

SURRY COUNTY FARM AND POULTRY NEWS

By H. K. White.

Surry County Farm Demonstration Agent

On July 14th there will be held at the Branch Farm at Oxford, N. C., a special tobacco meeting. The program for this meeting is called for 10:30 A. M. Most of you can drive there that morning and back home in the afternoon. You are assured that the program will be full of interest to any one growing tobacco, as we will take up at this meeting fertilizer work, insect control, and disease control, as well as something on the curing and construction of tobacco barns.

The Branch Experimental Farm at Oxford, N. C., is doing fine work on tobacco growing in this state. I am expected to bring at least eight farmers along on this trip and we should have at least 100 for tobacco growing is a big industry in Surry County and we should make every effort to learn to grow this crop as profitable as possible. This experiment station has demonstrated that lime has improved the quality of tobacco on an average of 5 year that an increase of about \$68.00 over where no lime is used.

I would like to know how many farmers would like to go to this meeting. We can make this trip in one day and this will be the most profitable day you can spend. Let's take a 100 farmers and if you think you can go be sure and let me have your name so we can meet and go together. If you are going to grow tobacco for money let's learn the best methods. Maybe you think you are following the best methods then go along and see if you can't improve on them. None of us every learn all about any

Renew Your Health by Purification

Any physician will tell you that "Perfect Purification of the System is Nature's Foundation of Perfect Health." Why not rid yourself of chronic ailments that are undermining your vitality? Purify your entire system by taking a thorough course of Calotaba, once or twice a week for several weeks—and see how Nature rewards you with health. Calotaba are the greatest of all system purifiers. Get a family package, containing full directions. Only 25 cts. At any drug store. (Adv.)

NOTICE

By virtue of a deed of trust executed by J. R. Lawson to me which is recorded in Register's office of Surry County in book 93 page 87, default having been made in the payment of the debt secured, I will offer for sale at public auction to the highest bidder at the courthouse door in Dobson for cash on

Thursday, June 30, 1927, at one o'clock P. M.

the following land: Beginning on a persimmon on the South side of Old Turkeyford road and runs with said old road as it meanders South 59 deg. W. 9 chs. S. 41 deg. W. 8.72 chs. to branch, thence up the branch with G. C. Kidd's line 14.60 chs. to the old line; thence with old line and N. J. Simpson's line S. 89 deg. This May 30, 1927.

A. D. Folger, Trustee.

TERRIBLE PAIN

Mrs. Cox Quite Well Now And Pleased With Cardui.

Mrs. W. L. Cox, 129 Church Street, Chester, S. C., says:

"I suffered awfully . . . I would have a terrible pain, at times; I could hardly stand it. I slept badly; my rest was disturbed and I seemed to get little benefit from it.

"I read about Cardui in the papers and thought it might be a good thing to try, so I began taking it. I was so pleased with the way it improved that I kept on taking it until I felt quite well. Cardui helped me so much and so many people have remarked about my improvement."

Cardui has been used and recommended by thousands of other women, for over 45 years. Try it.

CARDUI
A Vegetable Tonic

one particular phase of farming as I feel sure if you are the best tobacco grower in your community you still can learn a great deal by making this trip. Be sure and send in your name.

I have a call for a good pure bred registered Jersey bull from 3 to 6 months old. It must be a good calf. If you have one let me know and the price you want.

Mrs. M. E. V. Hines, Route 5, box 199, Mount Airy, N. C., has a few bushels of clay peas for sale. She also has a bull 2 years old in March. His sire was a registered Guernsey and his mother is a grade Jersey, and will weigh about 300 pounds. This bull is easily managed and is handled by any one. This animal can be bought for \$50.00. If interested see Mrs. Hines at once.

J. E. Hamby, State Road, informs me that he has 40 bushels of Mammoth Yellow soy beans for sale at the market price. This is the only supply of soy beans that I know of in the county at the present time.

Sometime ago I had a notice in this column that one of the big lime companies promised to furnish a car of lime to farmers for alfalfa growing. Of course the farmer would have to pay freight and the cost of bags or about \$3.65 delivered here. This brought in many inquiries from farmers over the county. Last week D. S. Coltrane of the American Limestone Company spent 4 days in the county with the County Agent in interviewing the farmers and giving instructions on alfalfa and sweet clover growing. Fifteen farmers have agreed to plant alfalfa or sweet clover for the first time. A total of 43 tons of lime will be used in growing the two new and valuable crops in the county. Most of the farmers have never grown alfalfa or clover so we are getting farmers to try something new in the county. Incidentally the alfalfa and sweet clover acreage will be doubled in this county this fall. Klondike Farm, Elkin will sow about 10 acres. The Sparger Orchard Co., Mount Airy is planning to plant about 15 to 20 acres in sweet clover. This makes 113 tons of lime furnished through two different lime companies for demonstration through the County Agent.

The Sparger Orchard Company, Mount Airy has 7 acres in sweet clover that has made a remarkable growth this year. This clover was sowed last March a year ago and of course the drouth of last year prevented much growth. However, a fine growth has developed this year from the stand and surely is a wonderful sight to see how this clover grows on thin, rocky land. It is worth the trip to any one to visit this field to get some idea of the possibilities of this plant on our poor soils. This plant requires lime, inoculation, good seed and well drained land, but does not require rich soil. It is a bonanza on our thin soil if the above requirements are furnished this plant. It is well adapted to orchard requirements for this plant does well among apple trees and keeps down the expense of cultivation which is no small item in orchard cost. I have some plants in the office which will show you how vigorous this will grow. When in the office here at Dobson be sure to look at the plants.

"Parasites of the corn borer have been imported in large quantities this spring; 160,970 cocoons of one variety and 33,831 of another are reported by the Bureau of Entomology, and five additional species of parasites will be reared at Arlington, Va., from the 1,661,590 corn borer larvae which have been imported. Parasite liberations have already started in New England, Ohio, and Michigan. Imported parasites of four species are reported as recovered this spring as result of winter collections." It is to be hoped that this insect will be kept under control for if this pest is introduced into this country our corn growing will be seriously threatened. In Canada the pest practically destroyed their entire corn acreage. We hope this pest will be kept out of the entire country.

The following will be the last notice about where to get soy bean seed this year. W. V. Holder, Rusk, R. 1, has two bushels of the Hollybrook beans. C. P. Creed who lives between Franklin schoolhouse and cross roads Mount Airy has just received a shipment of Laredo beans. He has 25 bushels and if you expect to get any seed of this variety now is the time to get seed. The demand for the Laredo has been very heavy this year and keeping seed on hand has been rather difficult. You cannot afford not to sow some Laredos and now is your chance to get seed. After this supply is exhausted then sow all the cow peas possible.

JUST REWARD

"But, protested the new arrival, as St. Peter handed him a golden trumpet, 'I can't play this instrument. I never practiced while on earth.'"

"Of course you didn't," chuckled the old saint. "That's why you are here."

COLLINS' BODY IS NOW ON PUBLIC EXHIBITION

In Crystal Cave 280 Feet Below Ground; Father Gives Permission.

Horse Cave, Ky., June 16.—The body of Floyd Collins, whose impalement in Sand Cave and final death there attracted the attention of the nation, has been placed on exhibition in Crystal Cave.

After Collins' body was recovered from Sand Cave where it had been sealed up for several months, it was buried over Crystal Cave, but on Monday Dr. Henry B. Thomas, a local dentist who owns Crystal Cave, had the casket removed from its grave and placed in the grand canyon of Crystal Cave, 280 feet under ground.

"The top of the casket is not fastened down," he said today, in answer to questions, and it is optional with people whether they want to look at the body itself through the glass top. It is in a state of perfect preservation.

Dr. Thomas said he had permission from Lee Collins, Sr., father of Floyd to bury the body on his Crystal Cave property, the exact place not being specified, and that one reason for removing it was that water had settled in the grave. Collins' brothers, Lee, Jr., and Andy, however, planned legal action to recover the body, and according to B. R. Logan, an attorney at Brownsville, will seek damages. He said he was preparing to file suit.

Crystal Cave is one of a number of commercially operated caves in the Mammoth Cave region. Floyd Collins was trapped in Sand Cave—a mere sink hole—on Jan. 30, 1925. His plight was discovered a day or so later and then for over two weeks a fight was waged against the forces of nature in an effort to rescue him. His body was reached on February 17, after he had been dead several days. The rescue shaft was sealed over the body but some months later it was brought out and buried over Crystal Cave, which Collins had found some years previously.

Nellie Bly, a reporter of the New York World made a trip around the world for her paper in 1889 to demonstrate the feasibility of Jules Verne's novel "Around the World in 80 Days." She accomplished the trip in 72 days, 5 hours and 11 minutes. Miss Bly used steamboats, trains and horse drawn vehicles as this was before the days of flying machines and automobiles.

MEDAL CARRIES A NICE INCOME

Lindbergh is Assured of \$5,000 Yearly Whether He Signs Contracts Or Carries Mail.

Washington, June 17.—Col. Charles A. Lindbergh, who has turned down commercial and theatrical offers running into millions at least is assured of an annual income of \$5,000 for life.

Of the score of medals and honors conferred upon the young trans-Atlantic flyer only one, so far as a check revealed today, carries with it an annuity. That is the Hubbard medal, awarded by the National Geographic society for extraordinary contributions to scientific or geographic research.

The Geographic society is an endowed institution. Few Hubbard medals have been awarded. Commander Richard E. Byrd was awarded one for his polar flight, and Amundsen, the Norwegian explorer, also received the decoration for his daring trips into the Arctic.

A club boy in Pitt County borrowed the use of his mother's flower house to use as a brooder for his young chicks and states that it made a good one.

The greatest thing that you or I can ever do is to plant a good idea in the mind of a boy or girl.

Announcing the Opening Today of the Newly Remodeled

H. E. Money Barber Shop

We announce the opening today of our newly remodeled barber shop, with new equipment throughout, making this shop the foremost in Mount Airy from every standpoint. We invite your visit of inspection.

7-Chair Shop

STRICTLY SANITARY

Everything being new—even new paint—the shop is sanitary and inviting. You will feel as if at home here, for nothing has been spared to make it modern and clean.

First Class Barbers

Our barbers know the barber business, and will give you a pleasant welcome, in addition to prompt and efficient service. If we fail to please you, tell us. We want to make this your barber shop.

Shoe Shine Service

Two shine boys who know how to "rub 'em up." When you want a good shine, drop in here. If you can't come send your shoes. Prompt service.

H. E. Money Barber Shop

Opposite Bank of Mount Airy
H. E. MONEY, PROP.

The Ladies' Shop

In addition to being the most up-to-date shop for men, we will also cater to the work of ladies and children. You can depend upon our barbers for modern hair-cutting and bobbing in the style of your choice. Bring the children early in the week if possible.
