### Question Answered.

Yes, August Flower still has the largest sale of any medicine in the civilized world. Your mothers and grandmothers never thought of using anything else for indigestion or biliousness. Doctors were scarce, and they seldom heard of Appendix, Nervous Prostration, of Heart Failure, etc. They used August Flower to clean out the system and stop fermentation of undigested food, regulate the action of the liver, stimulate the nervous and organic action of the system, and thus keep their work when feeling sick and get well with headaches and other aches. You only need a few doses of Green August Flower, in liquid form, to make you realize there is nothing else on the matter with you. For sale by Female Sanitarium, 1125 Broadway, N. Y.

## ELOFF CAPTURED

By Baden-Powell; Also Kruger's Grandson. Rumors of Relief.

London, May 18.—The closing days of the drama at Mafeking have been marked by intensity of dramatic interest, as unexpected as it is out of proportion with the forces engaged. The news that the half-famished garrison was not only able to repel an attack, but to inflict such heavy loss in killed and prisoners as reported in the dispatch from Cape Town announcing the capture of Commandant Eloff, the grandson of President Kruger and 90 of his men, makes Great Britain more than ever proud of Col. Baden-Powell's little band and increases the national desire for their relief to a fever pitch. Lord Roberts and his large army at Kroonstad and Gen. Buller's thousands are almost entirely forgotten. Everyone is thinking or talking of Mafeking and the latest exploits of the defenders. Rumors continue rife that the relief of the place has been accomplished.

There was considerable speculation as to what Col. Baden-Powell would do with his ninety prisoners and whether the victory has not so depleted his force as to render him open to annihilation in the event of another attack by the superior Boer numbers. But Lord Roberts has already heard rumors that these have been cut off by the relieving column.

Gen. Buller's making good progress in recapturing the railroad and driving the Boers out of Natal, the occupation of Dannhauser shows that he is meeting with little resistance on the part of the burghers.

Lord Roberts is still gathering his forces together previous to striking the Vaal river.

### One of the Best.

Baltimore News.  
At the meeting of the Southern Cotton Spinners' association on the 14th, N. C., last week, it was mentioned in one of the speeches that "the crowning glory of cotton factories of the south is that they make the women of the rural districts wage-earners and self-supporting, and enable them to care for and support their aged and infirm parents in the decline of life." There are a number of good sides to the growth of the cotton industry in the South but this is certainly one of the best of them.

### He Had Too Many Names.

About two years before Mr. Sawyer retired from the senate his mail one morning contained a touching letter from a man in Maryland whose home had just been brightened by the arrival of a bouncing boy. The fond parent went on to tell that the boy would be named Philetus Sawyer Jones and expressed the hope that the child would grow up as honor to the name and the possessor of the fine traits of character that distinguished the generous hearted man whose name would be borne by himself.

Senator Sawyer went to the senate chamber with a warm glow in his heart and the determination to send that fond parent a nice big check. He felt so good that he showed the letter to Senator Allison. The Iowa man chuckled as he read it and produced a letter almost identical, except that the young prodigy was to be named William Allison Jones.

It was too good to keep, and they told the story to Senator Edmunds of Vermont. That stately old gentleman melted sufficiently to smilingly produce a letter of similar purport. Then there ensued a comparison of senatorial notes, showing that the youthful Marylander had been fairly loaded with distinguished names from Justin Morrill Jones to Don Cameron Jones. That Maryland infant received no birthday present.—Milwaukee Wisconsin.

### Easily Managed.

House Hunter—But are you sure that the cellar is perfectly dry?

Real Estate Dealer—Oh, you may be sure of that! Never was a drop of water ever seen in it, even in the wettest kind of weather.

House Hunter—Sorry about that. Do you know I have a theory that a damp cellar is the healthiest thing in the world. In my opinion the water in a cellar absorbs noxious gases, and, besides, it so moistens the whole atmosphere of the house as to make it more grateful to the lungs.

Real Estate Dealer—Come to think of it, it was that other house on the other side of the street that has the dry cellar. The cellar in this house is never free from water. Really, sir, I think it will suit you immensely.—Boston Transcript.

### The Two Sides.

What the employer said: "Thank heaven, I've got rid of that nuisance at last. I had given him hints enough, but it was of no use, and finally I actually had to kick him out of the place."

What the paper said: "We hear that Mr. Benson Harding has severed his connection with the Brownstone Improvement company."—Boston Transcript.

## TO ORGANIZE CLUBS.

White Supremacy Organizations to Be Started at Once. Hon. Francis D. Winston in Charge of the Work. Object and Purpose of the Clubs.

### Raleigh News-Observer.

Mr. Francis D. Winston, of Bertie county, is at the Yarrowborough. He comes here at the invitation of the executive committee, for the purpose of assisting in organizing White Supremacy clubs all over the State. During a conversation with him we learned the following facts about the work:

The organization of clubs will be pushed at once by means of an organizer in each county. These organizers will be appointed by the county chairmen, and they will be expected to visit every township in their county and arrange for at least one club there, and in the large townships more than one club will be organized. These clubs will be working bodies and not dress-parade organizations; through them the Democratic party will appeal to the good character and the highest aspirations of the people.

The State committee believes that a man can render the party and his race more service by belonging to a club, than by remaining outside. Every white man is urged to become a member of one of these organizations. The organizations in the cities will be in the wards and in the voting precincts. Each club will have a committee to look after the different parts of its work. The committee on registration will see that every voter is duly registered. The committee on campaign literature will distribute among the members and others, all literature sent out, which will contain a full discussion of the amendment. The committee on speakers will arrange for public speakings in every township under the auspices of the club. And the committee on challenges and polls will be given such duties as the name of the committee indicates.

I quote from the constitution, Article 2: "The purpose of the organization, will be to fully restore to, and make permanent in North Carolina the supremacy of the white race; to promote individual efforts in behalf of the party and its candidates on the part of the voters, and to bring the head of the organizations in the counties and State more closely and easily in touch with the township organizations, and individual party voters."

The qualifications for membership are outlined in the plan of organization as follows—Article 5: "Every white man who desires white government in North Carolina, and is willing to use every practical and honorable means to restore and permanently establish white supremacy therein, and who proposes to support candidates pledged to effect that purpose in the ensuing election, shall be eligible to membership in the township club."

It is the purpose of the executive committee to have at least one club in every township in North Carolina, in good working order, by the first day of June. Later on, an organizer will be appointed for each congressional district, who will have charge of the work within that territory.

The plan of organization and constitution and by-laws has been prepared by the executive committee, and it is a very succinct statement of the plan, purposes and work of the club. These are being distributed to the various counties.

It is proposed to have, later on in the campaign, one day set apart as white supremacy-club day. On that day every club in the State will be in session, and will hear an address on the constitutional amendment and the supremacy of the white race.

These clubs are formed somewhat on the plan of the white government unions of two years ago. They were a most potent factor in the last campaign, and the clubs this year will be equally so.

I quote you the preface to the constitution:

"Our State is the only community in the world with a majority of white voters where it is seriously proposed to take the control of the public affairs of the State out of the hands of the white people and commit them to a political combination, composed chiefly of negroes and dominated almost entirely by negro influence."

By united effort of the good people of the State, irrespective of party, in 1898 the State was rescued from negro rule, and the amendment to the constitution, to be voted upon by the people in August, is submitted for the purpose of forever removing the danger of recurrence of negro ascendancy in the State.

The necessity of continued co-operation of the white people of the State for self-protection is shown by the fact that the party that betrayed the State, and which for this and its other short-comings was hurled from power in 1898, is again seriously asking the people to restore it to the control of the State, and actually indulges the hope that, with the aid of 120,000 negro votes, sold by a lot for it, it may succeed in regaining control of the government.

## ELEW OUT HIS BRAINS.

A Crazy Beaufort County Farmer Commits Suicide.

Washington, N. C., May 17.—Reading Sherrod, living about thirty-five miles from here, committed suicide Sunday, May 13th. He was about 45 years old, honest and industrious. On last Thursday he complained of a severe pain in the head, was exceedingly nervous, walked the yard all night and at times carried a gun, saying the yard was full of men who desired to kill him.

Friday he was some better but delirious at times. During Saturday night he rapidly grew worse, became crazed, locked the door of his room, put the key in his pocket, nailed down the windows, closing up his wife and child with him, having his loaded guns in the room with him and threatening to shoot. Early Sunday morning his wife managed to open the window, put her child out and then made her escape and sent for assistance. Several gentlemen went and endeavored to get him out of the room. He refused, and said some one wanted to kill him, said he desired the sheriff to come and protect him. A few minutes before the deputy sheriff arrived Sherrod fired the fatal shot. His wife and child made the alarm and the neighbors came and broke into the room and found the dead body. The load entered the head, blew out the top, scattering the brains and pieces of his skull all over one side of the room.

## A DOUBLE CHALLENGE.

After Refusal by the Democrats, Butler Challenges the Republicans to a Joint Debate.

Raleigh, May 16.—As soon as the Populist State convention adjourned State Chairman Marion Butler challenged the Democrats to a joint debate on the franchise amendment. The Democratic chairman declined on the ground that the Populists had declared that was no issue with them.

Ten days ago the Democratic State chairman challenged the Republicans to a joint debate. As yet no reply has been received. It is ascertained that the Populist chairman also sent a challenge to the Republicans for a joint debate.

It is conjectured that this is a plan to force a joint debate on the Democrats with the Populists or else have none at all, as the Republicans and Populists are working together.
