**"Twenty Years" of Harding**

(From the Wildwood Sun-Tribune) It seems as though I have been President for 20 years.—President Harding in a speech at the National Press Club.

Not only to you, Mr. President, but to others does your service of one year seem like two decades. To the following citizens it seems all of 20 years—or longer.

The 4,000,000 men who are tramping the streets under your Administration looking for jobs.

The farmers who are burning their corn and who cannot sell their products at a profit because their foreign markets have been destroyed by your party's policies.

The business men who have been waiting in vain for a revival in business, which you and your party promised, while business conditions have steadily grown worse.

The legitimate capitalists who would invest in industrial enterprises, instead of tax-exempt securities, if industry had been revived as promised by you and your party.

The owners of factories whose plants are closed or running on reduced time by reason of the failure of you and your party to redeem your election pledges.

The average taxpayer to whom you promised a reduction of taxes, which they are still looking for.

The ex-service men who have watched you play hide and seek with the bonus and who have been discriminated against in appointments to post-masterships.

The producers and shippers who have waited in vain for a reduction of freight rates.

The genuine friends of the Civil Service who have witnessed your mockery and contempt for Civil Service principles.

The man whose emblem was once the "full dinner pail" but is now the empty pocket.

The man who voted for a change—and got it.

Yes, Mr. President, it seems like 20 years—all of 20 years.

An ordinary level-headed man can't resist making silly speeches when a good looking girl comes his way.
