THE WEATHER.

By Telegraph to THE FREE PRESS.
Raleigh, N. C., June 13.—The weather forecast is fair today, showers in the eastern portion tonight and Tuesday.

There was a refreshing rain Sunday afternoon.

The best newspaper covers the rear of trade in any section.—Printers' Ink.

Nearly a thousand packages of truck were shipped from Kinston last Saturday.

A fruit refrigerator car will come through Wednesday morning attached to the truck train.

The commencement exercises of Trenton High School take place Wednesday and Thursday of this week.

Kinston baseball club will try to get the Snow Hill club to play a match game in Kinston next Wednesday.

The Teachers' Assembly meets at Asheville this week. The special train for Asheville leaves Goldsboro at 7 a. m. tomorrow—Tuesday.

The A. & N. C. afternoon train Saturday was delayed over three hours. The engine was disabled by the throttle connection in the dome of the boiler getting out of fix. The train was brought down by one of the truck train engines.

The owners of the Royal Baking Powder company lately refused \$12,000,000 for the concern, a business built up and fostered by persistent advertising. But they have a good article. If a man does business right, and will let the people know of it through the best newspapers, he will surely succeed.

The Western Union Telegraph company is putting in a commercial line from Newbern to Norfolk, via Kinston, Parmele, Plymouth, Tarboro and Suffolk. It will be a new circuit of 271 miles. The wires were put up as far as Kinston Saturday, and the line foreman and his force are now working from Kinston toward Parmele.

Master George Fleming, 4-year-old son of Mr. G. P. Fleming, drank some sugar of lead this morning and liked it. This is a deadly poison and as soon as Mr. and Mrs. Fleming found out their son had taken the poison they gave the boy emetics and sent for a physician, and had the poison out of his stomach before it could take effect.

The plastering is being knocked off in the rooms of the court house. The rooms will be celled with wood. The bar of Kinston has asked the county commissioners to have an arched ceiling put in the court room, so the acoustics will be better. If the court room is fixed this way it will have a better appearance and speakers can be heard better.

Brother Dowd, of the Charlotte News, seems to have been on a picnic recently. He says: "Now is the festive season, when the picnicker goes forth in his white duck trousers and uses the butter plate for a sofa; when the fried chicken sandwich is at its zenith and the pickle has not lost its sour; when the straw hat blossoms in all its radiant beauty, and the insects and bugs of the forest clap their hands for joy."

It Tells What is Going On.

Hardly a day goes by but what some one is kind enough to speak about the telegraphic service of The Reflector. The service is not as large as the big papers, of course, but The Reflector tells you every day just what has happened, while the big papers that come along 24 hours later can only tell how it happened. It is the only paper that gives you the news the day it occurs. The patronage is not yet large enough to fully justify the heavy expense of furnishing a telegraph service, but we go on giving it in the hope that our friends will all talk for the paper and turn all the patronage possible into the office. Subscriptions, advertising and job work all help us, and this office tries to merit your giving us these.—Greenville Reflector.

THE FREE PRESS copies the above, as applying also in many particulars to our daily. We are publishing the regular afternoon wire reports, and occasionally receive specials of events of great importance. This is very expensive. We are giving Kinston a very much better daily than the patronage given it justifies, but we intend continuing doing so in the hope that our business men will gradually awaken to that fact, and give us a good advertising patronage, especially as we have a large circulation and it will pay them to do so.

We are now getting just about enough patronage on the daily to pay the expense of publishing it, but not enough to pay the editor any profit for his greatly increased work, both night and day.

We have had dry weather and sunshine long enough to enable our farmers to clean their crops, and with good seasons from now a good crop is almost assured.

Potatoes and beans have given our truckers perfect satisfaction, both in quantity, quality and price, and no doubt will cause those that planted this spring to plant heavier next, and others to venture that did not plant any, and lose money next season.
