

SURRY COUNTY FARM AND POULTRY NEWS

By H. E. WHITE,
Surry County Farm Demonstration Agent

Grow Lupedean on Thin Soils
It is always a pleasure to mention in this column the results of any good piece of farming and the one in mind at the present time is to be found on the farm of J. M. Atkins on the Mount Airy and Lowgap road. This field is on the main road and the topsoil had been removed for road building purposes a few years ago, of course that means that the subsoil was exposed and is now the topsoil. Mr. Atkins put some lime on this land and two years ago he secured a fair growth the first year and this year he has a very fine growth indeed. On the very thinnest, sandiest part the clover is only about 2 or 3 inches high. It has made a good growth this year in spite of the unfavorable season. There is a sample in the office of the County Agent at Dobson and it is well worth examining. It is estimated by proper authorities that a 2 inch growth of Japan clover is equal to 200 lbs. of nitrate of soda per acre. He Sows Clover When Corn is Laid By

Mr. Atkins has been seeding clover and grasses at the last cultivation of corn with good results. He seeded a piece of corn which is to be seen from the road, this season and he has a good stand of red clover. He sowed the clover and then gave the last cultivation. Where he sowed

clover immediately after the last cultivation he did not get a very good stand but has a good stand where he cultivated the land after the seed was sowed. He used 6 tons of lime on 2 1/2 acres and he is of the opinion that lime is a great help in farming. Lime is important
Farmers are finding out that by the use of lime they are able to get better results with most of their soils. Lime often does more good to the crop than so much of the high priced fertilizers and one good application of lime will give good results for at least 4 or 5 years. Lime is very essential in soil building and the growing of legumes. More lime means legumes and better soils. Better soils means richer farm lands and better homes. It pays to use lime. It is profitable to use lime on fall sown small grains for you are sure of getting a large yield the next harvest. Use plenty of lime this fall when you seed your grain and watch the results next harvest.
Barley again
The champion ton-litter of hogs in 1926 in Wisconsin was fed barley instead of corn this caused a great deal of interest among hog raisers. This championship was won on a ration of ground barley, oats, middlings, oil meal, skim-milk and alfalfa pasture, corn being absent entirely. We have always thought that to do well with hogs that corn was absolutely necessary to furnish a profitable ration. Now in comes a new grain to us and help to win the championship.
Barley is economical to grow
Many farmers have found barley is less costly to grow than corn. Mr. Alex Chatham believes that he can grow barley cheaper than corn. Consequently he is planning to sow about 50 acres and at this writing he has 37 1-2 acres sowed and some of it is coming up. Barley is surer than corn in making a fair yield always. They produce about the same quantity per acre. Two acres of barley can be grown at the cost of one acre of corn. Then barley appears to have a good advantage.
Why not grow both?
Usually you can get a crop of corn after the barley is taken off in June. This gives two crops of grain on the same land in one year. Or perhaps better still grow a crop of soy beans for hay or soil improvement. Land that will produce 35 bushels of corn (1960 lbs.) will produce 41 bushels of barley (1968 lbs.) thus getting two grain crops of 3928 pounds of grain. Then again we have two chances instead of one for grain. Sow it now.
Soy rape or kale
Plant plenty of rape or kale now on good land fertilized with 200 lbs. of 16% acid phosphate and like amount of nitrate of soda will give heavy grazing for poultry and hogs in late winter and early next spring.
When to sow wheat
In the Piedmont the best time to sow wheat is October 15 to the 30. Be careful with laying hens.
A great many of our poultry raisers are finding roup in their flocks. This is a bad disease and very difficult to control when once it gets started. It is caused usually by over crowding or your birds get too hot or too cold. Keeping birds under ideal conditions will keep this dreaded disease under bounds. It resembles a bad cold among humans and should be handled as carefully. Isolate all sick birds and keep the place under good sanitary conditions. Prevention is much better than any so-called cures you see advertised.
Put birds in laying house early
As soon as the first bad weather comes put birds in laying house and give scratch and laying mash. Remember your best profit will be on the eggs produced before first of the year, so make them give a profit now.

HEART ATTACK CAUSES JOHNSON HALL'S DEATH

Secretary to State Republican Executive Body Dies at Hendersonville
Greensboro, Oct. 2.—Johnson Hall, secretary of the state Republican executive committee, died of heart trouble at Hendersonville last evening about 9 o'clock, according to information received here by relatives and friends. He had been sick for a few days and an hour before his death, V. B. Morgan, a brother-in-law was informed that Mr. Hall's condition was very grave.
Mr. Hall had been secretary of the Republican state committee for more than a year, leaving newspaper work here to take up the duties of that office. With the chairman, Brownlow Jackson, located in Hendersonville, Mr. Hall moved there. He proved an efficient worker and was making a fine record up to his death.
He was 53 years old and was born and reared in Yadkin county, later moving to Winston-Salem, where he entered newspaper work as a member of the reportorial staff of the Journal. From there he went to Raleigh where for a long time he was connected with the Associated Press bureau. Giving up those duties he came to Greensboro with the Daily Record where he did some news writing as well as desk work. It was this place he quit to go with Chairman Brownlow Jackson as secretary.

Notice Trustee's Sale of Land

By virtue of authority vested in the undersigned trustee in a certain deed of trust executed the 9th day of April, 1924 by F. T. Edmonds and wife Lola Edmonds to the undersigned trustee for G. J. Key to secure an indebtedness of \$2163.00, recorded in the office of the Register of Deeds in Surry County, N. C., in book 89 page 175, default having been made in the payment of the note therein secured and at the request of the holder, I will sell for cash, to the

highest bidder in front of the Bank of Mount Airy, Mount Airy, N. C., on Saturday, Oct. 29th, 1927 at 1 o'clock P. M. the following described real estate
A tract of land in Surry County, N. C., adjoining C. E. Doby, H. V. Simpson, W. B. Wolfe and others. Beginning on a small post oak on the West side of the Mount Airy and Rockford road the J. F. Hemmings

East corner now owned by F. T. Edmonds and runs South some degrees with the Mount Airy and Rockford road as it meanders to a post oak on West bank of said road, W. C. Harris corner, then with his line north 85 deg. West 10.24 chs. to a rock W. M. Edmonds corner, thence with his line 1 deg. West 17.83 chs. to a rock, then North 86 deg. West 19 chs. to a rock in H. V. Simpson's line then with his line North 3 deg. E. 4.69 chs. to a

rock C. E. Doby's corner thence S. 86 deg. East 19 chs. to a stake in the ridge road, thence in a easterly direction to the beginning containing 34 acres more or less. Recorded in Book 89 page 175. Debt due Oct. 1, 1924.
Sale made to satisfy an indebtedness of \$2163.00 principal, interest and cost of sale to add.
This the 27th day of Sept. 1927.
EDW. M. LINVILLE, Trustee.

Put your layers, young and old, on **FUL-O-PEP EGG MASH** and enjoy bigger profit. Ful-O-Pep Egg Mash is the complete feed—containing Cod Liver Meal! You get more eggs, better eggs, more uniform and stronger-shelled eggs, that command the best prices. And eggs produced on Ful-O-Pep Egg Mash hatch strong, husky chicks. Now is the time to switch to Ful-O-Pep.
Made by The Quaker Oats Company Sold by **R. W. KEY** Mount Airy, N. C.

GAME WARDEN SHOT TO DEATH BY YOUTH
Murphy Patton Finds Two Boys on Game Preserve—One of Them Pulls Gun and Shoots.
Elk Park, Oct. 3.—Murphy Patton, 35, forest and game warden and former tax collector of Carter county, Tennessee, was slain late yesterday, it was learned here today. His nephew, Grady Harris, has been placed in jail at Elizabethton, Tenn., charged with slaying his uncle on the Tennessee state game preserve four miles north of here.
Patton is said to have come into the woods to investigate several shots he had heard and come upon Grady Harris and one of his brothers.
"Boys, what does this mean?" the warden is quoted as asking.
"It means business," Harris is alleged to have replied, drawing a pistol and firing five shots. One bullet struck the warden in the abdomen and another in the shoulder, ranging downward. Patton died in ten minutes.
John Harris, father of the boys, turned Grady over to county authorities.

RUN-DOWN
Cardui Starts Missouri Lady On Road To Health Again.
Mrs. T. G. Harris, of Clarkburg, Mo., writes: "For two years, I was in very poor health, almost past going, so weak and run-down. I tried to make the most of what little strength I had left, but I could find nothing to start me on the road to health again until, one day, I decided to try Cardui. I took Cardui for several months and was very much gratified with the results. I began to do my own work again. My color, which had been pale and sallow, became natural. My complexion cleared up. Cardui was just the tonic I needed."
Take Cardui if you are run-down. It should do you good. At all druggists.
CARDUI
In Use 45 Years

You can buy these products with confidence
YOU are doubly assured of quality and continuing service when you buy a General Motors product. Behind the resources of these seven famous cars and of Frigidaire and Delco-Light stand the resources of the whole family of General Motors. Each is tested and proved. And in the prices you pay for these products, you share in the economies of vast production. We invite you to learn more about these products by sending in the coupon below. Mail it today before you forget. No obligation, but interesting reading.

CHEVROLET. 7 models, \$525 to \$745. Amazing combination of beauty, performance and low price. 3-speed transmission. Beautiful Fisher Bodies. Duo finish. Fully equipped. Also truck chassis; 3/4-ton, \$395; 1-ton, \$495.

PONTIAC. 6 models, \$745 to \$925. Lowest priced six with Bodies by Fisher. Duo finish. Extra powerful engine. Value proved by ever-increasing sales.

OLDSMOBILE. 7 models, \$875 to \$1075. New lower prices round out Oldsmobile's master-stroke of General Motors' value-giving, 4-wheel brakes.

OAKLAND. 6 models, \$1045 to \$1365. The "All-American" model is a bigger, better, more beautiful car, typifying General Motors quality and value in the medium price class. 4-wheel brakes.

BUICK. 16 models, \$1195 to \$1995. All the world knows Buick's worth. "Get-away" like an arrow from a bow. Vibrationless beyond belief. Famous 6-cylinder "valve-in-head" engine. 4-wheel brakes. Beautiful low bodies.

LABALLE. 11 models, \$2495 to \$3995. New and beautiful car designed and built as companion car to Cadillac. Has V-type 8-cylinder engine. Marvelous lines and bodies. Continental in appearance.

CADILLAC. 26 models, \$3350 to \$5500. The standard of the fine car world. 90-degree V-type engine. Bodies by Fisher and Fleetwood. 500 color and upholstery combinations to choose from.

FRIGIDAIRE—the electric refrigerator. General Motors has applied the processes which have made the automobile available to every family to the production of Frigidaire, its electric refrigerator.

DELCO-LIGHT electric plants. Provide the conveniences and labor-saving devices of the city for the farm. Electric light and power plants, water pumps, etc. Used in over a quarter million homes.
