

THE MOUNTAINEER is published every Wednesday in Morganton, the county seat of Burke county, on the line of the W. N. C. R. R. and has the largest circulation of any paper in the county, besides circulating extensively in the counties of Rutherford, McDowell, Mitchell and Yancey. It is large and wide-spread circulation commends it to the advertising public. Rate, low to contract advertisers.

SUBSCRIPTIONS.—In order to meet the popular demand for a cheap, home news paper the publishers have adopted the following rates which include postage to any part of the United States: One Copy One Year, \$1.00; Six Months, .50; Three, .25. Subscribers will remember that these are invariably in advance, and if not paid strictly in advance \$1.50 will be charged.

Judge Ruffin Resigns. Judge Ruffin has resigned his position as Associate Justice of the Supreme Court on account of ill health. We sincerely regret that our Supreme bench has lost such a brilliant light. The interesting question now is, who will Gov. Jarvis appoint as his successor?

Caldwell on Winston. Elsewhere we publish Jos. Caldwell's comments on the departure of Mr. Patrick H. Winston Jr., late of the U. S. House of Representatives, (folding department), and we know our readers will enjoy it. When you want the hide taken off of a fellow so quick that it will make his head swim turn him over to Joseph.

The Calamities of 1883. On the fourth page of this paper we publish a list of the principal accidents for the past twelve months. We say the principal accidents, for there are thousands of disasters that are not mentioned in the list. This list shows how 143,000 persons have come to their deaths during one year and the greater part of them without the least warning. Truly 1883 has been a year of horrors.

North Carolina at Denver. In North Carolina keeps moving forward as she has for the last few years they will have to quit calling her the "Rip Van Winkle State." She made a fine display at Atlanta, her display at Boston is ahead of any other state, and now news comes from distant Denver that the Richmond and Danville exhibit of North Carolina gold, copper, iron and mica is attracting much attention in Denver, the "City of Mines." The truth of it all is that North Carolina now has one of the best Governor's she has ever had, and it is to him, assisted by the officers of the Richmond and Danville in general and Col. A. B. Andrews in particular that the State is indebted for the liberal advertising it has had of late, and from which she is bound to reap the greatest benefit.

Death of a Great Farmer. FARRISH FURMAN is dead. He was not a warrior, nor a statesman, nor a politician. He was only a farmer, who died peacefully among his own smiling fields. "Nor you, ye proud impute to him the fault / If memory's orb his tomb no trophies raise / Where through the long-drawn aisle and / fettered vault / The pealing anthem swells the note of praise." Nor you, ye politicians, bring fourth any "Dorsey's Budgets" to heap injury upon his tomb, and to blot the page of history on which his deeds are written. He was not what the world calls a hero, and yet he was a victor, who conquered the "stubborn glebe" and brought back from his bloodless campaigns the golden grain and the snowy fleece of the cotton. He was not known as an author, yet his terse sentences on "intensive farming" and the "rotation of crops" have done more to advance the interests of his native Southland than the fiction of Cook or the poetry of Hayne. Farish Furman, the farmer! Let him be known to history as the plumed knight of Earth's most ancient chivalry whose banner bears the legend "by the sweat of thy brow shalt thou eat bread."

Why Not Mean Business? We want to have a little business chat with our farmers who have lands suitable to the production of fine tobacco. Farmers of Burke, we are talking to you and we want you to listen. You are now making corn and wheat and, maybe, bacon enough to do you but you need a cash crop. Those of you who have large farms and can raise a thousand bushels of corn and from five to eight hundred bushels of wheat can do very well, but there are many of you who find it very hard after providing the necessities for your family to have enough surplus cash to pay your taxes and settle with the editor for your county paper. At any rate, that is what many of you tell the editor, and some of you say you can't pay him at all until after you sow your wheat or the circus comes or something of that kind, and that makes the tender-hearted editor sad, very sad indeed. Well you ought to have a cash crop that will enable you to take as many papers as you want, and have money enough to make the farm home cheerful and attractive, to educate your bright promising boys and to buy the girls an organ or piano to make music for you during the long winter nights, and you can have all these things and save enough money every year to make a very comfortable sum for a rainy day if you will only mean business, and learn how to cultivate tobacco like the successful tobacco growers are doing all over North Carolina and as some of your neighbors are doing right here in Burke county. Your soil has been analyzed by experts from the tobacco region, and pronounced as fine as any in the world, for North Carolina tobacco is now recognized as the most valuable on the face of the globe. Your soil is every whit as good as that around Winston, and yet a tobacco grower sold there this season 2824 pounds of tobacco for \$2,166.41, an average of \$76.44 per hundred pounds, some of this tobacco bringing as high as \$1.10 per pound, and 574 pounds selling for \$574! There is no earthly reason why like results may not be attained in Burke, except that you are not experienced tobacco growers, but it does look like such facts as the above are enough to stimulate you to make the effort to learn the secret of tobacco culture. Pamphlets giving the necessary information can be obtained from any tobacco warehouse free of cost, and you can get the practical proof of the success of tobacco culture from your neighbors. Cultivated intelligently, there can be no doubt as to success. Every one who has given it a fair trial will tell you that. There are good warehouses in Asheville, Hickory, Statesville and Salisbury and we will soon have them in Morganton. It is for you to say whether or not you will give it a trial next year. What do you say about it.

plus cash to pay your taxes and settle with the editor for your county paper. Bynum, administrator, facts agreed, judgment for defendant, appeal by plaintiff, amended complaint filed.

S. McD. Tate vs. D. C. Pearson judgment. J. H. Hallyburton, Receiver vs. D. C. Pearson, order of sale. W. H. Bishop et al. vs. Adam Bell et al. continued, leave to amend complaint and answer as of this term. Nancy Deal vs. John Mace et al. Jury verdict for plaintiff assess damages at \$7.68. In the matter of the administration of the estate of Jacob Harshaw, appeal from Probate court continued on affidavit of P. S. Yount.

STATE NEWS. A new county is wanted to be made of territory from Burke, Catawba, Caldwell and Alexander. The last issue of the Statesville American announces that "for the purpose of closing a long outstanding business of twenty-six years, the American will suspend publication after Oct 15th, until further notice." Oxford Torlight: The no fence law is now in existence in Keuse township, in Wake county. We learn that the next township to Granville is so much pleased with its workings in Keuse that they will soon take a vote and adopt the no fence system.

Raleigh Visitor: The North Carolina exhibit at Boston is beginning to bear fruit already. Several parties from New England have come to our State looking for places to buy oaks, timbers, etc. They were induced to come by seeing our exhibit which was being then placed in position. Mr. Thos. Pailey, on 25 acres of his farm just outside of Statesville on the north side, made this year 375 bushels wheat. On 20 acres he will make 200 bushels of corn, which, considering the sort of season we have had here in Statesville, does very well indeed. Landmark.

The Marion Lamp Post says Isaac Green, the mail carrier from Marion to the Gillespie Gap, on the Bakerville road was fired at from ambush when about half way up the mountain, the ball passing through the sleeve of his coat above the elbow. But for the rocking of the buggy the ball would have gone to its mark. The assassin is suspected, and jealousy is the moving cause. Asheville is the most thoroughly cosmopolitan place in the South. There's not another like it. There is the queerest blending of the old and the imaginable. The old Asheville, the Asheville of stage coach days, mingled oddly with the modern town. Houses are going up like magic, the whole place is on a boom. It is the Chicago of North Carolina. News and Observer.

The authorities of the Narrow Gauge have bought the right to lay a third rail on the Western N. C. R. R., from Newton to Hickory and are to pay for the same \$550,000 per month. The rail will be laid at once and the trains will soon be running through from Lancaster to Hickory. The road from Hickory to Lenoir will be rapidly built and it is thought will be completed by November 1st. Lincoln Press.

Winston Leader: While Rev. C. C. Dodson was preaching at Smith Grove camp meeting last Saturday night, a hissing insect crawled out into the aisle from among some ladies, and began to strike in every direction. One young lady barely escaped. This threw consternation among those near the speaker. A youth wearing a pair of heavy boots demolished the reptile, and the services proceeded. Dispatches to the Star report the hanging by lynchers, in Iredell county, on Friday morning, of a negro named Archie Johnson, for attempting to outrage a white girl only six years of age, the daughter of a highly respected planter of that county. Johnson was left hanging on the tree with a placard pinned to his breast bearing the words: "Our wives and daughters must be protected."

SEELIN BROTHERS' ENORMOUS UNITED TENTED SHOWS. Amongst the rare animals which are exhibited in the zoological department of the Sells Brothers, are a male and female hippopotami, full grown, and the largest ever brought to this country. They are difficult to keep alive, and some hundreds of gallons of water have daily to be used. They are the most ferocious of animals, and are by some said to be the identical Beneath of Holy writ. Besides these, and some hundred other attractive features of the menagerie, there is a double-horned rhinoceros, a veritable monster, weighing five tons, and the only pair of woolly Malay elephants exhibited. The great show will be here on Friday Oct. 12, and the magnetic influence of its name will draw thousands to visit it. The Sells Brothers have always had the best circus and ring performers in the country, and the department this year has been still further enlarged, with notable accessions from Europe. There is no question but that it is the largest traveling exhibition now in the country. From the Richmond Va., Dispatch of Sept. 18th '83 has the following: It is a big show; it is a clean show; it is a respectable conducted show; it is a good show. None of those rough, rowdyish, tiresome or annoying features which usually accompany a large circus are present. The menagerie part is a treat, from its cleanliness, the size and convenience of the cages and the condition of the animals. The visitor does not find a few worn-out specimens of ill-fed and mangry animals, so constantly exhibited as to become as crows. All the living things are well cared for, and are, either from their kind, their size, or their nature, rarely seen in traveling shows.

None of those rough, rowdyish, tiresome or annoying features which usually accompany a large circus are present. The menagerie part is a treat, from its cleanliness, the size and convenience of the cages and the condition of the animals. The visitor does not find a few worn-out specimens of ill-fed and mangry animals, so constantly exhibited as to become as crows. All the living things are well cared for, and are, either from their kind, their size, or their nature, rarely seen in traveling shows.

SEELIN BROTHERS' ENORMOUS UNITED TENTED SHOWS. Amongst the rare animals which are exhibited in the zoological department of the Sells Brothers, are a male and female hippopotami, full grown, and the largest ever brought to this country. They are difficult to keep alive, and some hundreds of gallons of water have daily to be used. They are the most ferocious of animals, and are by some said to be the identical Beneath of Holy writ. Besides these, and some hundred other attractive features of the menagerie, there is a double-horned rhinoceros, a veritable monster, weighing five tons, and the only pair of woolly Malay elephants exhibited. The great show will be here on Friday Oct. 12, and the magnetic influence of its name will draw thousands to visit it. The Sells Brothers have always had the best circus and ring performers in the country, and the department this year has been still further enlarged, with notable accessions from Europe. There is no question but that it is the largest traveling exhibition now in the country. From the Richmond Va., Dispatch of Sept. 18th '83 has the following: It is a big show; it is a clean show; it is a respectable conducted show; it is a good show. None of those rough, rowdyish, tiresome or annoying features which usually accompany a large circus are present. DAVIS BROS

—ARE— receiving daily such goods as the people are compelled to have.

We have just received a large lot of the famous Tennessee Wagons. These wagons are evidently growing in public favor. We have sold them for twelve months or longer, and have the first one yet to see at the shop for repairs, so you see, that speaks well for them, as dry as the summer has been.

We are also getting in a large lot of all kinds of iron which we will sell very cheap. We also wish to say that we are now selling the famous Patron Cook Stove lower than ever before. So come in and price them again, as the weather is too hot for your wives and daughters to cook over the fire the old way.

Also still sell the Moshery Wheat Drill five dollars cheaper than last season. So come in and place your order or one of As to general merchandise we can't be beat and intend to keep ahead on all kinds of Produce, Fruit, Berries, Wheat, Flour, Corn, Meal, Rye, Oats, &c. Come around and give us a call before you do your buying or selling.
