NOTICE

North Carolina, Surry County.
Town of Mount Airy.

Ordinances respecting sewer system.

Whereas the town of Mount Airy has established a municipally owned and operated sewer system for the town of Mount Airy and it is necessary that said sewer system be maintained by the said Town of Mount Airy for the protection of the health of the residents of said town;

And whereas the maintenance of said sewer system requires the expenditure in the upkeep of the main lines and the general system of large amounts of money and it is necessary that charges be made to property owners for sewer purposes;

NOW THEREFORE, Be it Resolved and Ordained by the Board of Commissioners of the Town of Mount Airy:

Section 1.—That \$18.00 shall be the fee for each and every connection to main line of sewer, regardless of the size of service pipe depth or character of ditch, number of houses on line, or set of tap to the town, and shall apply to those heretofore made. That the taps be run by the town from the main line to property line, if property adjoins street in which a sewer main is laid, except where sidewalk has been laid on any street and a sewer tap is to be made, it shall be run under the sidewalk from the street side as far as is reasonably possible without breaking the sidewalk or trespassing on property owners. Where sewer main is not in any street or within twenty feet of property, the town shall run sewer line a distance of twenty feet from sewer main, and the same be completed by the property owner. That in the event the fee herein provided for of \$18.00 is not or shall not have been paid in a period of twelve months from the completion of the same by the town of Mount Airy, there shall be added a penalty of one per cent per month and the said fee, together with the penalty, shall constitute a lien upon the property for which such tap is made and the same shall be collected as is provided for the collection of ad valorem taxes within the town of Mount Airy. That such property shall be subject to sale at any time after the expiration of twelve months from the completion of the work herein provided to be done by the town of Mount Airy.

Section 2.—That it shall be the duty of all property owners within the town of Mount Airy, upon notice from the town engineer or the clerk to the Board of Commissioners, to make such connection with the sewer system as said engineer or the Board of Commissioners shall determine and when notified. That any person, firm or corporation failing for sixty days after notice to connect with the sewer system shall be fined \$50.00 or imprisoned thirty days, provided the court may for cause shown, remit such fine to not less than \$10.00.

Section 3.—That a sewer maintenance charge shall be collected and is hereby assessed of twenty cents per month, and such charge shall be paid for each building, residence, apart-

NORTHERN MILL DECIDES TO MOVE SOUTH

To Move Machinery To South Carolina—High Taxes Given As Reason.

Boston, Oct. 31.—A wage cut in one Lowell plant and decision to close another and remove part of its machinery to the South were announced today. The Massachusetts mills put into effect a 10 per cent wage reduction affecting 1,400 employees, including the office staff. Stockholders of the Appleton company meeting in Boston authorized the directors to expend \$780,000 to move a part of the mill machinery from Lowell to Anderson, S. C., and to erect new buildings at Anderson.

The Pepperell Manufacturing Co., operating the Massachusetts Cotton Mills, gave as a reason for the wage reduction the necessity of cutting operating expenses if the plant is to be maintained in Lowell. In a further effort to obtain lower taxes officials of the company will confer on Wednesday with city officials and representatives of the Lowell Chamber of Commerce. The Pepperell company also operates mills at Biddeford, Me. President Charles Walcott of the Appleton company said that some of the 75,000 spindles and 1,500 looms which will remain in the Lowell plant after the removal of between 30,000 spindles and 900

ment or office which has one or more toilets emptying into any part of the Mount Airy sewer system whether it be direct or indirect, by way of some private line. That this charge is declared to be necessary to take care of the maintenance of the septic tanks and sewer mains. That any person, firm or corporation failing to pay such charge shall be fined \$50.00 or imprisoned thirty days, provided the court may for good cause shown remit such fine to \$10.00.

Section 4.—That all sewer connections shall be made by or under the supervision of the Water & Sewer Department of the town of Mount Airy.

Section 5.—That any person, firm or corporation tampering with or connecting to any sewer main without permission of the Superintendent of the Water & Sewer Department shall pay a fine of \$50 or be imprisoned for thirty days, provided the court may for good cause shown remit such fine to \$10.00.

Passed and ordained this 4th day of October, 1927.

By the Board of Commissioners of the Town of Mount Airy.

Attest:
F. M. POORE, Sec. & Treas.
W. G. SYDNER, Mayor.

looms to Anderson would be sold to escape taxes. He saw no immediate prospect of operating at the Lowell plant again. He cited unsuccessful attempts to induce the Lowell assessors to reduce taxes.

Under the votes of the stockholders, the Appleton Manufacturing company, of Anderson, will be dissolved and merged with the Appleton company, which owns its entire capital stock.

Russell H. Leonard, treasurer of the Pepperell Manufacturing company, could not be reached for a statement today, but at his office it was said that the Lowell plant of the concern was the only one of its five plants which did not make money last year and that the wage cut was decided on as the only possible means of eliminating the deficit. It was intimated that co-operation of the employees in accepting the cut would be called to the attention of city officials in an effort to persuade them to reduce the assessment on the Massachusetts mills.

None of the other plants of the company will be affected by the wage reduction, which, it was explained, is purely the result of the situation in Lowell. The company operates mills at Biddeford and Lewiston, Me., and has two plants in the South.

Death by Lottery

Four men were convicted of murder in Bolivia. Under the law of that nation only one person may be executed for a murder, no matter how many are involved in the crime. How was the issue settled? The four convicted men drew lots and the man who got the black slip of paper must die for the crime. It happens that the condemned is 28 years of age and spent the past 10 years in prison awaiting trial for the murder. An effort will be made to have his sentence changed.

This case illustrates how far the United States is ahead of many other nations in the administration of justice, though administration here is defective enough to cause alarm. Nothing like that could ever have occurred in this country, even in the days when men were burned for their beliefs. It has always been the law that those participating in a crime should pay penalties, if convicted, according to the extent of their participation, this to be determined by a jury on the evidence submitted.

Truly, one half the world doesn't know how the other half is living.
—Greenboro Record.

There's a Difference in Cabinet Heaters

and the difference is largely inside the enameled cabinet. In considering a cabinet heater for your home, insist on knowing how it will perform under actual conditions in your home. Investigate fully those unseen features of design and construction which mean so much in heating capacity, fuel saving, air circulation, long life.

Before you think of buying any cabinet heater, let us take you behind the scenes of a Sunbeam. See its furnace-type cast iron heating unit; its 84-pound fire pot; its inner casing that doubles the heating surface; its gallon-capacity water pan for air moistening; its dust-tight and smoke-tight construction. Then you'll know why this superior cabinet heater will heat a 5 to 7 room home, upstairs and down. And remember, *Sunbeam prices today are the lowest in history.*

See us today. We're talking quality, and price.
