It is very often that the most insig-nificant symptoms are forerunners of the most violent disease. There is not a more destructive disease than Cancer, and in a majority of cases it is first indicated by a very small scab or sore, to which no attention is attracted, until it before long develops into most alarming condition

Here is such a case, where the first symptoms were too small to be noticed for quite a time. Mr. J. B. Arnold be-longs to one of the oldest and best families of Carolina; he is well and favorably known throughout South Carolina, and has resided at Greenwood for years. Caucer is hereditary in the family, an aunt on each side having died from it. Several years ago a small spot, like a tiny ulcer. about the size of a bird-shot, appeared just under his left eye, above the cheek He thought nothing of it for some time, until it began to grow rap-idly, spreading all the time, and de-stroying the flesh as it went.

MR. J. B. ARNOLD. He says: "It gave me a great deal of pain—those sharp, darting pains so characteristic of cancer. I took many so-called blood medicines, without the slightest effect, and sought the help of the best physicians, but they did me no good; one told me, however, that I was incurable and had better make my arrangements accordingly. I was on the verge of despair, when Dr. J. L. Miller, one of the leading druggists of my town, recommended S. S. S. The first bottle seemed to make me worse, but Dr. Miller told me this was a favorable symptom, and by the time I had taken the second bottle, the cancer began to discharge, and as I continued this became quite profuse, and kept up for some time. Then it gradually grew less, and after awhile ceased altogether, and to my delight the place dried up and is cured entirely, so that

nothing remains but a scar, "I consider S. S. S. a boon to suffering humanity, and feel that I owe my life to it, as the cancer had made such progress when I began S. S. S. that my flames, from the explosion of a lamp. death was declared to be only a matter of a very short time. The cure ef. They had left their three children fected in my case is considered by every one most remarkable, and clearly demonstrates the fact that S. S. S. does cure hereditary cancer. No one who is afflicted with this dreadful disease can afford to fail to give S. S. S. a trial, for that is all that is necessary to convince them of its virtues,"

The above is but one of many remarkable cures being daily made by S. S. S. Cancer is becoming alarmingly prevalent, and manifests itself in such a variety of forms, that any sore or scab, it matters not how small, which does not readily heal up and disappear, may well be regarded with box. In one of the few letters that have been preserved written by Luttrell there are some aninsing lines which may be thus explained. The letter was written from Dropmore to Rogers. There had been some joke between them about a stingy friend, one of their coterie, and a Greek epigram appeared to illustrate his miserly characteristic. Luttrell had translated the Greek, and, as he says, "the following is as close a fit as I can make it in English:"

Cries —, in his closet, once spying a mouse, "Fray, what business have you, little friend, in my house?" Bays the mouse, with a smile, to the lover of hoarding, "Don't be frightened; 'tis lodging I look for,

To which might be added in the way of retort courteous:

"Bince that's all," repties —, "'twould be hard to deny you.

Ton may lodge how you can, but to board I defy you."

Telephone Mistakes. Telephone mistakes have their serious side. A man who wished to communicate with a gentleman named Williams looked in the telephone directory and then called up a number "south." Presently there came through the receiver a soft feminine"Hello," and he said,"Who

is that?" "This is Mrs. Williams." "Have you any idea where your husband is?"

He couldn't understand why she had rung off so sharply until he had looked in the book again and discovered that he had called up the residence of a prominent widow.-Chicago Record.

In addition to his duties as United States senator from Colorado, Edward O. Wolcott is the general coun sel of the Denver and Itio Grande railway. Of course he receives many applications for passes. A young lady living in the southern part of Colorado desired to visit Denver. She had a friend of her own sex in Denver who was a friend of Senator Wolcott's. The young lady wrote her Denver friend a long letter, saying she would like to visit the capital, and concluded it as follows,

He Could Not Fill the Order.

The Denver lady, in a moment of absentmindedness, turned the letter over, indorsed a request to Senator Wolcott for a pass on the back thereof and mailed it to Mr. Welcott's office.

The next day she received this re-

Chicago's Plucky Mayor.

The mayor of Chicago attended banquet of the millionaires of that city the other night and surprised them by telling them that they were principally responsible for the evils and scandals of municipal government. There would be no bribe takers at one end of the dirty rope, he reminded them, if there were no bribe-givers at the other end; and it was not the classes who drink beer instead of champagne and smoked pipes instead of the best eigars, he went on to say, who were engaged in buying street railway franchises and in getting at \$40 for the purpose of taxation. His frankness was hardly consistent with the hilarious object of the occasion; but nobody ventured to sippi have demonstrated the fact challenge the correctness of his statements.

The law passed by the Legislature requiring a board three inches wide to be put at the top of all wire tences along public roads went into effect on the first day of January, 1896. Interested parties should note this fact.
