Sudden Death Claims Miss Fulton.

The hearts of our people were saddened last Thursday afternoon when news of the sudden death of Miss Nannie Fulton, which occurred in her boarding house in Charlotte shortly after her return from school, was passed in hushed tones from friend to friend. It seemed past belief that a young useful life, so full of promise, should be so suddenly cut off. Miss Fulton was the second daughter of Mr. and Mrs. J. H. Fulton, of this city. After graduating from the local high school she completed a course in the Greensboro College for Women and for the most part has devoted her time to the instruction of young minds in the class room, though she passed through a period of ill health several years ago, which confined her to her home for a time and had not been strong since. She was a faithful member of Central Methodist Church, having aided with the church in her childhood and her passing takes from our midst a young woman whose gentle spirit endeared her to all who came in contact with her.

Mr. and Mrs. Wince Fulton went to Charlotte to accompany her remains here, where other brothers and sisters gathered to await the coming of Mr. Grady Fulton, of New York, who was in Canada. The funeral and interment took place Sunday afternoon, the home being crowded with sorrowing and sympathetic loved ones and friends. Her pastor, Rev. W. A. Newell, was assisted in a very beautiful and touching service by Rev. D. Vance Price and Rev. E. W. Fox.

The remains were laid to rest at Oakdale Cemetery and the entire lot covered with exquisite floral designs.

Among the out-of-town people attending the funeral were the brothers and sisters, Mr. and Mrs. E. H. Wrenn, Jr., Reidsville; Mr. and Mrs. Ralph Norwood and children, Roanoke, Va.; Mr. Grady Fulton, New York and Miss Margaret Fulton, Winston-Salem. Other relatives and friends were Mr. and Mrs. Joe Rawley, High Point; Mrs. N. Glenn Williams and two sons, Williams; Mr. and Mrs. Gaither Davis, Mr. Sam Gentry, Mr. and Mrs. William Graves, Winston-Salem; Mr. Garrison, principal, and two teachers from the school in South Charlotte where Miss Fulton taught, Mr. John Reeves, New York, Mr. and Mrs. R. T. Joyce, Westfield, Mr. Billy Pitzer and son Charles of Danbury.

Everyone knows that money alone cannot make good dishes, however good the raw material may be.

A FEW LEFTOVERS

Leftover fish seems to be a hard problem for most housewives to use wisely.

Baked Chowder.

In a buttered baking dish put a layer of sliced raw potatoes cut very thin, sprinkle with sliced onion and stewed tomato, then a layer of boiled fish; season each layer with salt and pepper and cooked bacon crushed and sprinkled over the fish, adding a little bacon fat. Moisten with water, dredge the top with flour and bake covered until the potatoes are soft, then uncover and brown. Use three potatoes, two onions, a cupful of tomatoes and one and one-half cupfuls of boiled fish, with one cupful of water and three slices of bacon and the bacon fat.

Spiced Fish With White Sauce.

Season highly any leftover boiled fish with tomato catsup, anchovy, Worcestershire and a little paprika. Prepare enough rich white sauce to pour over the fish, add two well-beaten egg yolks to each cupful of white sauce. Flake the fish, pour the sauce over it and heat in the oven.

Fish Cocktail.

Take a small piece of cold boiled halibut, remove the skin and bones and flake it. Season with salt and pepper. Make a cocktail sauce by mixing together for each glass one teaspoonful each of tarragon vinegar, tomato catsup, lemon juice, one-half teaspoonful of horseradish, and a drop of tabasco sauce.

Kedjeree.

Cook two eggs until hard. Remove all bones and skin from a cupful of leftover fish and chop it with the eggs. Take one cupful of cooked rice quite moist, add to the fish and eggs, reheat, season with salt and pepper and serve very hot. Smoked haddock or whitefish is good for this dish.

Codfish Scallop With Rice and Eggs.

Mix two tablespoonfuls of cream or melted butter with one and one-half cupfuls of boiled rice, arrange in layers with one and one-half cupfuls of creamed codfish, finish with rice. On top break four eggs, sprinkle with salt and dot with butter. Bake in the oven until the eggs are set.

BAD WEATHER OF 1926 EXPENSIVE

Research Shows Cost at Over \$500,000,000.

New Haven, Conn.—The inclement weather this year has cost the United States \$500,000,000 and that of last June more than \$100,000,000 alone, Prof. Ellsworth Huntington, research associate at Yale university and meteorologist, said here. This astonishing loss never was realized by the populace, however, because they were "still extraordinarily stupid," Professor Huntington added.

"Ever since the earliest men began to think," he said, "they have known that their happiness depends to a considerable degree upon the weather."

"Nevertheless, even in our day, we still have only the crudest conception of just what the weather is doing to us. The relationships between the sun and the weather and between the weather and the crops, and between crops and general circles of business are very complex."

"A solar condition which brings prosperity in one region is almost certain to bring calamity somewhere else," he explained. "When one region has unusually warm weather others may be cooler than normal; when one region is unusually stormy or rainy others are practically certain to be free from storms and to suffer from drought."

He pointed out that the financial panics of 1857, 1874 and 1893 came after several years of low rainfall over a wide area. He also said a short, overly hot spell would take more than the usual number of lives. He valued each life at \$7,000, and showed that these willful heat spells had a very definite effect upon financial equilibrium.

His Family of Three Holds Down Ten Jobs

Morrisville, Vt.—Vermont's busiest family is the Sweetsters. Three of them—Truman H. Sweetser, his son Percy and his daughter-in-law Minnie—have between them ten jobs that they are actively engaged upon. Not political sinecures nor soft public service berths are these, but good, honest, every-day occupations.

Down on Brooklyn street they have just finished a new "business building" that houses most of their endeavors. In the front of the structure is the grocery store, managed by Mrs. Sweetser, who also is an expert stenographer and bookkeeper.

On the other side of the building the activities of her husband are housed. He is a plumber, tinsmith, steamfitter and dealer in stoves and heavy hardware. The rear of the establishment is given over to the young man's father, Truman H. Sweetser, who is a photographer and has his studio and laboratory there.

Besides taking pictures, Mr. Sweetser is a master mechanic and a carpenter, "turning his hand" to these tasks when he is not busy with his grafex and view camera.

While Percy Sweetser was serving in France with the Yankee division his wife was a yeoman at the Charlestown navy yard.

Russian Students Must Take Military Training

Moscow.—Military training for all university students, both men and women, has been ordered by the commissariat of war.

Under the order all students are required to take 180 hours of instruction in military science during their regular four-year course and two months' field practice during the summer. When their university course is finished the men must serve nine months in the army or, if they prefer, one year in the navy.

While the women students are required to take the course equally with the men, they are exempt from the two months' field practice and active service in the regular army.

As the new regulations apply to all universities and academies in Russia, tens of thousands of students will thus become potential soldiers.

Favors Music

New York.—Music, in the belief of George Eastman, is a potent antidote for the restlessness of spirit engendered by the drudgery and routine of modern business.

Indians Wealthy

Oakland, Calif.—The richest people in the world are the American Indians. Their per capita wealth is \$4,700, nearly twice the All-American average.

Warn Against Rabbit Germs; Produce "Flu"

Washington.—An infectious disease known to science as "typhus," which mysteriously emanated from the skin of a rabbit some six years ago, was made the subject of warning bulletins issued by the public health department.

Humans contract the disease during the process of skinning the rabbit. If the person has a slight cut on his hand, or a rash of any sort, he is more susceptible to the disease, which brings on an illness similar to the "flu." If the rabbit is properly cooked the consumer is in no danger, doctors said.
