### Spain's People Are Starving.

While Spain is spending millions of dollars in an effort to crush the Cuban insurrection thousands of her poor people at home are suffering the pangs of hunger, and hundreds have died of starvation. Queen Regent Christina has arged vainly that immediate measures be taken to save these wretched people, even if it is necessary to suspend the dispatch of troops to Cuba in order to obtain necessary funds, and worn out with worries and anxieties, she is suffering from extreme nervous prostration.

The trouble originated in the failure of the crops, owing to the prolonged drought following previous bad years. Farmers were ruined, but, despite this, strenuous efforts were made by tax collectors to ob Goodsle, once a member of the tain the full payment of taxes, which, church, that the "manifestations" since the outbreak of the insurrec-Lee & Wheeler, of Durham, Tues- tion in Cuba, have been intolerable in amount.
