### Prohibition Chief Exhibits Rum Car

Kinston, Dec. 2.—Jim Clifton, prohibition service official stationed at Richmond, is riding in an automobile with clever appointments these days. Clifton exhibited his new bus here today. It was turned over to the officer by a federal court after it had been confiscated in a raid.

The car is a \$2,800 machine. Hollow seats provide room for 400 quarts of whiskey. Cavernous compartments under the flooring provide more space. The compartments are steel-lined. The machine will do 75 miles an hour with ease.

Clifton believes the car was converted from a conventional sedan into a rum runner's machine at New York. The workmanship is perfect. The upholstery is rich. One would never suspect the boat to be what it is. There were 376 quarts of "red liquor" in the hidden spaces when the raiders found it.

# This Business of Buying Tires

The tire buyer today is deafened by the claims of rival manufacturers. Everybody is yelling "bargain," "discount," "allowance," "guarantee" and "service"—all tricks of the trade.

The car owner is surrounded by superlatives—bewildered by claims.

Compared to tires of other years, doubtless many of these statements are true. Competition has made better tires.

But in comparing tires today, the buyer who seeks his money's worth must consider one significant fact.

It stands out alone, unchallenged and triumphant.

It is this:—

More People  
Ride on  
Goodyear Tires  
Than on Any  
Other Kind

To maintain this popularity, each year, for more than ten years, Goodyear has made and sold more tires than any other manufacturer.

Goodyear leadership has been earned and kept by building a tire worthy of the world's largest manufacturer of rubber. It is backed by world-wide service of the same high character—courtous, expert, and in your interest.

Goodyear Tires won their supremacy upon the road where claims are proved by performance.

This incontestable fact means something to men who buy tires intelligently.

Over one hundred million Goodyear Tires have been sold.

A HUNDRED MILLION BUYERS CAN'T BE WRONG.
