"Water cold. Lost canoe. August 9, K. L. Shiras. Finis. Love to all at home." This was the farewell message scratched into the rocks by a Canadian, in a stony, wave-beaten cave at Squaw Bay Point on the desolate shores of Lake Superior, where he had been marooned during a heavy storm. Fishermen found him clinging to the rocks exhausted and wearing only a shred of a bathing suit.

AMERICAN NEGROES TO VISIT AFRICA

Pilgrimage Fostered by National Baptist Convention in Chicago Declared to Offer Opportunity for Research and Education.

Chicago, Ill., Sept. 17.—An excursion by some 300 American Negroes to Liberia, Africa, the Negro republic fostered by people in the United States, was declared to be practically assured following a large number of enlistments obtained at the national Baptist convention, attended by 5600 negroes from all parts of the country. This trip is to be made on the invitation of C. D. B. King, President of Liberia. The visitors will be expected to take part in the grand pageant of native races on December 25, celebrating the one hundredth anniversary of the republic.

It is proposed to charter the steamship Tunisian of the Canadian Pacific Ocean Service, for the trip. The sailing date is December 3, and the return January 17, 1922. Each tourist will pay his own way, a sum of approximately \$750. That the negroes have the money could not be doubted by anybody who had an opportunity to count the automobiles lining both sides of the street for a block in front of the convention hall. They were mostly the big, expensive makes of cars, too.

A Traditional Bond.

"Haven't we every reason on earth for going back to Africa for a visit?" asked Lewis Garnett Jordan of Philadelphia, Penn., secretary of the Foreign Mission Board of the convention.

"Isn't it strange that for 250 years there were excursions from Africa, free to us, bringing the nude savage in chains to serve as a slave, but that no one has thought of an excursion to carry the children of those poor enslaved people back to see their fatherland?"

"We are in touch with more than 500 persons who have thought of going. Of these, 300 say they are going. We find it very difficult to have them remember that a ship to Africa is not like a street car—pay as you enter. A ship for so important a cruise will need months for preparation, so that those who are going are required to tell us by payment for their tickets and not by a long letter telling how much they are interested in Africa.

"The West Africa tour means a new day for Africa, commercially and religiously. It offers an opportunity to the thoughtful American negro farmer and wide-awake business man, the expanding teacher, and the preacher with missionary zeal and a vision.

Educational Possibilities.

"The West Africa tour means the broadening of the vision of the American negro in a way that nothing has done for half a century. The help which will come to all who go will be felt by their children for a hundred years to come.

"Neither the landing of the Pilgrims nor the coming of our fathers to Jamestown, Virginia, will be dwelt upon more by the historian in the coming years than will be this tour to Africa."

The American-African Tourist Company, Inc., of Philadelphia, from which city the boat is to start, is handling the arrangements. A prospectus of the excursion describes it as an ideal winter cruise of 45 days, to be conducted in connection with the trade exhibit and convocation of chiefs at Monrovia, Liberia. They will visit the Canary Islands, Dakar, Senegal, Freetown, Sierra Leone, Grand Bassa and Cape Palmas, Liberia, Cape Verde Islands, and Bermuda Islands.

"At the trade exhibits," says the prospectus, "the African interior, with all its untold natural splendor, will be on display. Natives of all tribes will appear in tribal costume in a typical native village. Native handicraft will be on sale."

Warfare Planned to Drive Rats From Eastern States.

Damage totaling \$200,000,000 in stored foodstuffs, grain, field crops, and other injurable materials is done by rats in the United States annually. Only the united efforts of every home owner and tenant can effect the abolition of these rodent pests. The Biological Survey, United States Department of Agriculture, is starting a big campaign against rodents throughout the eastern United States. Much already has been accomplished in the matter of control in the Western and Middle Western States, where effective co-operation was secured. On the other hand, residents of the Eastern and Southern States, as a rule, have been exposed to widespread ravages and attacks from rodents for such long periods that they have become so accustomed to the nuisances as to accept them as a matter of course. Uncle Sam is doing his utmost to awaken these sections

to the need for eradicating rats. To illustrate the enormous damage which rats annually accomplish in grain and corn fields, the experience of the State Penitentiary Farm, covering 2,500 acres, at Baton Rouge, La., is of interest. Last year a 200-acre field of corn was planted on this farm. The rats worked their way through the field, stealing all the seed before the kernels could germinate. The field was planted a second time, and again the rats overran the prospective cornfield leaving in their wake paths of destruction. Undeterred, the farm manager planted the field to corn a third time, and ultimately secured a poor stand, which resulted in the production of about one-third of a normal corn crop.

This year, just before planting, a drive on the rats was organized, following methods recommended by the Biological Survey. Convict labor was used in distributing poison bait over the entire 2,500-acre tract, and as a consequence the place was practically freed of rats. As a direct result of this rat-eradication drive, the farm this year secured from a single planting an excellent stand of corn that bears indications of an early harvest of a good crop.

TAKES CARE OF 5 CHILDREN

Mrs. Taylor's Sickness Ended by Lydia E. Pinkham's Vegetable Compound

Roxbury, Mass.—"I suffered continually with backache and was often despondent, had dizzy spells and at my monthly periods it was almost impossible to keep around at my work. Since my last baby came two years ago my back has been worse and no position I could get in would relieve it, and doctor's medicine did not help me. A friend recommended Lydia E. Pinkham's Vegetable Compound and I have found great relief since using it. My back is much better and I can sleep well. I keep house and have the care of five children so my work is very trying and I am very thankful I have found the Compound such a help. I recommend it to my friends and if you wish to use this letter I am very glad to help any woman suffering as I was until I used Lydia E. Pinkham's Vegetable Compound."

Mrs. MAUDE E. TAYLOR, 5 St. James Place, Roxbury, Mass.

Backache is one of the most common symptoms of a displacement or derangement of the female system. No woman should make the mistake of trying to overcome it by heroic endurance, but profit by Mrs. Taylor's experience and try Lydia E. Pinkham's Vegetable Compound

Veteran of Civil War Still Hale and Hearty

GEORGE D. SHAW, Springfield, Mass.

"To say that I feel twenty-five years younger, twenty-five years healthier and twenty-five years stronger express what Tanlac has done for me better than any other way I can put it," said George D. Shaw, veteran of the Civil War, who now lives at 321 Walnut street, Springfield, Mass.

"I am now seventy-eight years old and I don't hesitate to say I have never known a medicine to equal Tanlac. For fifteen years I was subject to attacks of indigestion that were so bad at times I would have to lay up for a week or two. For a long time I lived on crackers and milk alone as nothing else agreed with me.

"When I started on Tanlac I weighed only one hundred and seventeen pounds and my days were thought to be numbered. I've been so wonderfully built up, I now weigh one hundred and forty-three pounds and my stomach is as sound as a dollar. In fact, I believe I could eat the old army rations again without it hurting me in the least.

"I never miss a chance of saying a good word for Tanlac and I would like to urge the boys of the 'Sixties' who are not feeling right to give it a trial, for I am sure it would put them in line again just as it has me. For a man of my age to have no physical ailment, to be well and strong and enjoy life as he did twenty-five years ago, is certainly something to be thankful for and there is nothing too good I can say for Tanlac."

Tanlac is sold by leading druggists everywhere.

Common sense in good baking

TRY just one sack of Occo-nee-chee Self-Rising Flour and see what it saves you. See what wonderfully good biscuits, waffles and hot cakes you can make every time you use it.

You don't have to worry about measuring out baking powder, soda and salt. They are already mixed in Occo-nee-chee Flour, in just the right proportions. Their cost is less when used this way than when bought separately.

By adding water or milk and shortening to Occo-nee-chee Flour your batter is ready for cooking. Think of the time and bother that saves. And you can be absolutely sure of its turning out right.

These are the reasons for the great popularity of Occo-nee-chee Flour among common sense housekeepers. Order a sack from your grocer. You can tell it by the Indian Head on the front. It will pay you.

Be sure to buy *Plain* flour when you want plain flour
