A Cowardly Dodge

The treaty plank of the Republican platform characterized as a "compromise" is in no sense that, but it is a cowardly dodge.

The plank as agreed upon upholds the Senate in refusing to ratify the league of nations covenant in the exact form in which it left the peace conference at Versailles.

Many Democrats—among them being some of the most ardent friends of the peace treaty and league covenant—take that view.

Even President Wilson himself has declared his willingness to accept reservations to the treaty so long as they are not "nullifying" reservations.

Only a short time ago he expressed his hearty endorsement of the Virginia Democratic platform, which bespeaks ratification of the treaty with reservations.

The plank agreed upon at Chicago declares "that any future international peace understanding must square with American traditions."

Every American citizen worthy the name would naturally be opposed to any "international peace understanding," or any other "understanding," that did not "square with American traditions."

The Republican party does not dare go before the people on a straightout four-square, face-to-face issue on the league of nations!

They are afraid!

So they seek to evade the issue by framing a declaration that can mean anything, and which thus means nothing—so that, as the campaign progresses, they can adjust their platform to developing conditions of the public mind.

Conscience-stricken and afraid, they are trying to prepare a hole into which to crawl as occasion demands.

"NATURE'S SANITARIUM"

Analysis of Brower's Chalybeate Spring Water.

One U. S. gallon contains on evaporation, solids: 9.16 grains showing existence of chloride of soda, carbonate of iron, carbonate of lime, silica, sulphate of potash.

In the analysis of Brower's Chalybeate Spring water made by State Chemists, "I find a combination of medicines in solution which are calculated to be of the greatest value as a general alterative tonic especially adapted to those diseases brought about by inactivity of digestive and excretory organs. All stomach, liver, kidney, skin and diseases of a scrupulous nature should be greatly relieved, if not entirely cured, by these waters."

Thos. B. Ashby, M. D. These waters will deliver to the highest point in therapy by gravitation which alone can easily be made a source for large and everlasting income, getting larger as the city grows in population.

For a century these Springs (chalybeate and alum) have engaged local reputation and many people attest their wonderful healing and strength yielding properties. The spot where these healing waters burst from the mountain side is ideal in picturesqueness and beauty. Nature has here strewn clinging vines, creeping ferns and delicate flowers in lavish profusion, thus seemingly calling attention to her gift to mankind.

With pure, high, dry atmosphere, refreshing mountain breezes, balsam laden, this may rightly be called "Nature's Sanitarium."

Would sell the "Combination" to an acceptable party for the thousand dollars or would sell a few select Bungalow lots to a few unobjectionable persons with a perpetual right to use the waters, for fifty dollars and up. If interested cable Brower's Springs, Mount Airy, N. C.

peace treaty plank a "compromise" is an absurdity.

It is an adroit, subtle and cowardly dodge designed to deceive the American people, with whom the Republican bosses are afraid to deal honestly!—Atlanta Constitution.

I read of Cardui, and after taking one bottle, or before taking quite all, I felt much better. I took 3 or 4 bottles at that time, and was able to do my work. I take it in the spring when run-down.
