NOTICE

North Carolina, Surry County.
Town of Mount Airy.

Ordinances respecting sewer system:

Whereas the town of Mount Airy has established a municipally owned and operated sewer system for the town of Mount Airy and it is necessary that said sewer system be maintained by the said Town of Mount Airy for the protection of the health of the residents of said town;

And whereas the maintenance of said sewer system requires the expenditure in the up-keep of the main lines and the general system of large amounts of money and it is necessary that charges be made to property owners for sewer purposes;

NCW THEREFORE, Be it Resolved and Ordained by the Board of Commissioners of the Town of Mount Airy:

Section 1.—That \$18.00 shall be the fee for each and every connection to main line of sewer, regardless of the size of service pipe depth or character of ditch, number of houses on line, or cost of tap to the town, and shall apply to those heretofore made. That the taps be run by the town from the main line to property line, if property adjoins street in which a sewer main is laid, except where sidewalk has been laid on any street and a sewer tap is to be made, it shall be run under the sidewalk from the street side as far as is reasonably possible without breaking the sidewalk or trespassing on property owners. Where sewer main is not in any street or within twenty feet of property, the town shall run sewer line a distance of twenty feet from sewer main, and the same be completed by the property owner. That in the event the fee herein provided for of \$18.00 is not or shall not have been paid in a period of twelve months from the completion of the same by the town of Mount Airy, there shall be added a penalty of one per cent per month and the said fee, together with the penalty, shall constitute a lien upon the property for which such tap is made and the same shall be collected as is provided for the collection of ad valorem taxes within the town of Mount Airy. That such property shall be subject to sale at any time after the expiration of twelve months from the completion of the work herein provided to be done by the town of Mount Airy.

Section 2.—That it shall be the duty of all property owners within the town of Mount Airy, upon notice from the town engineer or the clerk to the Board of Commissioners, to make such connection with the sewer system as said engineer or the Board of Commissioners shall determine and when notified. That any person, firm or corporation failing for sixty days after notice to connect with the sewer system shall be fined \$50.00 or imprisoned thirty days, provided the court may for cause shown, remit such fine to not less than \$10.00.

Section 3.—That a sewer maintenance charge shall be collected and is hereby assessed of twenty cents per month, and such charge shall be paid for each building, residence, apart-

CROWD TAKES DAY OFF TO WITNESS EXECUTION

Young Bolivian is Put To Death Amid Beautiful But Weird Scene.

La Paz, Bolivia, Nov. 6.—In a meeting weirdly beautiful — on heights surrounded by snow-clad mountains bathed in a bright tropical sun shining from an azure sky—Alfredo Jauregui Saturday morning was executed by a firing squad for the gruesome murder in 1917 of General Pando, illustrious soldier and former president of Bolivia.

Jauregui was one of the four convicted of the murder, and he had drawn the lot which sent him to face the death penalty for the crime of all, as provided by the law of the land: Eight policemen were assigned to execute the youthful slayer.

As he alighted from the automobile in the ir field, where the execution took place, airplanes were droning the funeral dirge overhead, he embraced the Associated Press correspondent, asking him to inform the world that he was innocent.

When his feet were bound together and in full view of a great throng, who had taken a day off and come by foot and in any kind of vehicle, he said:

"I am speaking against my executioners, against the Judas who has

ment or office which has one or more toilets emptying into any part of the Mount Airy sewer system whether it be direct or indirect, by way of some private line. That this charge is declared to be necessary to take care of the maintenance of the septic tanks and sewer mains. That any person, firm or corporation failing to pay such charge shall be fined \$50.00 or imprisoned thirty days, provided the court may for good cause shown remit such fine to \$10.00.

Section 4.—That all sewer connections shall be made by or under the supervision of the Water & Sewer Department of the town of Mount Airy.

Section 5.—That any person, firm or corporation tampering with or connecting to any sewer main without permission of the Superintendent of the Water & Sewer Department shall pay a fine of \$50 or be imprisoned for thirty days, provided the court may for good cause shown remit such fine to \$10.00.

Passed and ordained this the 4th day of October, 1927.

By the Board of Commissioners of the Town of Mount Airy.

Attest:
F. M. POORE, Sec. & Treas.
W. G. SYDNOR, Mayor.

brought me here."

In poetic phrases he read a speech denouncing Judge Tomayo, who sentenced him.

He then again invoked the deity to punish his executioners by sacrificing them to the wild animals, as was done in ancient Rome.

The firing squad took up its position. The prosecutor asked: "Convict Jauregui, have you for the last time in the name of the law any revelation to make?"

Almost violent, he shouted: "No, I have nothing to confess, for I am innocent."

His life only a mere matter of minutes, Alfredo exclaimed: "I am leaving this infamous world with a smile."

His brother Juan shouted to him: "Laugh, brother, laugh. The world is just, and sure of your innocence."

Alfredo was bandaged with a black handkerchief and seated in a wooden chair. The priest offered him the crucifix, the police officer unsheathed his sword ready to give the command to fire. As he was counting, the condemned man tried to tear the handkerchief from his eyes, but was prevented by his executioners.

"Ten—Fire." The rifles sounded and Alfredo Jauregui fell. Death was instantaneous. No coup de grace was needed.

The throng broke through the lines to view the body, which lay for a long time until picked up by Alfredo's relatives, to be taken to the cemetery for burial.

Ed—Why do you say that Joe was drunk?

Ned—Well he got on a street car and asked the conductor for a lower berth.

There's a Difference in Cabinet Heaters

and the difference is largely inside the enameled cabinet. In considering a cabinet heater for your home, insist on knowing how it will perform under actual conditions in your home. Investigate fully those unseen features of design and construction which mean so much in heating capacity, fuel saving, air circulation, long life.

Before you think of buying any cabinet heater, let us take you behind the scenes of a Sunbeam. See its furnace-type cast iron heating unit; its 84-pound fire pot; its inner casing that doubles the heating surface; its gallon-capacity water pan for air moistening; its dust-tight and smoke-tight construction. Then you'll know why this superior cabinet heater will heat a 5 to 7 room home, upstairs and down. And remember, Sunbeam prices today are the lowest in history.

See us today. We're talking quality, and price.
