Florida Potatoes on Tobacco Plant Beds

Turkey, Nov. 15.—Following a suggestion from county demonstration agent Zeno Moore that he utilize his tobacco plant bed for some small crop in order to prevent any damage or insects, B. B. Price planted sweet potatoes on the bed which was eight feet wide and twenty-eight feet long. He secured therefrom twenty bushels of potatoes without the use of additional fertilizers. Mr. Moore urges farmers to plant their tobacco bed in some sort of crop after removing plants in order to stamp out destructive diseases and insects.

Kills After 11 Years

Lansing, Mich.—Mrs. Erna Lake, wife of William Lake, an employe of a newspaper here, is dead from a bullet that lodged in her brain 11 years ago and could not be extracted. Mrs. Lake had been taken to a hospital suffering with bronchial pneumonia. She was seized with a coughing spell and surgeons say the jar loosened the missile, which struck a vital spot in her brain and caused her death.

At the age of 15 Mrs. Lake was cleaning her father's revolver when it exploded. The bullet entered her head, severed an optic nerve and caused total blindness. Surgeons feared an operation might prove fatal and the bullet was never disturbed.

As evidence of good faith the executors will require 10 per cent of the first payment on day of sale; one-third payable December 1, 1928 and one-third payable December 1, 1929 with interest from date of sale, interest payable annually.

WAR IS NOT AT END FOR RED CROSS

Demands for Service to Disabled Veterans Last Year Cost Nearly \$3,000,000.

Expenditure of \$2,992,225.66 for services to disabled veterans, and of \$207,222.22 for service to men of the Regular Army and Navy, were outstanding debts of the Red Cross appropriations for the past year's activities, and are cited by Chairman John Barton Payne as the continuing importance of this phase of the organization's responsibilities nine years after the end of the war.

Of the total expended for disabled veterans, the National Organization contributed \$1,161,222.56, and the local Red Cross Chapters \$1,749,000. The service to men of the regular forces was shared by the National Organization with an appropriation of \$297,222.22, and by the local Chapters with \$200,000.

During the year the Red Cross as a whole contributed materially to the success of the Government efforts to have every veteran re-instate or convert his war-time insurance before the final time limit expired. Chapters worked in cooperation with local veterans' bodies to assist former service men with their insurance papers, and the application routine, many Chapters keeping open headquarters up to the expiration of the final moment at midnight.

Under local Chapters of the Red Cross, assistance to ex-service men in filing claims for disability and adjusted compensation, securing hospital care for disabled veterans, preparation of social histories for use in treatment of men in government hospitals, assistance in securing proper guardians for veterans adjudged incompetent to administer their affairs, rendering reports on some conditions of service men applying for discharge because of dependency, and many other forms of aid are a part of the Red Cross duty to these men.

An interesting detail reveals the fact that prosecution of ex-service men's claims is becoming increasingly difficult as they grow more involved with each year that passes since the war. The number of death claims is growing constantly, in addition to the fact that there is a steady increase in the number of claims referred to various branches of the Red Cross concerned with assistance to veterans, for aid in bringing them to a close.

During the past year, National Headquarters estimated that the Red Cross assisted veterans and service men with cases involving total awards of \$553,681, for disability and death compensation, revival of insurance, adjusted compensation, pensions, medical and burial reimbursements, etc.

Red Cross representatives are on duty with the Army and Navy both in home and foreign garrisons, and contact is maintained in the hospitals and other centers where assistance to these men and women may be needed. Such Red Cross service, it is emphasized, covers only the fields where regular governmental provisions do not apply, and is designed to supplement these benefits of the Government.

It was emphasized that this particular activity of the Red Cross is one of the strongest appeals for the increased membership, which will be asked of the country during the annual enrollment from November 11 to 24.

Capital's Police Women Stand High in First Aid

Members of the Women's Bureau of the District of Columbia police department recently completed the Red Cross first aid course. This is perhaps the first women's group of the kind to be awarded the special first aid arm insignia by the American Red Cross in token of completion of the training.

The Red Cross in the past year qualified 24,812 persons in first aid and awarded certificates to members of police and fire departments, industrial groups and utilities employees all over the United States.

The Eleventh Annual Roll Call of the American Red Cross, during which new membership is invited, will be held this year from November 11 to 24.

In executing the third will of the city of Jerusalem a stone hall shot from a catapult during the Roman siege was found.
