LEGISLATURE AT WORK.

The session of our logislature is n to work now and for the next own at Raleigh will be much in be public eye. It seems to be in s air that Governor McLean is a safe leader who will get a respectful bearing from the lawmakers. His olicies are popular and he is con-idered a safe man to follow. He is proving to be one of our most pop-

proving to be one of our most popular governors.

The big problems of the hour is to meet the increased expense of the naylums, the state supported schools, the roads and so forth, without increasing the taxes. It will require more money to care for all these public institutions, but then there will be more property to pay tax on. There is no disposition to cut down necessary expenses, and it will all be worked out on a business basis. There is a great demand to find a way to make the highways safe for travel. A road patrol of some kind is much in demand. This will make jobs for no less than two hundred folks and will be a live issue.

Governor McLean wants a radio station for the state and asks for \$120,000,00 to establish it. Those of us who use the radio are wondering

us who use the radio are wondering if there are not too many stations now. If one wants to use the radio it is no trouble to get all the sta-tions one wants and many more. Of course a station in our state would greatly aid in advertising our in-dustries and spreading information.

THIN ICE HERE BOYS.

You fellows who are disposed to have some pleasure by riding in other folks cars are treading on thin ice when you appropriate the car be-longing to our Judge. It is bad enought to take a ride in any car not your own, take it from us, when you

steal a car and ride a few miles in it and then park it in a safe place by the road and be careful to draw the water from the radiator so that care will not be injured by freezing before it is found, the man who disaster would not be on record. It The big problem is how to curb these arises. It is wise that adults account not the means or the sense to get it in a lawful way. They would taste of the sweets of life but are not sensible enough to get at the sweets without becoming entangled with the law of the land. Most of this trouble is due to the faulty training of these young people. They have not been taught to respect the rights of others, and they have not been trained so that they are able to earn enough money to permit them to live as those about them are living. The fault is not altogether with the young criminals. It takes a wise judge to deal with such characters. Taken as a whole, our courts are meeting with the situation admirably.

OUR SMALL EGG FACTORY

We passed by a big fleck of hens out in the country a few days ago and happened to learn that they are not laying. There is a cause, for the authorities tell us that a hen will lay if she is properly fed. Some folks know this to be true. It is up to those who have not proved it to be true to get busy and find where they have missed the mark. One day this week we were in the cook room where this editor is permitted to go sometimes, and on the table was a bucket with no less than four dozen eggs. The good wife has twenty-one hens and about half of them lay. They have been at it all winter and have shown no disposition to go and the state of t hey have been at it all vinter and save shown no disposition to go on strike. How do we do it? We ollow the approved methods of caring for the hons—food and water hem regularly and see that they have comfortable living conditions, in other words, follow the directions aid down in the books. All this is SURRY SHOULD KNOW WHERE SHE STANDS ON PURTHER ROAD BOND ISSUES.

Within the next few weeks the legislature now in sea-sion will have up for discussion and consideration a bond issue for state roads. Already the members of the state highway commission have indicated that they would like highway commission have indicated that they would like to have a thirty million dollar appropriation to spand during the next two years. This county has always been in line with the road movement in the state but it is time for our citizens to seriously consider what benefit they would get from another bond insue in view of the way in which the money has been allocated in the past. We are always ready to take the front ranks in any progress sive move but there are times when we should demand equal treatment with other sections in the distribution of

North Carolina has now expended one hundred million dollars on her state highways. Of this amount our dis-trict, the seventh, comprised of seven countles was allo-cated something over ten million dollars. The money is now practically all spent and yet Surry county has due her by the state for work on her state roads over \$400,000—nearly a half million dollars.

In addition to the state's failure to properly allocate the money in this district Surry County also has failed to

secure her proper amount of state roads—that is roads taken over for state maintainance.

And our citizens remain at a loss to know why this condition has existed, why Surry County has been unable to secure her proper share of road funds and road mileage, when it is known that-

Surry County pays more income tax into the treasury of the state than any other county in this district except

Surry County has more automobiles within her borders than any county in this district except Forsyth,

Surry County pays more gasoline tax for the up-keep of state roads than any other county in this district except Forsyth.

Surry County pays more automobile license tax into the state fund than any other county in this district except Forsyth.

Yet we trail along at the foot of the list of road mileage and appropriations for state roads.

And Surry's representatives in the legislature have all to lose and nothing to gain in supporting any of the appeals for additional road money unless there can be se-cured reliable assurances that this county will share in a just and equitable division of the state road funds.

A HEART BREAKING CALAMITY.

Up in Canada last Sunday afteryour own, take it from us, when you carry off Judge Lewellyn's car and gad about the country in it you are hunting for trouble.

We are not one of the hard-boiled kind who think every one who steals a ride should be swung to a limb, for much of this devilment is in the nature of sport. The man who will be supported by the canada has a law ture of sport. The man who will be carried in the aisless and doorways. Now it is brought out that Canada has a law ture of sport. The man who will be supported by the canada has a law ture of sport. The man who will be supported by the canada has a law ture of sport. The man who will be supported by the canada has a law ture of sport. The man who will be supported by the canada has a law ture of sport. The man who will be supported by the canada has a law ture of sport. The man who will be supported by the canada has a law the supported by the canada has a law the ture of sport. The man who will that prohibits children under 46 does all this is not altogether bad, is nothing uncommon to see several He needs some one to take his hundred children gathered together breeches off and wear a good buggy at some show or public occasion and whip out on his lower extremities, a stampede among them would likely but we insist he is not altogether bad. happen every time an emergency large numbers in order that such disasters will not occur. The mothers and fathers of Mount Airy would do well to remember the scenes that occurred in Canada when their states of the control of the con occurred in Canada when their children attend public places unaccom-

Hardware Store To Add New

Within a few weeks the hardware concern of Holcomb & Midkiff, of this city, expect to add two new lines to their hardware business. The third floor of the their four story building will be used to carry a full stock of household furniture includ-ing bed rooms suits and kitchen furniture. And on the fourth floor they expect to put in a stock of coffins and caskets and other burial supplies. Their building is equipped with an electric elevator which makes these new lines they will add easily accessible to the public.

Little Girl Victim of Diphtheria.

Mildred Ludwick, the 51/2 year old daughter of Mr. and Mrs. L. S. Lud-wick, of route 6, passed away at the home of her parents last Saturday, she was a victim of diphtheria. The little form was tenderly laid to rest at Oakdale cometary Sunday follow-ing a service conducted at the home by Rev. J. C. Grier and Rev. E. G.

McHone Birthday Party and Other Route 2 News.

Mount Alry, R. 2, Jan. 11 .- The

Quite a number of the friends of Mr. Worth McHone joined Mrs. Mc-Hone in giving him a surprise birth-day party Jan. 8. Square dancing and games filled the evening delight-fully. Mr. McHone received many beautiful gifts. Delicious refresh-

The Daughters of Confederacy will meet Jan. 20 at 3 P. M., in Central Methodist Church with a program honoring Lee and Jackson commemorating their birthdays. All mem bers are urged to be present and to read a paragraph or give in a few words some point of interest in the life of either.

Service By Publication-Notice. North Carolina, Surry County, in the Superior Court. Ployd Ward vs. Marvin Ward, Roan Fard, Mamie Thacker and J. F.

There have been more than one thousand children examined in the last two months and parents of children with physical defects requir-ing correction notified. All children have been urged to take dightherin toxin antitoxin and the greater num-ber have taken it.

The department plans to have a tubercular clinic this year. The number of cases of tuberculosis in our country are increasing from year to year instead of decreasing. We now have 300 in our county and 120 in Mount Airy.

During the spring and summer we hope to conduct one of the most strenuous typhoid and diphtheria campaigns ever held here.

Notice of Sale of Real Estate.

New Barber Shop

I have bought the batter shop on Franklin Street in the Philips building, next door to the heasty parlor and will appreciate your patronage. The shop will be enlarged and modernly equipped to accommodate all members of the family.

R. E. FOREST

After re-organizing a typhoid and toain antotoxin earnicalga was past on in the county, forty different points were visited on regular schedule a week apart for four weeks. \$300 people were vaccinated and gives three does of typhoid or tenin antitexin vaccine. Other appointments were made and due to a number of cases of typhoid in the City of Biomatary, the health office was crowded with applicants for the typhoid vaccine. As a result of the typhoid vaccine, as a result of the typhoid vaccine, as a result of the typhoid situation here a sanitary inspector has made over 300 sewer taps and built over 650 annitary privies where sewer was not available.

The dairles have been under supervision of the health department. A few years ago the caty adopted a wary strict milk ordinance, but it was never curried out. Now the State sends an inspector the account of the health department. A few years ago the caty adopted a wary strict milk ordinance, but it was never curried out. Now the State sends an inspector the re-very so often to inspect the dairles and the milk grades will be published each month.

There have been more than one

or less.

This is re-sale and bidding with start at \$826.35...
This January 8th, 1927.

O. E. SKOW, Trustee.

Buick Ahead Again in the Yellowstone!

Again in 1926, more Buicks toured through Yellow-stone Park than any other car except the one of lowest price.

Buick has held this same honor every year since the Park was opened to automobile travel.

This year there were 4,756 Buicks in a total of 44,472 cars registered. 101 different makes were represented in the registrations. One in every ten was a Buick.

Here is convincing evidence of Buick reliability-striking proof of the faith which Buick owns repose in their car.

They know Buick will take them and bring them back comfortably, safely and splendidly—across the Continent—or around the World.
