SLUGGISH
Black-Draught Makes Her Feel Fit, Says Missouri Lady.
Mrs. Anna M. Hanley, 2836 Brighton Street, Kansas City, Mo., says:
"I have found Black-Draught a most satisfactory medicine for constipation, with which ailment I was troubled for a long time. Often I suffered from severe headaches which came, I think, from absorbed poisons. I had a dull, sluggish feeling, and my work was accomplished only by great efforts. I had heard about Black-Draught, so I decided to try it, and am thankful to say I was greatly benefited after taking it."
"Black-Draught relieved my constipation and, after I had overcome that condition, I found the other troubles disappeared, too."
"Theodore's Black-Draught should relieve you. Try it. Ha. Everywhere."

On the way home the mother asked:

"What did the nice man say to make mother's little darling sit still?"
"He thud, 'You thit thill, you little newthuns, or I'll knock your block off, tho I that thill,' she explained.

JACK DEMPSEY WOULD TALK WITH RICHARD

Ex-Champion Says He Will Get \$333,333.33 Suit Settled First.

New York, Oct. 31.—The possibility that Jack Dempsey would seek the heavyweight crown of Gene Tunney next July appeared today as the former king of the pugilistic realm held a lengthy conference with Tex Rickard in Madison Square Garden. Although neither Rickard nor Dempsey would admit that the conference concerned affairs afoot, the report was current that the promoter sought Dempsey's agreement to meet Tunney early in the outdoor season as protection against the plans of Jim Mullin, Chicago promoter, to match the titleholder against a logical opponent in the mid-west, some time in September. Rickard's agreement with Tunney is said to call for a title defense sometime before September 1, 1928.

"I have not signed to fight anyone," Dempsey said, "and I haven't even decided whether or not I will enter the ring again. That must wait until spring, when the law suits of Jack Kearns and Teddy Hayes have been settled."

Dempsey admitted, however, that in case he does try again to lift the crown Tunney won from him at Philadelphia and defended successfully in Chicago this fall, the battling will be done under Rickard's direction in accordance with an agreement entered into sometime ago.

"Just now," Dempsey said, "I'm here to fight Jack Kearns' suits for \$333,333.33 that opens in Trenton, N. J., November 15. We're going into the battle to settle once and for all whether or not he has any money coming to him from me."

Dempsey, apparently in splendid health, said that Leo P. Flynn, his adviser during the recent comeback campaign, probably would handle his affairs again in the event of a new assault on Tunney's title. There could be no need of a decision in that matter, Dempsey said, until a return to the ring had been decided upon definitely.

IS A HEALTHIER STRONGER GIRL

Because She Took Lydia E. Pinkham's Vegetable Compound

The fertile valleys of Oregon help to supply the tables of America. This is possible through the magic of the humble tin can.

In one of the canning establishments, Julia Schmidt was employed. It was complicated work because she did sealing and other parts of the work. It was strenuous work and she was not a strong girl. Often she forced herself to work when she was hardly able to sit at her machine. At times she would have to stay at home for she was so weak she could hardly walk. For five years she was in this weakened condition.

She tried various medicines. At last, a friend of hers spoke of Lydia E. Pinkham's Vegetable Compound and she gave it a trial.

"Everyone says I am a healthier and stronger girl," she writes. "I am recommending the Vegetable Compound to all my friends who tell me how they suffer and I am willing to answer letters from women asking about it." Julia Schmidt's address is 113 Willow St., Silverton, Oregon. Girls who work in factories know just how Miss Schmidt felt. Perhaps they, too, will find better health by taking the Vegetable Compound.

The Everite Well Pump

The Number 500 EVERITE Deep Well Pump is of the entirely enclosed type, the splash system of lubrication being employed. All working parts, therefore, receive ample lubrication. The aim of the designers of the Number 500 Deep Well Pump has been to construct a rugged, compact deep well head, properly balanced and taking up as little space as possible, making it more suitable for the average pump installation.

This Number 500 Deep Well Pump wasn't designed ten years ago. It's modern. It's a 1928 model. It will be a 1929 model when 1929 comes around because it has incorporated in it features that are far in advance of the times.

We call your attention to this pump as having less parts than any pump manufactured today. It is equipped with a metal relief and check valve built directly into the pump. This insures the user absolute and positive protection against possible accident over the older type of relief and check valves.

Call in at your convenience and look the systems over. Should you be in the market for a hand pump, we have one of the best. Call and let us show you one of our automatic electric driven water systems and hand pumps.

STUDEBAKER'S ERSKINE SIX

(4-door sedan, fully equipped)

victor in test of speed and endurance

American Automobile Association certifies to record unequalled by any stock closed car priced below One Thousand Dollars

NOTWITHSTANDING heavy rain and high wind throughout three-fourths of the test, an Erskine Sedan, fully equipped, averaged 1298.484 miles during twenty-four hours. This meant an average time of 54.103 miles per hour.

No stops were made except for oil and fuel and to change three spark plugs. These stops are included in the time. Immediately following the completion of the test the sedan went five miles at an average of almost 62 miles per hour—Think of it!

This record was made October 12-13 at the Atlantic City Speedway under the sanction and observation of the American Automobile Association. After the test the car was torn down by the technical committee and certified as a stock car in every respect.

What it proves!

Here is positive proof of extraordinary performance, of stamina and durability, of sound design from quality materials and superior workmanship in a car priced below \$1000—proof of unusual pep and power whether or not you care to drive long distances with the throttle wide open.

What Owners Say!

Owners of the Erskine Six write us so enthusiastically you would think them to be salesmen. Send a postal inquiry to the Studebaker factory at South Bend and you will be sent, free of charge, comments which hundreds of Erskine owners have volunteered concerning their cars.

Make Your Own Test!

Or better still, let us loan you an Erskine so that you may drive it yourself and learn at first hand why it was able to establish the finest performance record ever set by a car in its price field.
