As 12,000,000 or more persons are patients in hospitals annually it is very important that the highest possible standard be set and it is very gratifying that our local hospital meets these high requirements.

Thirty-two hospitals in North Carolina besides the Veterans Hospital, Otean, meet these requirements.

Visits Polls Though Invalid

A gripping story came to us Wednesday morning of the interest and enthusiasm shown by one Surry Counand crooks to be shunned. It carries with it plenty of good "horse sense" such as comes from the stardy citizenship of our farm sections. You can't fool the folks. You can't tell them so and so are crooks and have them believe it off hand. And you can't win an election by a tirade of abuse and insinuations. And when any party sets out in an effort to blaspheme the character of all who belong to the opposite party they are sure to reap the result when the ballots are counted at the close of the polls.
