CHARGES PRINT PAPER MARKET IS "CORNERED"

Conspiracy To Boost Prices Also Alleged—Existence Of Small Papers Threatened.

Washington, May 7.—The picture of the country press, which includes the little four page paper, from back home, fighting with its back to the wall and almost ready to go under because of the print paper shortage, was presented to a senate investigating committee today by Cortland Smith, of New York, president of the American Press Association.

Along with his picture of the troubles of the country editor, Mr. Smith made the direct charge that the print paper market had been cornered and that the print paper interests had conspired to regulate production so that prices might continue to mount. In the face of this situation he frankly told the committee there was little hope for the small town papers and unless quick relief was provided half of them would be wiped out of existence.

While other witnesses had charged that the market had been cornered, Mr. Smith, whose association largely supplies the country press, was the first to allege a conspiracy to regulate out put and price.

John A. Penton, of Cleveland, who

testified before the committee yesterday, presented proposals today to Postmaster General Burleson and the Federal Trade commission for doubling the postal rate on class publications weighing more than a pound, and limiting daily papers to 24 pages with 48 on Sunday.

16-Year-Old Girl Faces Third Trial On Murder Charge

St. Louis, May 3.—Sixteen-year-old Ursula Brodderick went to trial for the third time here today charged with the murder of her step-father, Joseph F. Woodlock. Attorneys said she was the youngest girl ever to face a first degree murder charge in Missouri.

A continuance was granted the first time her case was called for trial and at the second trial the jury disagreed.

In 1916 Miss Brodderick shot and killed her father, T. P. Brodderick, and a coroner's jury exonerated her when she testified she shot in defense of her mother.

The state contended at the second trial for the alleged murder of Woodlock that he was killed as he lay asleep. Miss Brodderick testified she killed him when he attacked her. Mrs. Woodlock is charged with plotting her husband's death and will be tried after her daughter.

Six months' wear, without rip, hole, tear, or suit will be repaired free.

This famous Dubbelbilt guarantee has set thousands of mothers free from mending—because it is backed by 20 special added-wear features that make the satisfying service of Dubbelbilt Clothes a certainty.

COAL!

The price I have had made me for coal for the month of May will amount to \$12.00 per ton delivered, but we are not booking this coal at \$12.00 for the reason I show below which is the nearest I have been able to get to a promise for May orders.

"We will be glad to place your order for one car as this is about as much as we can promise to ship you. In accepting your order it is with the understanding that the shipment will be made if possible, but should anything develop in the way of a shortage of cars or a shortage of labor, which would materially reduce the output of our mines, we reserve the right to cancel the order May 31st."

If we get this one lonely car we will sell it at \$12.00, what is not already booked, most of it is booked however.

Please bear in mind that May is the easiest month of all to get coal, and you can see from this what the outlook for next winter is—except our IDEAL coal of which we have a guarantee of 28 cars which is less than half of our yearly sales.

We will get the IDEAL coal during the months of June, July and August and bear in mind the price of this coal positively will not fall below \$14.00 per ton, and most assuredly will go higher after June 1. So book your order, positively with us before that date. Remember that if you do buy IDEAL you need to buy less than of the big lump coals and you will also be rid of any smoke or soot, and we will buy back every pound of bone or slate found in IDEAL, at the price you paid. We also guarantee this coal to burn anywhere you have been accustomed to burn the big lump coal.

It is heat that you buy and not big lump, little lump, red ash or white ash. IDEAL is a white ash coal making only 2 pounds ashes to the 100 pounds of coal. We are the exclusive agents for IDEAL.

Helped Father and Son

"Ziron Did Us Both Good," Writes Mr. Gentry, of Norene, Tenn.

It is a well-known medical fact, that iron is a necessary constituent of the blood, and that blood lacking iron is the cause of many troubles that only iron will cure.

Ziron, a scientific compound of iron with other valuable ingredients, is the remedy to take when your blood needs more iron, and your system requires a tonic. Ziron is mild and harmless, does not stain the teeth, and is good for children as well as adults.

Mr. P. G. Gentry, of Norene, Tenn.,

writes: "Ziron Iron Tonic has made good in my family. I have used it to a very great advantage to myself and my 14-year-old boy. It did us both good. I think it is a good medicine for what it is recommended."

If you are pale, weak, tired, feel down and out, take Ziron. It will put iron into your blood, and should help build you up.

Get a bottle from your druggist today, and give ZIRON a fair trial. Sold by him under a money-back guarantee.

Ask him about it. He will tell you.

You Win!

In all games of endurance when your partner is an icy-cold bottle of

Chero-Cola

Refreshing
With no bad after effect
