SUMMER COLDS

Produce Chronic Catarrh.

Madame Isabella Ellen Bavaas, Life Governor Grand Lodge of Free Masons of England, in a letter from Hotel Saratoga, Chicago, Ill., says:

This summer while traveling I contracted a most persistent and annoying cold. My head ached, my eyes and nose seemed constantly running, my lungs were sore and I lost my appetite, health and good spirits. Doctors prescribed for me all manner of pills and powders, but all to no purpose. I advised with a druggist and he spoke so highly of a medicine called Peruna, that he induced me to try my first bottle of patent medicine. However, it proved such a help to me that I soon purchased another bottle and kept on until I was entirely well. Madame Isabella Ellen Bavaas. Summer colds require prompt treatment. They are always grave, and sometimes dangerous. The promptness and surety with which Peruna acts in these cases has saved many lives. A large dose of Peruna should be taken at the first appearance of a cold in summer, followed by small and repeated doses. There is no other remedy that medical science can furnish, so reliable and quick in its action as Peruna. Address The Peruna Medicine Company, Columbus, Ohio, for a free book entitled "Summer Catarrh," which treats of the catarrhal disease peculiar to summer.

Suicide From Brooklyn Bridge.

New York, June 23—Archibald Morrison, a silk salesman, committed suicide today in a novel way from the Brooklyn bridge. He climbed the platform railing south of the Brooklyn tower, jumped on top of a train bound for Brooklyn, fell off the last car, struck the third rail, was flung across the track, fell through the timbers and landed on Front Street, more than 100 feet below, a mangled corpse.

It was cold, clammy and drizzly on the bridge and few were walking over. Morrison was not seen by any one before he landed on top of the car. A passenger on the rear platform of the last car of the train saw him jump and yelled. As Morrison jumped part of the car ran under a bar crossing the trestle work and he was hit by it. It swept him off the car, landing him on the third rail. He was probably dead before he fell to the street.

Right Was Her Theory. "I would cough nearly all night long," writes Mrs. Ohas. Applegate, of Alexandria, Ind., "and could hardly get any sleep. I had consumption so bad that if I walked a block I would cough frightfully and spit blood, but, when all other medicines failed, three \$1.00 bottles of Dr. King's New Discovery wholly cured me and I gained 25 pounds." It's absolutely guaranteed to cure coughs, colds, la grippe, bronchitis and all throat and lung troubles. Price 50c and \$1.00. Trial bottles free at C. E. Galloway's drug store.

In Asheville some days ago a boy named William Landreth climbed a cherry tree on the street and grasped two live electric wires running through the tree. He was thrown to the ground and his hands terribly burned. Later both hands were amputated in the hope of saving his life, but he died of lockjaw.

Mrs. Thomas Chapman, of Chandler's Mill, N. C., killed herself with a razor Monday.

The Whiteville Horror.

H. B. Register and son, Jabel Register, the white men charged with being implicated in the horrible murder, on the night of March 29th, of Jessie Soles, white, and Jim Stanley, colored, in their home ten miles from Whiteville, in Columbus county, have been arrested and are now in jail.

The crime with which the men are charged is one of the most atrocious in the criminal annals of the State. Cross Edmondson and another white man, who were arrested immediately after the murder and who are still in jail, made a confession and warrants were at once sworn out for the Registers, but they disappeared and were then outlawed, the Governor offering a reward of \$200 each.

Soles and the negro Stanley lived alone in an isolated house and were supposed to be moonshiners with about \$1,000 on the premises. The men were murdered and robbed and the house burned down on their bodies. Edmondson says in his confession that on Saturday before the killing he met Jabel Register at Duval's stable and he told him his (Register's) father wanted to see him at the house. Register's father, H. B. Register, told Edmondson he had a scheme to make money easy and wanted help; the way to get the money was to rob Stanley who had at least \$1,000. Register said, "Kill him, if he flickers; he's only a nigger and the people want to get rid of him anyway." Edmondson said he got H. B. Register's gun; Jabel took his and they all went down in the vicinity of Soles' house, laid around until Sunday night when they went up to the house and Jabel shot them through the window and went in the house. Edmondson said he did not know Jabel had set the house on fire until they had gone some distance, after the robbery—Asheville Citizen.

The Oldest City in the World.

No city in the East presents more charming pictures of Oriental life and color than Damascus; and no other city contains so many magnificent private houses, whose shaded courts and luxurious chambers take us back in fancy to the enchanted period of Oriental splendor celebrated in the "Arabian Nights." But however luxurious the houses, the gardens of Damascus have even greater charm, and they are not only profusely scattered throughout the city, but they stretch for miles around, where the waters have rescued almost a province from the desert. "Damascus," says a writer in the Cosmopolitan, "has had a longer continuous existence than any city that is standing in the world today. Over this garden spot of the desert there has been eternal conflict. Bloodshed has been its portion, and century after century has witnessed battle without and massacre within its walls." The article quoted is entertainingly written, and it is illustrated with a striking series of photographs.

United States and England Did Right.

The Statesville Landmark says: There has been some question as to what the governments of the world do in regard to the recent Serbian incident—whether they would ignore the incident, enter a protest or refuse to recognize a government founded on assassination. Russia has recognized the new regime but insists that the murderers of the King and Queen should be punished. The new King having been brought to the throne by assassination is not exactly in position to talk about punishing the slayers of his predecessors, to whom he is indebted, and he would lose his own life if he was to try. Then virtuous Russia, where murder and pillage is rampant, is hardly in position to offer advice. The sensible course seems to have been adopted by England, the United States and a few other countries. They have for the present broken off diplomatic relations with Serbia. Whether the relations will be renewed in the future depends on circumstances; and how this will affect the new ruler in Serbia remains to be seen.

Brutally Tortured.

A case came to light that for persistent and unmerciful torture has perhaps never been equaled. Joe Golobek of Colusa, Cal., writes, "For 15 years I endured insufferable pain from rheumatism and nothing relieved me though I tried everything known. I came across Electric Bitters and it's the greatest medicine on earth for that trouble. A few bottles of it completely relieved and cured me." Just as good for liver and kidney troubles and general debility. Only 50c. Satisfaction guaranteed by C. E. Galloway, druggist.

John Brownfield, colored, who killed Deputy Sheriff Seary near Georgetown, S. C., in 1900, committed suicide in jail Tuesday morning by taking poison.

The Pacific Investigation continues at Washington and lots of dishonest transactions are being unearthed.

Abolish Human Suffering.

The current year promises to be notable, among other things, for the important additions which it will make to medical science and to curative agencies in general. While the wonderful work accomplished by Dr. Lorenz may perhaps hardly fall within the class thus indicated, the stimulus which the famous Viennese surgeon has given to undoubtedly help to make the year additionally memorable in the annals of human suffering. Among the positive announcements of the year thus far in the direction of medical discoveries may be included that of serum cure for hay fever, made by Professor Danbar, American head of the Hamburg Hygienic Institute. While hay fever is not to be regarded as a fatal disease, it is a most distressing malady, and if anything can be devised to cur it a great boon will be conferred upon the human race.

Of far greater importance is the announcement that a probable cure has been discovered for blood poisoning, a malady which carries off a large number of people each year, and which has hitherto resisted, in many cases, the best medical skill. Recent experiments with formalin in hospitals in New York and elsewhere seem to show that this agency may be relied upon in many cases to arrest the process known as blood poisoning and effect permanent cure. If this proves to be the case it will be, as one high medical authority has truly said, "the most important contribution to medical science in this generation." Still later than these comes the news from Rome, that Professor Cornaghi, of Pavia, has discovered the microbe of hydrophobia. It has been the general impression that this disease was being successfully treated with the remedy devised by Professor Koch, but if this new discovery leads to something still more efficacious the world will have reason to be profoundly grateful. Hydrophobia is one of the most frightful maladies known to humanity, and whatever tends to diminish its ravages or to deprive it of its terrors will be a bold benefit.—Lottie's Weekly.

Fakirs Come to Grief.

A year or more ago a Brooklyn man by the name of Miller let it be known that money invested with him would earn 600 per cent. for its owners, and the money came in so fast that he had to store it in barrels. After the police had apprehended Mr. Miller the newspapers commented upon the fatuity of people who would be caught by such an outrageous scheme. On Wednesday last Mr. Robert A. Ammon, of the "Franklin Syndicate," a New York gentleman, was convicted of fraudulently receiving \$30,500. His was another "get rich quick" scheme, though he promised only 520 per cent. per annum. All of which goes to show that there are still plenty of people who will believe in any scheme, however improbable, if it promises a great deal for a little. And these people do not deserve any sympathy. They were trying to get something for nothing and they got left. They would be sharpeners themselves instead of victims if they had sense enough.—Charlotte Chronicle.

Satan Would be Disgusted.

Dick More, who, never for a moment, forgets the evil of the liquor traffic, and who persistently inveighs against the church members who are lukewarm in their efforts to suppress the business, walked into the city editor's office, to-day, and said: "If the devil could get converted and leave hell and come to Charlotte, I know he would get a partition, and try to get men to sign it, to call an election to close the saloons; and he would be disgusted with many church members and the excuses they gave for not signing it. I would rather be the lowest down saloon keeper in Charlotte than to be a church member and refuse to do anything that would help in any way to put the liquor people out of their hellish business. You can put me off, and give me your flimsy excuses, but what will you do when you have to give account to God? It will not be long until you will have it to do."—Charlotte Observer.

Catarrh of the Stomach.

When the stomach is over loaded; when food is taken into it that fails to digest, it decays and inflames the mucous membrane, exposing the nerves, and causes the glands to secrete mucus, instead of the natural juices of digestion. This is called catarrh of the stomach. For years I suffered with Catarrh of the Stomach, caused by indigestion. Doctors and medicines failed to benefit me until I used Kodol Dyspepsia Cure.—J. R. Khea, Coppell, Texas. Sold by I. W. West, druggist, Mt. Airy, N. C.
