#### MOUNT AIRY, N. C., THURSDAY, MARCH 28, 1901.

## The Fate of Ex-Presidents.

The death of Benjamin Harrion again confers upon Grover Cleveland the distinction of being the only living ex-President of the United States. Once be-

fore he held the same position. That was in the early part of 1893, the death of Rutherford B. Hayes, on January 17th of that year, leaving Mr. Cleveland then, as now, the only surviving form-er incumbent of the presidency. On March 4th of the same year, however, he changed places with General Harrison, who became an ex President, while Mr. Cleveland became an actual as well as an ex-President. The Presidents of the United States have usually been well along in years when they have attained their high office, and, of late years especially, the hand of death has not permitted the vexations question as to what should be done with

our ex-Presidents to claim much attention. After the death of Andrew Johnson in 1875 there was no
