MOUNT AIRY, N. C., THURSDAY, MAY 28, 1903.

NO. 48.

SUPERINTENDENT OF SCHOOLS FOR FIFTEEN YEARS.

Professor Powell, of Washington, D. C., Recommends Peruna.

PROF. W. B. POWELL
SUPT. PUBLIC SCHOOLS
WASHINGTON
D. C.

Prof. W. B. Powell, of Washington, D. C., is one of the best known educators in the country. For fifteen years he has been Superintendent of the Public Schools of Washington, which is considered the best school system in the United States. Professor Powell is the author of a number of school books which are used throughout the United States.

This well known gentleman does not hesitate to recommend Peruna to his countless friends and acquaintances all over the United States. In a recent letter from 1410 N. W., Washington, D. C., to Dr. Hartman, he says: "Persuaded by a friend I have used Peruna as a tonic, and I take pleasure in recommending your remedy. Peruna is indeed a good medicine and should be in every household."—W. B. POWELL.

SUCH straightforward evidence cannot be overlooked. What the common people say carries weight, but when a man of national prominence says "Peruna should be used in every household," it is a significant fact to the increasing prominence and undoubted efficacy of Peruna.

Peruna is of national fame as a cathartic remedy. It is the only internal system-cathartic remedy known to the medical profession. It makes diseased mucous membranes healthy, whether it is the mucous membrane lining the nose, throat, lungs, stomach, kidneys or pelvic organs. It cures various diseases of all these organs, because two-thirds of the file of mankind are due to catarrh. With healthy mucous membranes climatic diseases lose their terror, the system is enabled to throw off contagion, and health follows inevitably.

Mr. A. T. Wood, Mt. Sterling, Ky., writes: "For many years I have been a sufferer from catarrh, and have spent time and money with physicians and used many kinds of remedies which were 'guaranteed cures', but in every case it was money thrown away. I resented to benefit whatever from them. In my recent visit to search for relief I purchased a bottle of Peruna, having no confidence in it whatever at the time. This was about one year ago, and I began to improve and was able to attend to my business without being constantly hampered by every kind of pain known to a human being. My hearing, which was almost entirely gone in one ear, got very much better. The medicine not only seems to cure, but to prevent disease."

"This winter when every one was suffering from the grippe, I stood like a stone wall, absolutely proof against it. I am not a believer in 'patent medicines,' having found the majority of them false, but I do not hesitate to recommend Peruna as the best medicine for catarrh the world has ever seen. I keep a bottle of it at home constantly and shall continue to do so, because I believe it to be the best medicine on earth. I never leave home that I don't put a bottle of it in my grip."

Mr. Eran D. Bowen, Dodge City, Kan., Conductor on the A. T. & S. F. R., writes: "I have had catarrh of the stomach for seven years, and I began to think that I never was going to be cured. At the time I began taking Peruna, I was unable to make more than one or two trips on the road at a time, not being able to keep anything on my stomach. I then weighed 168 pounds. I have been taking Peruna since that time and have never lost a trip, and now weigh 200 pounds."—Eran D. Bowen.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case, and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, Ohio.

He Cures Without Money.

On January 25th an article appeared in The Constitution giving particulars concerning the remarkable psychic force which R. B. Harrison, the well known manager of the Southern Press Clipping Bureau, had developed. It was also stated that The Constitution would give the results of some of Mr. Harrison's experiments. This publication resulted in a deluge of letters and personal visits by people variously afflicted, who begged to be healed. It was a matter of impossibility to treat all the applicants, or even to answer letters.

Mr. Harrison agreed to treat ten patients and publish the results. He has cured between twenty-five and thirty people, and has letters from them showing thanks and invoking God's blessings for the relief he has brought to them. He states that he has only exercised his healing powers for an hour each night, as he does not allow it to interfere with his regular newspaper work during the day. The following summary of cases treated and cured makes an interesting exhibit. Being a business man, who only exerts his healing powers for the benefit of suffering humanity, the certificates are not convertible into coin, but are treasured as pleasant memories of good deeds.

The cases cured were as follows: Man of 50—Had rheumatism so that he could not leave his room. Cured in seven days (without being seen by Mr. Harrison) so that he could return to his regular work.

Girl of 13—Chronic indigestion, which caused hiccoughs after each meal. Cured in two minutes. Marked improvement in general health, and not a hiccup returned in three months.

Cured self of spasmodic stricture of the oesophagus. Three years' standing. Has been cured for twelve months, with no return of the trouble. Extreme nervousness also cured.

Young lady of 17, who had the headache habit. Suffered daily. Cured in two minutes. Two months have elapsed and there has been no return of headache. Health greatly improved.

Lady employed in The Constitution building. Acute indigestion. Cured in ten days. Health restored.

Lady employee of The Atlanta Constitution. Case of rheumatism of twenty-two years' standing. Had decided limp. Wrists and ankles swollen. Had not laced her own shoes in twelve months. Cured in two weeks. Swellings reduced in one week. Walks as well as anybody now.

Negro man—Porter for The Constitution. Cured of severe case muscular rheumatism in four days.

Boothlacker cured of severe case of headache while shining a customer's shoes.

Scrub woman, Austell building. Cured of severe case of muscular rheumatism of four years' standing in four days.

Lady of Hawkinsville, Ga. Bad case of rheumatism cured by what is called absent treatment in four days. In her letter she says: "I am happy to tell you I have been free from rheumatism since the fourth day I began your treatment. I shall ever feel grateful for the relief you have given me."

Young business man cured of severe headache in two minutes. No return in two months.

Negro washerwoman cured of rheumatism through medium of a 6-year-old child who made the suggestion for Mr. Harrison.

Case of rheumatism of an old man, bedridden. Was enabled to sit up and walk about the house in six days.

Carpenter and contractor had rheumatism so badly that he dragged one foot behind him in going up steps. Thoroughly cured in one week. No return of trouble after three months.

Lady of 70 had rheumatism so badly that she could scarcely walk. Another case of absent treatment; patient was 180 miles from Atlanta. In her letter she says: "At first I felt so sudden a change that it made me almost forget that I had been an intense sufferer for such a length of time." After five days' treatment she walked a mile to a neighbor's home.

Porter of state capitol had a case of rheumatism which had made him a cripple for years and walked with a stick. Threw away his stick in three days and cured in two weeks.

A Confederate veteran whose foot was so drawn and cramped with rheumatism that he could not put it flat to the floor. Cured in seven days so that he could walk without use of cane.

In addition to this list, numberless cases of headaches, backaches, hiccoughs and minor troubles have vanished under Mr. Harrison's magic touch.

A remarkable feature of Mr. Harrison's use of his powers is that he has never accepted money for a treatment and believes the treatment would not be successful if he accepted payment. The cases he has cured were done for the purpose of following up an interesting experiment and he is using his powers only when he can benefit some sufferer who has failed to find relief elsewhere.

—Atlanta Constitution.

A Young Tar Heel Scientist.

A young southerner, who has won great distinction in the scientific world, though he is now only 24 years old, is Dr. Harold Pender, brother of Mr. D. Pender, of this city, and of B. D. Pender, an officer in the United States navy, stationed at the Norfolk navy yard.

Dr. Pender is a native of Tarboro, N. C., son of the late R. H. Pender. He lived in Tarboro until the death of his father, when he went to Baltimore to live with an older half-brother, Mr. George L. Pender. Here he entered the McDonough school, established twelve miles out of Baltimore for the education of Baltimore orphans boys, where he spent six years, leading his class and winning a scholarship in Johns Hopkins. Before reaching his 22d year he won his Ph.D., being the youngest Ph.D. ever graduated by Johns Hopkins.

The following is from the Syracuse, (N. Y.) Standard:

"Dr. Harold Pender, the former instructor in the department of physics in Syracuse university, returned from Paris yesterday morning, where he successfully performed his now celebrated experiment of showing the relation between static and voltaic electricity. M. Cremieu, a French physicist of note, had disagreed with Prof. Pender and the latter was invited by the French scientists to journey to Paris and perform his experiment. The demonstration was a complete success and Prof. Pender conclusively proved the correctness of his former work."

Before Dr. Pender left for his native land, the two experimenters gave a complete detailed report of the work before the Physical Society of France, composed of the leading scientists of the country. They illustrated their report by a number of experiments, among them being one showing directly the presence of a magnetic field around a rapidly rotating, statically charged disc. This experiment had never before been performed in public and its success to a way the Frenchman's breath.

The money to carry out the experiments was furnished by the University of Paris and the Institute of France, while the Carnegie Institute at Washington paid the personal expenses of Dr. Pender.

The professor has resigned from the faculty of the Syracuse University and has accepted a position with the Westinghouse Electric Company of Pittsburgh."

The purpose of Dr. Pender in entering the employ of the Westinghouse Company is to learn the practical side of electricity, and to that end he enters as an apprentice and will spend two years working his way up.—Norfolk Virginia Pilot.

Danbury-Salisbury Railroad.

Danbury is banking in the fine prospects of a railroad at an early day.

The last legislature passed an act incorporating the Salisbury Railway Company with a capitalization of \$25,000 and privilege to increase to two and a half millions. This company is composed of a number of wealthy Salisbury citizens who desire to reach the abundant iron ores, timber, water power, produce, summer resorts, mineral springs and other fine resources of this region.

The route of the road will be from Danbury via Germantown, Winston and Salisbury to some point on the Carolina Central in Union county, probably Monroe, making a line something over a hundred miles in length.

The promoters of the road, among whom are doubtless moneyed men of the Twin-City are, it is thought, aroused by the efforts of Danville and Greensboro business men to control the trade of Stokes, Surry and lower Patrick (Va.) It is well known that a railroad through this section from a point on the N. & W. in the eastern part of the county has been in embryo for some time, and that a number of the wealthiest citizens of Danville, Greensboro, Reidsville, Leaksville and Madison are at the back of it.

More than one city within a hundred miles of this rich and untapped region, whose trade has built up Winston, is laying plans to divert it from the old channels into their marts.—Danbury Reporter.

The Value of Expert Treatment. Everyone who is afflicted with a chronic disease experiences great difficulty in having their case intelligently treated by the average physician. These diseases can only be cured by a specialist who understands them thoroughly. Dr. J. Newton Hathaway of Atlanta, Ga., is acknowledged the most skillful and successful specialist in the United States. Write him for his expert opinion of your case, for which he makes no charge.

Dizzy? Then your liver isn't acting well. You suffer from biliousness, constipation. Ayer's Pills act directly on the liver. For 60 years they have been the Standard Family Pill. Small doses cure. All druggists.

Home Improvement.

The question of home improvement is always a live one, and now that the mortgage is paid off and there is a little money in the bank some thought should be given to this subject. We hate to see a twenty thousand dollar man trying to live in a two hundred and fifty dollar home, for he ought in justice to his family to live in something better. Be the house what it may, there is still a chance for all to improve the home surroundings. So much may be accomplished with paint, straightening and cleaning up, tree planting and lawnmaking that even the comparatively cheap and poor house can be made the nucleus of a pretty and attractive view. American women are rated as the most attractive of any women, and largely because of the taste they exhibit in attire and manner. In the same way the American home should be made equally pleasing. It looks like foolishness to put \$3,000 in a fine house and then pile firewood and old harness on the front porch, while the poultry be fowl of the walks and make dusting places of flower beds.

The Roll Call of the Great.

If the roll were called for the truly great, who would dare to answer? Would it be those who have clean hearts and clean hands, who have taken advantage of no one, but have helped everybody, and have retarded no one's progress, would it be those whose lives have been a perpetual benediction of cheerfulness, encouragement, helpfulness, and inspiration, regardless of whether they have accumulated money or not; or would it be those who have blocked the way for others and used them as stepping stones upon which to climb to their own goal, regardless of their welfare, would it be those who figure most conspicuously in the gaze of the world and the publicity of newspapers?

If the roll were called, and only really honest responses were accepted, would not thousands of so called successful men of wealth be dumb? Would not many who figure in the world's fame also be mute? Would not the tongue of a man be tied whose success is full of the ghosts of ruined lives?

Would the millionaire who has ground life and opportunity, hope and ambition out of those who have helped him to make his fortune dare to answer to this roll call?

Yes, would we not get more responses from the inmates of poorhouses—from the poverty stricken,—than from the millionaires themselves?

Mr. Joseph Pominville, of Stillwater, Minn., after having spent over \$2,000 with the best doctors for stomach trouble, without relief, was advised by his druggist, Mr. Alex. Richard, to try a box of Chamberlain's Stomach and Liver Tablets. He did so, and is a well man to day. If troubled with indigestion, bad taste in the mouth, lack of appetite or constipation, give these Tablets a trial, and you are certain to be more than pleased with the result. For sale at 25 cents per box by C. E. Galloway and J. W. McPherson & Co.

Too Great a Risk. In almost every neighborhood someone has died from an attack of cholera or cholera morbus, often before medicine could be procured or a physician summoned. A reliable remedy for these diseases should be kept at hand. The risk is too great for anyone to take. Chamberlain's Colic, Cholera and Diarrhoea Remedy has undoubtedly saved the lives of more people and relieved more pain and suffering than any other medicine in use. It can always be depended upon. For sale by C. E. Galloway and J. W. McPherson & Co.

Does it Pay to Buy Cheap? A cheap remedy for coughs and colds is all right, but you want something that will relieve and cure the more severe and dangerous results of throat and lung troubles. What shall you do? Go to a warmer and more regular climate. Yes, it is possible, it is possible for you, then in either case take the ONLY remedy that has been introduced in all civilized countries with success in severe throat and lung troubles, "Doan's German Syrup." It not only heals and stimulates the tissues to destroy the germ disease, but always inflammation, causes easy expectoration, gives a good night's rest, and cures the patient. Try one bottle. Recommended many years by all druggists in the world. You can get this reliable remedy at L. W. West's drug store, Mount Airy, N. C. Price 25c and 75c.
