- FOR ATTORNEY-GENERAL: ROBERT D. GILMER, of Haywood.
- FOR COMMISSIONER OF LABOR AND PRINTING: H. B. VARNER, of Davidson.

- FOR COMMISSIONER OF AGRICULTURE: SAMUEL L. PATTERSON, of Caldwell.

Philadelphia can no longer be regarded as the abiding place of the bargain hunter. A jury in that town has placed a valuation of \$25,000 on the affections of an ordinary man.

The South Carolina Democratic platform says "benevolent assimilation has proven to be the benevolence of murder and the assimilation of robbery." The language sounds very much like Ben Tilman.

It hasn't taken long to develop in Cuba the standard peculiar to the carpet bag system of American Republicanism, remarks the Richmond Dispatch. Now look out for the returns from Porto Rico. And the Philippines have not been touched yet. This is the harvest year for the carpet bagger. He ought to bless St. McKinley for the great opportunities opened up to the carpet bag variety of American enterprise.

There is no doubt that the Republican and Populist bosses are getting ready for fusion, in spite of the two dummy State tickets. At the senatorial convention of the Iredell-Yadkin-Davie district, the Republicans nominated J. C. Pinnix and left the other place "open." For what? For the Populists to fill it. There is perfect accord and understanding between the two parties and after they have kept all the Populists they can from joining the White Supremacy party the deals will be consummated.

Wharton Barker, nominee middle-of-the-road Populists for president, called on President McKinley Thursday, to "pay his respects," so it was announced. In an interview with a newspaper man afterwards Barker predicted McKinley's election unless the Democrats nominate Gorman or some other eastern man. Barker talked like a goldbug and we think it quite probable that, following his visit to McKinley, he will "pay his respects" to Mark Hanna and secure some "sinews of war" with which to carry on his sideshow to aid McKinley by drawing all the strength he can from the real nominee of the masses.

The Populist State nominees are working to help the Republicans. The Republicans don't want to meet the Democrats in joint discussion, though challenged to do so by Chairman Simmons some time ago. Now the Populist bosses are saying they challenged the Republicans as soon as did the Democrats. The plan of the Rep.-Pops. doubtless is to have the Republicans accept both challenges and sandwich the Democrats between two sets of nominees, of different politics in name only, for the Republican and Populist candidates are neither opposed to each other, but both are opposed to the Democrats. In fact, the probability is that they will, on the eve of the election, withdraw parts of each ticket and unite on the same ticket on election day. It is a cowardly scheme to have two speakers to one speaker for Democracy and White Supremacy. Chairman Simmons should insist on the Democratic nominees meeting only the Republican candidates, for all opposition to Democracy this year means only one party, that which favors black rule.

Biliousness is a condition characterized by a disturbance of the digestive organs. The stomach is debilitated, the liver torpid, the bowels constipated. There is a loathing of food, pains in the bowels, dizziness, coated tongue and vomiting, first of the undigested or partly digested food and then of bile. Chamberlain's Stomach and Liver Tablets allay the disturbances of the stomach and create a healthy appetite. They also tone up the bowels. Try them and you are certain to be much pleased with the result. For sale by J. E. Hood, druggist.

### COLT'S INVENTION.

The First Great Improvement Made in Repeating Pistols.

In this day of improved firearms the fact that the first great improvement made in repeating pistols by Colonel Samuel Colt was patented in the day of our grandfathers is seldom recalled. It was Colonel Colt, then of New York, to whom was granted the patent, Feb. 25, 1836. The original petition in the case was destroyed by the fire in December following. The letters patent were returned when application was made for the reissue, Sept. 1, 1848. The original letters are signed by Andrew Jackson, president; John Forsyth, secretary of state, and Benjamin F. Butler, attorney general.

After describing his invention Colonel Colt claims as new "the application of caps at the end of the cylinder, the application of a partition between the caps, the application of a shoulder over the caps as a security against moisture and the action of smoke upon the works of the locks, the principle of the connecting rod between the hammer and the trigger, the application of the shackle to connect the cylinder with the ratchet," etc.

There had been a revolver patented about 20 years before by one Collin, but until Colt's invention little headway was made. Indeed it was not until Colt's invention had been given a trial by Major Sam Walker and his Texas rangers that it gained popularity and was regarded as a success. About the time Colonel Colt was applying for a reissue, in 1848, Mr. Wesson had filed an application for a repeating firearm, by which the Smith & Wesson pistol of today is represented. —Washington Star.

#### A Labored Effort.

"What do you think of my play?" asked the author.

"Play!" grunted the leading man. "Play nothing! It's hard work." —Philadelphia North American.

An agent for the American Bible society says that the first book printed in Minnesota was a Bible. It was printed in 1836, about 13 years before the first issue of a newspaper in St. Paul.
