MOUNT AIRY, N. C., THURSDAY, JUNE 17, 1897.

Dr. Miles' Heart Cure Does It.

HER LIFE TRULY SAVED.

MRS. LA POINT, 2137 Humboldt St. Typhoid fever left me with heart trouble of the most serious nature. Nothing the dectors gave had any effect. I had severe pains in the heart, and was unable to lie on my left side for more than three minutes at a time. My heart seemed to miss beats, and I had smothering spells, in which it seemed every breath would be my lest. We accidently saw an advertisement of

and Restorative Nervine, and purchased a bottle of each. After taking the remedies a week, I could be lifted in a chair and sit up an hour, and in a short time I was able to do light housework. I shall be evergrateful toyou for your wonderful medicines. Truly they saved my life.

MRS. CHAS. LA POINT.

Dr. Miles Heart Cure is sold on a positive guarantee that she first bottle will benefit. All druggists sell it at \$1 6 bottles for \$5 or it will be sent, propaid on receipt of price by the Dr. Miles Medical Co., Ekshart, Ind.

BOTH SENATORS, PRITCHARD AND BUT LER, FIGHTING THE INCREASE OF TOBACCO TAX.

f they Vote Like they Talk, there is Yet Faint Hope that the Tax Will Remain as it is.

A dispatch of Wednesday from Washington, D. C., says: By the action of the Republican caucus yesterday the Republican Senators igreed to vote as one man for the amendments made to the tariff bill by the Finance committee. This means that the amendment increasing the tax on tobacco from 6 to 8 cents per pound will be adopted. The tobacco amendment, however, will not prevail without a desperate fight, and there is a small chance for a victory for the opposition of the Dr. Miles' New Heart Cure tax I want to say right here that it is in the power of any Republican Senator to get in the tariff bill most everything his people want. I heard to day, by way of illustration, that Senator Perkins, of California, when he learned that fruits would be on the free list, stated to the Finance committee that California fruits must and should be protected. That unless the committee gave what the people of California wanted in the way of protection he would vote against the bill. Thus singly and alone Senator Perkins got what he went after. The tobacco schedule, that is the internal revenue feature of it, will not come before the Senate for a week or ten days. This will give ample time to the growers to get up petitions to send to the Senate protesting against the increased tax. The more petitions protesting against the tax the more show there

will be for defeating it. Senator Butler said to-day that he will speak against the amendment increasing the tobacco tax and will leave no stone unturned to beat it. If, by filibustering, he can save the farmers of North Carolina from this additional burden he will do so. He said that when it came to the interests of the people in his State he would think long and loud before submitting to have his hands

tied by any caucus action. In his

opinion a man's first duty is to his State and to his party afterwards. Senator Butler is not alone in this inion. It was by putting such opinion into practice that Senator Jones, of Nevada, was enabled to get everything in the tariff bill that his little State requested. And while New England will kick against the tax on hides, nevertheless they will vote for it, because that was the price they paid to get the tariff bill out of the Finance committee room and into the Senate. Not all the

Senators have the courage of Jones and Butler. Judge Simonton's Decision. The South Carolina Dispensary Law has been bitterly and refentlessly fought. It has survived many unbuckled his sword and laying it court to declare the bonds null and unfavorable decisions and merciless newspaper denunciation; and is now asked not that of rank, which he failed to comply with its contract. a part of the constitution of South | could do for himself. Too Much Talking.

It is one of our proudest boasts that ours is a land of free speech. On all subjects, theoretical or practical, every one has the full right to think as he must, and to speak what he thinks, with no limitations save those imposed by the rules of decency. In expressing himself about men and measures he may be censorious or landatory, satirical or obsequious, as his temper may in-

It may not be claimed that we Americans are at all inclined to be sparing of this great privilege. We are, in truth, a nation of speakers. It is expected that a speech shall be a leading feature of every occasion where multitudes assemble for any purpose. The man-and of late days, the woman-who cannot speak fluently and readily upon short notice, is at a great disadvantage. Words are what are wanted. Words that these should be expressive of any great, earnest, forceful thoughts. Indeed, the man is apt to be rated as the more popular orator who can use a great many fine words without many ideas. It is all very well if he can send his hearers away laughing, but he runs the risk of expending his labor in vain if he sends them away thinking.

speaks in this country during a State museum in Raleigh. It was twelvementh to give expression to captured at Cape Lookout. one earnest, forceful, overmastering truth, there would be a mighty impulse given to the world's forward movements. It may be admitted without any reflection upon those who speak that this is not the case. good, but is no longer new. The bulk of a year's oratory isso largely made up of these two kinds that it world's fund of truth.

But we should judge amiss if we should pronounce all this speaking has to be repeated with some mod- - Davidson Dispatch. ifications. So the speaker's occupation is likely to continue. But peat.-Washington Post.
