SPEAKS OUT FOR THE FREE COINAGE OF SILVER.

The Farmers in Mexico Prosper While those in America Sell Their Crops at or Less Than Cost.

Mr. Charles D. Lane, the noted California gold miner, who has won national distinction by his aggresive advocacy of free silver coinage, is at the Normandie. He has a tall, commanding figure, is plain and blunt of speech, and in his talk uses Western dialect freely. He has lived in California from his boyhood, his parents having emigrated there from Missonri. His mines are ranked among the richest producers in the United States and are exclusively gold properties. In talking over the situation with a Post reporter, Mr. Lane said:
