## N. C. JOBBERS AND MANUFACTURERS.

We understand that at an early date a convention of the jobbers and manufacturers throughout the State will be held for the purpose of effecting a permanent organization for the advancement and protection of their interests.

This is an excellent move. It is something North Carolina has needed for a long time, and we predict that much good will result from it. As we understand it it is not to be restricted to any particular line of trade, it is to be hoped that every jobber and manufacturer will give the movement his hearty support.

There are many subjects urgently requiring the attention of such an organization, but most prominent among these are the questions of general legislation, taxation and freights.

Comparatively few of our manufacturing and jobbing enterprises are able to cope single-handed with conditions of today. The struggle for existence is fierce; the weak fall, and those who hesitate are left behind. There are trusts in trade, pools in transportation and lobbyists to look after every legislator. To deal with these, organization and concert of action is absolutely indispensable.

While North Carolina has been hesitating, our sister states, by favorable legislation and taxation, have drawn away from us valuable industries and much needed capital; and their wide-awake jobbers and manufacturers have, by their organized and persistent efforts, secured from the railroads what are called "gateways," to which points freight is handled at remarkably low rates. For instance some articles of freight are hauled from Chicago to Richmond, nearly as cheap as they are from Richmond to Raleigh.

Such conditions should not exist and will not if the proposed organization is prosecuted with vigor and intelligence.—News-Observer.

## A KENTUCKY TRIAL.

Troops Guard the Court House But the Shooting Has Not Begun.

London, Ky., June 5.—The Baker murder trial began at Manchester today. The troops sent to guard the court house are encamped near the building, ready for action. Sentinels are on guard to keep the Howards, Whites and Bakers out of town. The Whites and Howards also put out guards to pick off the Bakers if they attempt to enter the town.

The Bakers are camped on Bear Creek, 100 strong. There are fully 100 of the Whites and Howards. Col. Williams has only 100 soldiers. All the parties are heavily armed. There has been no shooting so far.

The State charters the Patterson Textile company, of Halifax. The capital stock is \$200,000. The mill will spin and weave cotton and woolen fabrics.

Last fall I sprained my left hip while handling some heavy boxes. The doctor I called on said at first it was a slight strain and would soon be well, but it grew worse and the doctor then said I had rheumatism. It continued to grow worse and I could hardly get around to work. I went to a drug store and the druggist recommended me to try Chamberlain's Pain Balm. I tried it and one-half of a 50-cent bottle cured me entirely. I now recommend it to all my friends.—F. A. Hancock, Erie, Pa.

It is for sale by J. E. Hood.

## REMEDY FOR RAPE.

A Novel Method of Punishment Proposed For Perpetrators of This Terrible Crime.

Communication.

Rapes and lynchings seem to be agitating the public mind very much at present. It may be opportune to state some facts in regard to dealing with rape that have come to my knowledge. During the last fifteen years three rapes have been committed within twenty-five miles of Kinston and on the south side of Neuse river. The criminals have been duly punished; the victims saved the disgusting and nauseous notoriety that would have been inflicted on them by a public trial. In each case the rapist has been caught and held until an experienced castrator could be sent for. On his arrival the rapist has been offered a trial by jury or castration—they always choose the latter.

This kind of proceeding probably would not suit some people but it has been highly satisfactory in the neighborhoods where the remedy has been used. It effectually cures the rapist of his libidinous propensities. It saves his poor victim an ordeal almost as trying as the rape. It saves the country the harrowing detail of a hideous crime. All parties are as near satisfied as they can be. These castrations have been conducted by men of prudence and determination, only a very few being present or knowing anything about it.

Rape is not a rare crime. In the majority of cases, when the victim is a woman of character and standing, she prefers to bear her misfortune in silence rather have all her future life marred and made miserable by publishing the fact that she has been put to such usage by a vile brute.

Let's have more castrations and no lynchings. Two or three of the victim's friends can avenge her and not trump her misfortunes to the world.

CITIZEN.

## DR. JAMES M. PARROTT,

Physician and Surgeon,  
KINSTON, N. C.

Office near Court House.
