THE ONLY REMEDY LEFT.

WORSE THAN WAR.

We hear much of war's havoe, of A Great Meeting to be Held in May the love of life, and much ado is to Start Anti-Trust League. made over a battle in which a few

This week's impe of the Southern Tobacco Journal announces that a meeting of independent tobacco manufacturers will probably be held in May, to which other manufactorers in all lines will be invited. This meeting is to formulate plans for starting the Anti Trust League of America, and arrange to put active organizers in every large city in the country. State organizations are to be perfected, and through each State organization county organizations will be arranged, so that every farmer in the United States will have a chance to join this one noticed.

organization which promises him The following from a Simla, In-dia, letter to the London Times will better prices for his products. The plan of the organization will be to form Anti Trust Leagues in every community in this country, each member signing a printed forming in that country :

have come to hand more than confirm the conjecture that the official estimate of three quarters of a miltrust-made goods. There will be no lion as the loss of life due to the distrees of last year is far short of the mark. In all probability at least 5,000,000 have died in India since 1896 from canses directly due to in every line of industry, and also famine

"Forther returns received show that enormous decreases have been recorded in the districts of the Central Provinces affected by famine. Thus Raipur is 144,000 short ; Chanda, 108,000; Betnl, 37,000; Patna,

what we call the weather." "And you say that the rotation of show a decrease of more than one "And you say that the rotation of million persons as compared with the earth on its axis is an electrical phenomenon also ?"

"Yes; such a conclusion is renderbeen confidently expected, as ten ed probabl by my experiments years ago the growth recorded was Not only the rotation on its axis. but its revolution, too, about the sun

population increased at least in its magnetic action. We know that normal proportions, as shown by the the sun rotates on its axis. Now, I returns of births and deaths. But find by experiment that when a in 1896 began that series of lean magnet rotates it causes magnetic years which has worked such dire bodies within its influence to revolve havoe throughout India." about it. The nearer they are to

Five millions of human beings the magnet the faster they revolve, swept away, while nations are spend and this is precisely what we observe ing millions in conquest, and mil- in the case of the planets. And I lions in contriving more destructive have also discovered that a sphere implements of war, and yet with revolving about a magnet turns on steam and telegraph the continents its axis. This is due to the fact that are drawn more closely together the side nearest the magnet is slightthan some of the neighboring conn- ly retarded by the effect of the attries were a generation ago. If the traction, and this causes the globe to spirit of humanity influenced the rotate while moving on its orbit nations of the earth as much as the around the magnet. So we see that spirit of greed and grab does, there the san by its own motion causes would be no such horrid stories to the earth to revolve about it, and write as that of India in the past that this in turn produces the rota Already the meeting promises to five years -- Wilmington Star. tion of the earth on its axis, which
