It is to be hoped that Mark does not neglect to take his full dinner pail along when he starts off to his day's work as an orator.

Teddy is an athlete, of course, and can chin himself lots of times. The trouble is that he can also "chin" other people altogether too much.

The paramount issue cannot be dodged by saying that it does not exist. It must be met and if it can be disproved, no one will be more glad than sincere and patriotic Democrats.

If Teddy had known that he was going to run for Vice President he might not have insulted the negro troops who saved his command from being wiped out, by calling them cowards.

Mr. Hanna says that he was misquoted as saying that there were no trusts. What he really meant was that there were no illegal trusts. If this is so, what is the reason they have not been made illegal?

It is somewhat curious that all the recent strikes are in Republican states. There seems to be something about Republican rule, even in states, that riles the workingman. If it is nothing else, it is the insufferable airs the Republican trust bosses assume.

The first thing we know, the Empress will have appointed the rest of the Boxer generals as members of the peace commission to negotiate in regard to the surrender of those guilty of the late atrocities.

All Americans will regret the useless slaughter of 52 brave American soldiers in the Philippines, but they should even more regret the policy of deceit that conceals the facts of the situation there from the country.

Recently, some Democrat took the short end of a wager at 3 to 1 that Bryan would carry the three states of Indiana, Illinois and Kentucky. And he was a man who is longsighted enough not to risk his money against a dead sure thing.

The President has certainly had bad luck with the Taft report. He held it back for a month, awaiting the most favorable chance to spring it on the public and then, almost immediately after it had been printed, came the report of the severest fighting of the entire "war" in the islands. It's hard luck, Bill.

## A Game Family.

The wife of a Methodist minister in an Indiana town has been married three times. Her first husband was named Robins and the second one Sparrow and the present one is Quales. There are two little Robins, one little Sparrow and two little Quales. Their fellow townsmen designate them as the game family. -Exchange.

## A FIENDISH ATTACK.

An attack was lately made on C. F. Collier of Cherokee, Iowa, that nearly proved fatal. It came through his kidneys. His back got so lame he could not stoop without great pain, nor sit in a chair except, propped by cushions. No remedy helped him until he tried Electric Bitters which effected such a wonderful change that he writes he feels like a new man. This marvelous medicine cures backache and kidney trouble, purifies the blood and builds up your health. Only 50c at John Full Drug Store.
