, which we are all proud of. Some nice concrete sidewalks are being built, which will add much to the looks of the town.

With two printing offices in the town, it doesn't seem necessary for the business men to send out of the county to have their printing done, but many of them do so. Suppose all the people in the town should go out of the county to buy their supplies?

Every farmer in Davie county should attend the Farmers' Union picnic at Center on Friday, July 28th. Prominent speakers will be present to address the people, and a big dinner will be served on the grounds. If nothing prevents, the editor will be present with a large receipt book and invites all those who are going to be present to bring a half dollar along for him.

A Building and Loan Association is badly needed in Mocksville. Quite a number of people here carry stock in other associations, because they know it is a good thing. There is nothing better for the poor man, or the rich man, so far as that is concerned, than building and loan stock. With an association here, it would only be a short time until practically all of our people would own their own homes. The people of the town should get together and organize an Association. It means much for the town.

A young man of this place went fishing one night and mosquitoes being so bad, he carried three quilts with him. When he got there he wrapped up in one, but the mosquitoes bit through it. He put another around him and still they bit. He grabbed up the third, a big woolen quilt, and wrapped up head and all. Everything seemed so quiet for awhile he thought he'd take a peep outside. What do you suppose he saw? Why, there in a big symamore sat a mosquito with a monkey wrech putting on a longer bill. It is needless to say he caught no fish.

Uncle Hiki, send us something new. That love cure came out on post cards two years ago. We tried it then. J. K. Foster and M. H. Taylor made a

Some Evils of Barter For The Church.

1st. It limits God's power to fulfill his promises to his people, because it puts his cause purely in a business basis. It leaves out faith, without which often Jesus himself "could do no mighty works." It leaves no place for progressive revelation of God's will or leadership.

2nd. It prevents the spiritual development of any church or christian who indulges in them, because it robs the giver of the means of growth in grace that results from voluntary giving.

3rd. It lowers the moral standard of any church that permits them by dragging the cause of God in the dust of the world. God's plans and purposes for carrying on the work of his kingdom on earth is minimized while those of the world are substituted and preferred, regardless of the fact that God hath said, "The people shall be a peculiar people," "a light unto the world," "a city that is set upon a hill."

4th. It is a compromise with the world God's cause on the one hand, the ways of the world on the other; an effort to hold on to God with one hand and to the world with the other, which is an abomination unto God. He will not have a divided heart, but says, "I would have you cold or hot," in fact, his plan as revealed from Genesis to revelation, is that his people are to be separate and distinct from the world.

5th. It proses the Lord as a beggar, begging for that that is his own. "Are not the earth on a thousand hills his." The earth is the Lord's and the fullness thereof. "Freely ye have received, freely give." "God loveth a cheerful giver," says Paul and which truth we can not fail to see in every instance from Abraham to the present time. "Provide things honest in the sight of the Lord." As Jesus sat over against the treasury watching the worshippers as they made their offering for temple expenses, he said the widow who simply gave her mite had given more than they all. The lesson in the parable of the leaves and fishes is that the littles in God's hands is sufficient. He said, "bring them to me" and like as he break and multiplied till all the multitude was fed and each disciple took up a basket full of the fragments. So, one consecrated gift, in his hands, will be blessed and multiplied till his cause shall be satisfied and the giver have an abundant added unto himself. Simply give in faith, leaving the results with God. The breaking and multiplying is to be done in his hands and not in ours. The fifty-cents, cost of the cake, is more precious in God's sight, than the fifty-cents gained by the sale in the breaking in our hands.

6th. Every instance in the old Testament where money was collected for church expenses, it was done by free will offerings--never, no never by barter, not even by assessment on apportionment. They simply gave of a willing heart or "as many as whose hearts the Lord made willing." Will not every one who wants to honor
