

A PASTOR'S WIFE CURED OF PELVIC CATARRH

She Suffered for Years and Felt Her Case Was Hopeless—Cured by Pe-ru-na.

Mrs. Anna B. Fleharty, recent Superintendent of the W. C. T. U. headquarters, at Galesburg, Ill., was for ten years one of the leading women there. Her husband, when living, was first President of the Nebraska Wesleyan University, at Lincoln, Neb.

In a letter written from 601 Sixty-seventh street, W. C. T. U., Chicago, Ill., Mrs. Fleharty says the following in regard to Peruna:

"Having lived a very active life as a wife and working partner of a busy minister, my health failed me a few years ago. I lost my husband about the same time, and gradually I seemed to lose health and spirit. My daughter is a confirmed invalid, and we both felt great need of an invigorator.

"One of my neighbors advised me to try Peruna. A bottle was immediately secured and a great change took place in my daughter's as well as in my own health. Our appetites improved very greatly, the digestion seemed much helped, and restful sleep soon improved us, so that we seemed like new women.

"I would not be without Peruna for ten times its cost."—Mrs. Anna B. Fleharty.

What used to be called female disease by the medical profession is now called pelvic catarrh. It has been found by experience that catarrh of the pelvic organs are the cause of most cases of female diseases.

Dr. Hartman was among the first of America's great physicians to make this discovery. For forty years he has been treating diseases peculiar to women, and long ago he reached the conclusion that a woman entirely free from catarrh of the pelvic organs would not be subject to female disease. He therefore began using Peruna for these cases and found it so admirably adapted to their permanent cure that Peruna has now become the most famous remedy for female diseases ever known. Everywhere the women are using it and praising it. Peruna is not a palliative simply; it cures by removing the cause of female disease.

Dr. Hartman has probably cured more women of female ailments than any other living physician. He makes these

Mrs. Anna B. Fleharty.

cures simply by using and recommending Peruna.

Mrs. Esther M. Milner, DeGraff, Ohio, writes: "I was a terrible sufferer from female weakness and had the headache continuously. I was not able to do my housework for myself and husband. I wrote you and described my condition as near as possible. You recommended Peruna. I took four bottles and was completely cured. I think Peruna a wonderful medicine."—Mrs. Esther M. Milner.

Congressman Thad. M. Mahon, of Chambersburg, Pa., writes: "I take pleasure in commending your Peruna as a substantial tonic and a good catarrh remedy."—T. M. Mahon.

If you do not receive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Dr. Hartman Sanitarium, Columbus, Ohio.

ARE CLOSING IN.

Apparent Movement of Japanese to Surround Mukden Reported.

Sin-Min-Ton, Sept. 26.—Today's news indicates that the Japanese are gradually closing in on Mukden, and that no movement will be made against Tieling until the fate of Mukden has been decided. Strong parties of Japanese have been reported to the northeast of Mukden. Their objects is supposed to be the turning of the Russian flank.

The Russian are said to be manifesting great activity and are strengthening the defenses at both Mukden and Tieling. Reinforcements are arriving from the North, together with new guns and supplies of food and ammunition and heavy clothing for the troops, as if the campaign were expected to continue well into the cold season. The roads are still very heavy, and it is not expected the Japanese can make very much progress with their guns until after the highways have dried out.

The latest reports still locate the Japanese contra at Yental, although a strong force is said to be at Pa-Ta-Pa, a short distance south of Mukden. Another body of Japanese is reported near Shashow. This thought to be a part of Ok's command and is taken to indicate that a general movement to surround the town is already under way, and that Ovens is waiting only for a cessation of the heavy rains to begin the attack in which he will endeavor to re-establish his line at Liao Yang. The coming battle will in all probability be even more bloody than that of Liao Yang, because both armies have reinforcements now on the way which will probably arrive before the advance of the Japanese has begun.

Seizing Each Other Up.

St. Petersburg, Sept. 22, 1904.—There is further delay in the receipt of decisive news from the front. The situation at Port Arthur remains a blank, though it is felt that important developments may be even now occurring there. The movements in the north are still of a tentative and preparatory character on both sides and have not yet crystallized into a definite clash of forces at any one point. A resumption of the Japanese advance is now expected to occur any day. It is the third week since the fighting at Liao Yang, and the Japanese had time to transport re-enforcements from Yinkow and bring up sufficient men from the front to replace their losses, but it is not probable that several days will intervene before the armies come to close quarters. The interval is being devoted on both sides to re-organizing the strength and disposition of the opposing forces.

These Japanese probably will attempt to capture the passes of the Da Mountain range, running half way between the Hun and Taiwei rivers. The possession of these passes is important for the Japanese as they will not only enable them to march northward, but also screen the movements of their troops from the prying gaze of Russian scouts.

It is fully appreciated here that the Japanese must try for the possession of Mukden, as otherwise it will be difficult for them to provide the army with winter quarters. Liao Yang does not afford sufficient accommodation, although many houses there escaped destruction in the recent battle. Movable huts are quite unsuitable for the housing of Japanese, owing to the severity of the climate. The average winter temperature there is 40 degrees below zero, and the cold is intensified by continual winds and an almost entire absence of snow. In spite of this, however, the campaign will probably continue during the winter if the Japanese succeed in getting into Mukden. In this contingency, General Karapkin, for various reasons, will not be likely to allow the Japanese to remain in undisturbed possession of this point, which is important, not only from the strategic, but the political point of view.

Primaries in Wilkes.

The Republican primary here Saturday was "spiritedly" inclined and every fellow seemed better pleased with himself than he was with anybody else. The work of the convention began with a spirited argument as to who was the best Republican. This occurred when Louisville Bangs was being voted on for chairman. Mr. Cowles chairman unopposedly acted as chairman because he hadn't bowed in humble submission to Hon. Spencer Blackburn. Bangs replied that his republicanism was of the real stuff "as it was in the beginning, is now and ever shall be," and that his republicanism was better than Cowles' because he had used it longer. The convention decided that Bangs was all right and he acted as chairman. When Mr. Lyon nominated a list of delegates, the question of his republicanism was again brought forward, but the delegates were elected and instructed for A. L. Combe for Sheriff. Just as some one moved to adjourn, Judge Henderson thought he would get in a word or two and moved to endorse E. Spencer Blackburn for nomination for Congress. But Col. John Clark out-talked the judge and the hilarious convention walked out of itself without passing the motion.

A new township Ex. Com. was elected—L. Bangs, George Holland and W. R. Call. This disturbed the Blackburn men, for they had elected a committee back in March—two committees now.

Judging from the appearance of things, there were several "ble" fountains around.

It reports are true, "ble" flowed freely at a number of precincts. At Millers Creek, five or six fights occurred and one man, Bill Mattison, was seriously carved in the back. At Mulberry a man was killed.

It is all traceable to the use of liquor to buy votes—a custom that should forever be frowned upon and abolished. And still the republican party by platform and by practice is upholding this demoralizing and degrading method of debauching the people and are fighting and neglecting to enforce what temperance laws now exist. "How long, oh how long!"—Wilkesboro Chronicle.

Our Philippine Bargain.

It has been decided that the American military force in the Philippines may safely be reduced from four to three regiments of cavalry and from nine to seven regiments of infantry. That is to say, we can get along with about ten thousand men in the islands, not counting, of course, the native Philippine scouts and constabulary, amounting to about as many more, for the artillery, signal corps or engineers. As the maintenance of the army costs something over \$1,000,000 a year per man, this represents an annual outlay of more than \$10,000,000 a year.

That is more than double the entire value of all our exports to the Philippines; so that if every cent we received for the goods we sold to the Filipinos were clear profit the cost of the military garrison alone would still cost up two dollars for every one we got from the island market. And that is only one item of the expense of colonial government in the Philippines. The fleet we keep up there probably costs more than the army.

As a matter of fact the profit on the goods we sell probably does not exceed 10 per cent. of their value, which makes the ratio of military and naval expense to commercial benefit something like forty to one.—New York World.

JAPS MUST HAVE MUKDEN.

Need It as Winter Quarter.

What may be happening in the far East, there is little definite information from any quarter. The armies in the vicinity of Mukden appear to be limiting their activities at present to feeling the positions of their adversaries. It is supposed to be the plan of the Japanese to possess themselves of the passes of the Da Mountain range before making a direct move on Mukden. Strategic and present considerations seem to make it essential that General Karapkin make a stand there and prevent the move from being made the winter headquarters of the Japanese, while the lack of adequate facilities elsewhere for the housing of troops during a rigorous Manchurian winter make it necessary that the Japanese bend all their energies to the capture of that town.

More Riots.

Distribution of strikes are not nearly as grave as an individual disorder of the system. Overwork, loss of sleep, nervous tension will be followed by other conditions, unless a reliable remedy is immediately employed. There's nothing so efficient to cure disorders of the Liver or Kidneys as Electric Bitters. It's a wonderful tonic and effective nerve and the greatest all-around medicine for run-down systems. It cures Nervelessness, Rheumatism and Neuralgia and excels in all cases. Only Dr. Williams' Pink Pills for Pale People can be so sure and satisfaction guaranteed by E. E. Galbreath.

A Sbering Thought.

Here is a bit of President Roosevelt's letter of acceptance which deserves the serious consideration of the American people:

"We believe that the progress we have made may be taken as a measure of the progress we shall continue to make if the people again intrust the government of the nation to our hands. We do not stand still."

No, we do not stand still. If what has been done is the measure of what is to be done hereafter, then the army, which costs three times as much as it did when the Republican party regained power, will cost three times as much after eight more years of Republican rule as it does today. From \$23,123,344 in the fiscal year 1897 and \$70,070,390 in 1905 the army will demand \$210,000,000 in 1913. The cost of the navy, which has also tripled, will triple again. Eight Republican years have raised it from \$10,000,234 to \$28,495,140. Eight more years of the same sort will bring it up almost to \$100,000,000.

As we do not stand still, the tariff will be revised again—upward.

The conquest of the Philippines may be followed by the forcible annexation of a slice of China.

The proclamation of a dictatorship over the Western Hemisphere may be, and of course will be, since the peerless leader deposes words unless they are backed by deeds, succeeded by the actual exercise of the authority so assumed. We shall be landing troops from the Straits of Magellan to the Rio Grande to maintain order and enforce the payment of debts to foreign speculators in risky "securities."

If we could stand still the people might be willing to condone the past. But, as Mr. Roosevelt truthfully observes, we cannot. If we vote for him we not only endorse what he has already done, but we commission him to go on in the same direction, to an extent measured by the progress he has already made.—New York World.

Some Funeral Remarks.

In his funeral remarks on a late brother of the old, Brother Dickey said:

"By de blessing or Providence he left money 'nuff ter berry him, en I hear tell dat 'er'll be a margin over ter help his sufferin' widder ter git a black dress ter mourn for him in, 'twel she g married ag'in. He died happy, en never waz yreled in his life—kiss he always a 'sable ter ourra de lynchin' committee!"

"Went to heaven in a bazz of glory," is the way an obituary reads. Any mention of a "bazz" in our departure from this world gives one that uncomfortable feeling.

To Remove Moles.

To remove moles thoroughly mix three grains of tartar emetic finely powdered, one and one-half drams of soap, plaster with one-half dram of Venice turpentine. Spread the mixture upon an adhesive plaster, apply firmly to the surface of the mole and remove when suppuration sets in.

To Remove Grease Marks from Books.

Remove the soiled leaf with benzine and then put it between two sheets of blotting paper and pass a hot flatiron quickly over it.

If women were guilty of no follies greater than personal beautifying we should have a fine consignment of articles right here on earth.—Chicago Record-Herald.

Beauty without Grease is the Book without the Ink.

Beauty without grease is the book without the ink. Beauty without expression tires.—Emerson.

Ammonia will remove white stains from furniture.

WOMEN'S BLOOD

Skin Diseases, Bone Pains, Hiccups, Aching Back, Blood Poison, Eczema, TO TONIFY, STRENGTHEN AND PURIFY THE BLOOD.

The above pictures show what Botanic Blood Purifier will do, clearing the skin, healing all eruptions, making the blood pure and rich. We have medicine in Botanic Blood Purifier (B.B.P.) and we send it free, all charges prepaid, direct to your address. We have cured with B.B.P. many cases of skin diseases, such as eczema, hives, itching, and all other eruptions. It is a wonderful medicine, and it is the only one that will cure you. Get the poison out of your system.

By taking Botanic Blood Purifier (B.B.P.) a party who has a skin disease, such as eczema, hives, itching, and all other eruptions, will find relief in a few days. It is a wonderful medicine, and it is the only one that will cure you. Get the poison out of your system.

FOR YOUNG FOLKS

EVER SEE A CORK WALK?

If You Haven't, This Story Will Let You Into the Secret.

Lots and lots of our boys and girls have seen a cork walk, a house fly, a stone fence, and even a board walk, but we are pretty sure that few of you have ever seen a cork walk. Still, under certain circumstances, a cork can walk, and this is the way to bring about that unusual spectacle.

Get a large cork as you can find and stick side by side in one end a

THE CORK WALKING.

pair of flat headed nails. Then get two forks and insert them, one by each side, near the other end of the cork, as shown in the picture.

Now get a strip of wood four or five feet long and about two inches wide and make an inclined plane of it by piling books or boxes under one end. Place the cork on this, standing on its nail legs, with one fork hanging down on either side of the strip of wood. Start the fork swinging from side to side, and you will see the cork walk jerkily down the board, taking ridiculous, stiff-legged little steps on its nail legs.

AN ODD GAME.

It is Played with a Pencil and Paper and Makes You Think.

This pencil and paper game can be played by any number of players. Give to each player a card with the alpha bet written distinctly across the top. A paragraph of twenty-four words beginning with the various letters of the alphabet in their regular order is to be written. The words must of course make at least the semblance of sense. At the end of an allotted time each one should read his paragraph. If a prize is to be given the cards should be pinned up and the work voted on by all. Here are a few sample compositions.

"A boy can do everything for goss. He is just, kind, loving, merciful. Never ought poor, queer, righteous sisters to use viciousness with Xerxes' going so bra."

"Zeus yells! Xerxes with vigor utility or national misunderstandings. Love, kill, justify. In honor great friends. Enemies do consider bad absolutely."

The author of the following, being unable to think of a word beginning with X, used X's to express numbers: "Xerxes' yells XXX white virtues under thirty stone rollers. Queer purple uly thirty mad lamentation. Kingly jays bring in high give fought every daring cavalier back again."

Bird Street Cleaners.

In many of the Italian coast towns the only department of street cleaning that there is consists of pelicans that root on rocks in the bay and fly heavily into town each morning to shovel up the refuse into their pouches.

Although the bird's operation of the small republic does not care enough about cleanliness to provide means for sweeping the streets, still the people are glad enough to have the pelicans do it. So there is a heavy penalty for shooting at one of the birds.

As a result they are perfectly fearless and will flap into a street and wade along right in the crowd. They are from the sea with their pouches empty and wrinkled and go along with their huge bills close to the ground like road scrapers. Gradually the pouch fills with all kinds of rubbish—and there is always enough and to spare in the Italian towns—and at last it is dispensed and full of knots and corners, like a badly stuffed carpeting. The pelicans rise heavily and flap away to his roost.

Choosing "It" in China.

The Chinese know no end of riddles, both spoken and written, and they have all kinds of puzzles.

They have a funny way of choosing who shall be "it" in a game. One of them holds her hand out with the open palm downward, then all the others stand round with the tip of their first finger touching her palm. Then after repeating a few words she suddenly closes her fingers and tries to catch them. Sometimes she fails to catch one, and then it has to be done again, but if she does manage to imprison one finger the owner of that finger has to be "it."

Unnatural History.

The owl said to the hound: "I don't agree with you." "I beg your pardon," said the bird. "I rather think you do." The hound then put in his bill. And thought he had replied: "That he did not care to honor it. He still went right home."

A Power For Good.

The pills that are potent in their action and pleasant in effect are the Little Early Risers. W. E. Phillips, of Albany, Ga., says: "During a bilious attack I took one. Small as it was it did me more good than calomel, blue mass or any other pill I ever took and at the same time the effect was pleasant. Little Early Risers are certainly an ideal pill." Sold by I. W. West.

CASTORIA

The Kind You Have Always Bought

Bears the Signature of

John L. Worth

July 27, 1904.

Do You Want a Home?

If you do I have two good farms that I will sell cheap—so cheap that you will be surprised at the price. I offer the places at the price I do because I do not need the land.

One place is 7 miles above Mount Airy, has 98 acres, 25 acres good bottom, two dwellings, two tobacco barns, good orchard, close to school and church.

The other place joins this and has 100 acres, 30 acres bottom land and good dwelling, tenant house, plenty of timber, free school is taught on place.

Will take \$800.00 for first named place and \$850.00 for the second if bought at once and give long time on most of the money.

J. W. Greenwood, MOUNT AIRY, N. C.

CASTORIA

The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signature of

and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but Experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is Pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. It destroys Worms and allays Feverishness. It cures Diarrhoea and Wind Colic. It relieves Teething Troubles, cures Constipation and Flatulency. It assimilates the Food, regulates the Stomach and Bowels, giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

GENUINE CASTORIA ALWAYS

Bears the Signature of

John L. Worth

The Kind You Have Always Bought

In Use For Over 30 Years.

There are Great Things.

VICK'S TURTLE OIL LINIMENT IS ONE OF THESE:

1st. In size of Bottle for 25c.

2nd. In virtues for healing Rheumatism, Sciatica, Headache, Colds, Sorethroat, Pneumonia, Cuts, Insects, wounds, etc.

3rd. In the barnyard it is great for Lameness, stiffness, colic, sores, and heals wounds without mattering or scab.

Take no substitute. 10 oz. bottle for 25c. Trade supplied by L. RICHARDSON DRUG CO., Wholesale Manufacturing Druggists, Greensboro, N. C.

VALUABLE PROPERTY FOR SALE!

I have the following property which I am anxious to dispose of:

MILL SITE

An undeveloped water power within 1/4 of a mile of Ararat depot, at which 300-horse-power could be reasonably developed.

ONE VALUABLE FARM.

200 acres on both sides of Flat Shoal creek, known as the Evan Davis' place. It has some 400 acres of good bottom on it, together with all kinds of wood and timber. The uplands are good for tobacco, wheat, corn and grasses.

MOUNTAIN FRUIT FARM.

60 acres on California Hill in Little Mountain, six miles from Mount Airy which is topographically situated for a fruit farm. One half the land is a level plateau, some 2,500 feet above sea level, the balance Western and Northern exposures. Fruit trees planted on such lands in this county never fail to bear. The land is now in original forest. This place would interest anyone having an idea of a future orchard.

Also an account of falling health and wanting to draw in the circumference of my business matters, I would lease for one or more years the Granite City Mills situated in Mt. Airy.

JOHN L. WORTH.
