VOL. III.

MORGANTON, N. C., FRIDAY, FEBRUARY 17, 1888.

NO. 49.

**SIMMONS' LIVER REGULATOR**  
**BILIOUSNESS**  
An affection of the Liver, and can be thoroughly cured by that Grand Regulator of the Liver and Biliary Organs,  
**SIMMONS' LIVER REGULATOR**  
MANUFACTURED BY  
**J. H. ZEMLIN & CO., Philadelphia, Pa.**

I was afflicted for several years with a severe attack of jaundice. I had as good medical attendance as our section affords, who failed utterly to restore me to the enjoyment of my former good health. I then tried the favorite prescription of one of the most renowned physicians of Louisville, Ky., but to no purpose; whereupon I was induced to try **Simmons' Liver Regulator**. I found immediate benefit from its use, and it ultimately restored me to the full enjoyment of health.

**HEADACHE**  
Proceeds from a Torpid Liver and Impurities of the Stomach. It can be invariably cured by taking  
**SIMMONS' LIVER REGULATOR**

Let all who suffer remember that  
**SICK AND NERVOUS HEADACHES**  
Can be prevented by taking a dose as soon as their symptoms indicate the coming of an attack.

**NOTICE.**  
By virtue of a deed of trust executed by R. B. Smith and wife to me as trustee, on the 27th day of September, 1887, and registered in the office of the Register of Deeds for Burke county on October 11, 1887, in book O, page 290, I am the highest bidder for cash, on Monday, the 20th day of March, 1888, being the first Monday of the Superior Court of Burke county, the following property: The one-half interest in the mill house near the depot in Morganton, North Carolina, together with the lot on which said mill house stands; and also the half interest in the 20-horse-power engine and boiler, best of saws, shafting and pulleys and all other machinery in said house belonging to said R. B. Smith.

The property sold subject to a lease to Sergeson Bros., which expires in October, 1888, the purchaser receiving half of the rents until that date. Property rented at \$20 per month.  
Feb. 1, 1888.

**FEBRUARY.**  
Frank D. Sherman in Harper's Young People.  
February—fortnights two—  
Briefest of the months are you.  
Of the winter's children last;  
Why do you go by so fast?  
It is not a little strange  
Once in four years you should change.  
That the sun should shine and give  
You another day to live?  
Maybe this is only done  
Since you are the smallest one;  
So I make the shortest rhyme  
For you, as befits your time:  
You are the baby of the year,  
And to me you're very dear.  
Just because you bring the line,  
"Will you be my Valentine?"

[Specially for the boys of Burke County.]  
**Young Men, Who is the Captain of Your Ship on Life's Sea?**  
Christ always sails in the ship of prayer, He steers safely. He sees and knows all the breakers, hidden rocks and secret shelves. He needs no star nor compass. He is in himself, Compass, Star, and Quadrant. As compass he is the Eternal Circle. And in this Circle his magnetic power exists, and points to himself, in the character of light, the Star in the East, who guides all who seek and study him and are led by him, into the right Haven—the headlands of the shores beyond. He is Quadrant. The infinite altitudes and latitudes of the abodes of the universe are in Him. He is the Eternal Noonday of "Now." And the young man, who by prayer and a confiding trust, shall reach the measurement of justification and regeneration and thus know where they are, that they are in Christ and saved by grace. "One thing I know, that, whereas I was blind, now I see." This brings them (the young men) into the invisible Church of God the Good Ship of Zion, and Christ their Captain. He fills the sails of the ship with prosperous gales, to bring her into heaven's port. He turns calms into storms, to cause the Church to wake Him up. Believer, if you are in conflicts and trouble as the storms on life's sea, and know that Jesus is in your vessel, wake Him, He will whisper to the winds, be still, and you will have a great calm. Lookout, young men, there is land ahead, and if Jesus is in your vessel, the bells of the City of God will be rung at your disembarkation, and the choir of the throne will come down to the wharf and chant the song of Moses and the Lamb as you go up the shining way. But, young men, if your vessel is framed and composed of affluence, and filled with diabolic treasures, some too black to name, Satan is your captain, you will be wrecked, the breakers are in your course. **TIKVAH.**

**Victor Hugo**  
Said: "The nineteenth century is woman's century. A day will come when the only battlefield will be the market open to commerce, and the mind opening to new ideas. A day will come when bullets and bomb shells will be replaced by votes, by the universal suffrage of nations, by the venerable arbitration of a great sovereign senate, which will be to Europe what the Parliament is to England, the Diet to Germany, the Legislative Assembly to France. A day will come when a cannon ball will be exhibited in public museums, just as an instrument of torture is now, and the people will be astonished how such a thing could have been. A day will come when these two immense groups, the United States of America and the United States of Europe, shall be seen extending the hand of fellowship across the ocean, exchanging their products, their industry, their arts, their genius, clearing the earth, peopling the deserts, improving creation under the eye of the Creator, and uniting, for the good of all, these two irresistible powers—the fraternity of men and the power of God.

**TURNIP PATCH ROAD.**  
Correspondence of the Shelby Aurora.  
As I am the first to burn, I would now I wish I had hold on Taxpayer, of Cleveland county. How I would tell him not to let the railroad come across the piece of pipe clay branch bottom, or it will be covered clean up and then he will have to pay tax just the same, land or no land, turnip-patch or no turnip-patch, that's what hurts us over on the route. We have to help pay tax besides having our valuable turnip-patch ruined by the railroad itself. Oh! the horrors that hang about this third railroad. I was up at Faison the other day after my 'rora and you just ought to hear the old man X rare about the railroad wanting to split his turnip-patch open. Railroads ain't the thing I thought they were. I wish I were back over yonder on the center again where there is no fear of railroads, where if I did have to pay the tax these county line fools voted on to me I wouldn't have my turnips rooted up.  
**BISUS.**

**What Cleveland Has Done and What He is Trying To Do.**  
New York Herald, Independent.  
When Mr. Cleveland went into office he found simply the ruins of a good government. The Republicans had taken everything that was portable. The only things they left were out of reach. He began to clean up the house and get it into something like order. It has been a difficult task and it is only half done. He has worked, however, with an honest purpose, and the people are backing him up. They are urging him to go ahead, to hit corruption a stinging blow wherever he sees it, to insist that the government revenue shall be brought down to the standard of rigid economy, and to suggest whatever changes are needed in the tariff or in anything else in order to give us a larger market for our manufactures, and therefore steady work and higher wages to the toiling masses.

**A County Farm.**  
News and Observer.  
Commissioner of Agriculture Robinson, with the aid of the State Chemist Battle, is now at work on a plan for establishing in every county a model or experiment farm. This work is properly a sequel to the organization of farmers' institutes, in which the commissioners did some extensive and valuable work last year. The purpose of these farms is to show and exemplify the best method of work in every department of agriculture, and as far as practicable to provide for the examination and analysis of seeds, etc. It is proposed to have the best farming implements suited to the locality in which each farm may be located, with all information as to how they may be procured, prices, etc., and other general information valuable to farmers. The full plans, etc., will be made known in the early future.

**Buried in a Gold Mine.**  
Charlotte Chronicle.  
A rather singular incident is mentioned in connection with the burial of Mr. Jas. Robinson, who died at Matthews station last Sunday. Mr. Robinson had been engaged in gold mining during the greater part of his life and had for a long time managed the Baltimore and North Carolina mine, in this county. He was buried at Pleasant Grove church yard, near Matthews. The grave diggers had just completed the crypt when their picks uncovered a vein of rich gold ore. This discovery was regarded as a very singular one, and the old miner was literally laid at rest in a gold mine.

**You Must Work.**  
Whether you handle a pick or a pen, a wheel-barrow or set of books, digging ditches, following the plow handles or writing funny things for newspaper readers you must work. If you look around you will see that the men most able to live without work are the men who work the hardest. Don't be afraid of killing yourself with work. It is beyond your power to do that. Men cannot work as hard as that on the sunny-side of thirty. They die sometimes, but it is because they quit work at 6 p. m. and don't get home till 2 a. m. It is the interval that kills. The work gives you an appetite for your meals; it lends solidity to your slumbers; it gives you a perfect appreciation of a holiday. There are young men who do not work but the world is not proud of them. It does not know their names even; it simply speaks of them as "old so and so's boy." Nobody likes them, nobody hates them; the great busy world doesn't even know they are there.

**A Good Fee--\$2,700.**  
Shelby Aurora.  
There is much useless tirade against the lawyers, who try to run the country. They get some abuse from the farmers, but the lawyers "get there, all the same," as was shown in a recent railroad law suit, compromised in Rutherford county. The Carolina Central Railway sued Rutherford county commissioners for \$27,000 and interest on old bonds issued before the war. Six months afterwards it was compromised by the issue of new bonds of \$27,000. The lawyers for Rutherford county received \$600, we are informed, for legal advice, while the Carolina Central lawyer, T. H. Cobb, who was here this week received \$2,700 in bonds for his fee. That was good pay, when we consider there was not a speech made, only a complaint and answer filed.

**How to Grow Rich.**  
Nothing is more easy than to grow rich. It is to trust nobody, to befriend none, to get everything and save all you get, to stint ourselves and everybody belonging to us, to be the friend of no man and to have no man for our friend, to heap interest upon interest, to be mean, miserable and despised for some twenty or thirty years, and riches will come as surely as disease and disappointment. And after you have become wealthy you may live a few years longer, but death comes and your body is buried in a hole, the *heirs rejoice*, and your soul goes—where?

**A Moonless Month.**  
The month of February, 1866, was in one respect the most remarkable in the world's history. It had no full moon. January had two full moons, and so had March, but February had none. Do you realize what a rare thing in nature that was? It had not occurred since the time of Washington, nor since the discovery of America, nor since the beginning of the Christian era, nor the creation of the world. And it will not occur again, according to the computation of astronomers, for—how long do you think?—2,500,000 years. Was not that truly a wonderful month!—*Statesville Landmark.*

**The Size of It.**

**Our Public Schools.**  
Wilson Advance.  
The gratitude of the negroes to the Democratic party for the money paid them under Democratic administrations is something astonishing. The white people of North Carolina have taxed themselves to give the ungrateful negroes the benefits of an education. What returns have they received therefrom? Nothing except continued and hostile opposition to every measure proposed by the white people of the State. It may be well to see, in figures, just what the Democratic party has done for the education of the negroes in North Carolina. The Wilmington Messenger gives the figures on the subject:  
Apropos of matters educational, how many people know that of the \$2,000,000 annually raised by taxation, State and county, for public and educational purposes, the white people pay \$1,875,000 and colored people only \$125,000. It is another evidence that the Democrats are the best friends the negro ever had and do more for his welfare. The negro pays about \$100,000 poll tax and about \$25,000 property tax. He gets for education every year \$250,000, or twice as much as the whole volume of his taxes. White men pay all the State and county expenses, pay for all their schools. Can any people on the face of the earth beat that record? Here are facts in cold and accurate figures.  
The Advance believes that the Democratic party has done and is doing too much for the education of the negro in comparison with what is being done for the education of the white people of the State. It believes—as it has before said—that the money collected for educational purposes should be given out according to the needs of the respective schools—white or black. It does not believe that the money should be distributed per capita, but that a Board should be appointed in every county that will see to it that both schools are run the same length of time. Let it be the duty of this Board to engage the teachers, white and black, at such salaries as they can be procured. We do not believe the average negro teacher is worth as much, nor do we believe he should receive as much pay, as the average white teacher.  
A change in our school law, incorporating the idea above set forth, would work untold blessings to the white children of North Carolina. We are heart and soul in favor of such a law and we believe people over the State are in full sympathy with us in it. What do the brethren of the press think of the proposition? We would like to hear from them on the subject.

**A Woman's Discovery.**  
"Another wonderful discovery has been made and that too by a lady in this county. Disease fastened its clutches upon her and for seven years she withstood its severest tests, but her vital organs were undermined and death seemed imminent. For three months she coughed incessantly and could not sleep. She bought of us a bottle of Dr. King's New Discovery for Consumption and was so much relieved on taking first dose that she slept all night and with one bottle has been miraculously cured. Her name is Mrs. Luther Lutz." Thus write W. C. Hamrick & Co., of Shelby, N. C.—Get a free trial bottle at Tull's Drug Store.
