Economics Department Woman's Club Met Friday

The Home Economics department of the Woman's club met in the Blue Ridge hotel parlors Friday afternoon with a large attendance. Each member responded to roll call with a helpful household suggestion.

Mrs. D. Vance Price was presented as vice chairman of the department, Mrs. Leonard having resigned after having served faithfully in that capacity for the past year.

Miss Cora Earp gave a very interesting and delightful report of the annual 2nd district club meeting held in North Wilkesboro Oct. 27.

The Economics department is conducting a magazine agency by soliciting subscriptions and renewals to the leading magazines published by Funk and Wagnalls, the Curtis Publishing Company, Crowell Publishing Company, Hurst and others.

The chairman of the department, Mrs. Cleve Hale called special attention to this feature of the club work, putting special emphasis on "The American Boy," "Youth's Companion" and "Saint Nicholas" for the boys and girls, and urged the parents to subscribe for these clean, uplifting and wholesome magazines for their children, instead of permitting them to read literature of an obscene nature and of a disturbing influence. Subscriptions to any of these good magazines will be appreciated by the Woman's club.

After the business activities were dispensed with, a rag rug demonstration was given by one of Surry county's skilled craftswomen, Mrs. L. J. Bray, of Elkin; and the club is very grateful to her for this interesting and helpful demonstration.

The next meeting of this department will be Friday, December 15, at which time Mrs. T. W. Bickett of Raleigh will speak on a subject of vital importance to women.—Reported by Mrs. T. H. Worrell.

The automobile of today can worry along somehow on most any kind of gasoline, but it will behave much better on the properly balanced, reliable "Standard."

## Why "STANDARD" is consistently good

"STANDARD" Motor Gasoline doesn't just happen to be right in Ridgewood, N. J. or Baltimore, Md. There is a reason why it gives the same splendid results wherever it is used.

Every lot of "Standard" Motor Gasoline that leaves the refineries has been carefully tested at one of our refinery laboratories and checked up at the central laboratory in New York.

We know that what every user of gasoline wants is consistent quality, something that can be depended upon. And that is what this company's standard of testing insures. One feature of "Standard" Gasoline is the fact that it vaporizes completely—affording instant ignition, abundant power and maximum mileage.

Do you use Polarine? You should, to get the full benefit of "Standard" quality.
