## GENERAL NEWS.

Matters of Interest Condensed Into Brief Paragraphs.

Caleb Powers has issued a statement in which he says he has been made the victim of a judicial farce.

Sergt. Buck Taylor died at Washington City Sunday. He was a close friend of Gov. Roosevelt and was with him in Cuba. He was at one time chief cowboy in Buffalo Bill's Wild West Show. He died of consumption contracted in Cuba.

At Alexandria, Ind., the entire plant of the Kelly Axe Manufacturing company, valued at \$800,000, was destroyed by fire Sunday. It was the largest axe factory in the world, employing some 800 or 1,000 men when running at full force.

Allen Nichols, 26 years of age, of Nichols, N. Y., was almost instantly killed by a big four freight train in East Alton, Sunday. Young Nichols, while attempting to board a moving train, missed his footing and fell between the cars. His body was cut in two at the hips. Although fatally hurt, he lived long enough to give his name and the address of his parents, who are well to do.

Mrs. James Strathie, of Atlantic Highlands, N. J., is dead, after suffering for a week from well-defined symptoms of hydrophobia. A month ago Mrs. Strathie's son died of the same disease, both mother and child having been bitten by a playful puppy. It was not until the son's death that the dog was killed and found to have been diseased. The mother was taken ill a week ago, and in spite of the best medical treatment, she died at noon Sunday in awful agony.

At Rhinelander, Wis., Wm. F. Fenlon, one of Rhinelander's most foremost citizens, was shot and killed by J. Bascom Robbins, a salesman for a Chicago crockery company. Robbins, it is alleged, insulted one of the women clerks in Fenlon & Co.'s store, and Fenlon drove the salesman out of the establishment and pursued him to within a block of the hotel. Fenlon later went to the hotel, and as he entered the office, Robbins, who was standing near the desk, fired, killing him instantly. Robbins was arrested.

At Philadelphia, Sunday night, while frightening a crowd of negroes by pretending she was a ghost, Florence Almond, aged 14 years, was struck on the head with a brick, thrown by one of the negroes and killed. The negroes were gathered on a lot at 57th and Ludlow streets, when the girl, who lived near by, wrapped white sheet about her, and suddenly appeared before the crowd. The negroes scattered in all directions, and the girl was about to return home when the brick was thrown. She died in a few minutes.

Kansas is experiencing one of the most severe droughts in the history of the state, and the general opinion is that the Kansas corn crop will be the smallest, in proportion to its requirements for feeding, that has been raised in many years. In 1899 the crop was 225,000,000 bushels. Secretary Coburn's report of conditions on August 4 indicated a yield this year of about 145,000,000 bushels. Since then there have been two weeks of hot, dry weather, which has further materially reduced conditions, and the most liberal estimate of well informed men on change do not exceed 100,000,000, while many place the crop at not over 75,000,000 bushels.

Commercial relations between the United States and Spain have been fully restored. The figures of the Treasury bureau of statistics for the fiscal year 1900 show that the exports from the United States to and imports into the United States from Spain in the fiscal year 1900 were larger than any year since 1898, and within a few hundred thousand dollars of the highest record ever made in the commerce between the two nations. Exports from the United States to Spain in the fiscal year 1900 were \$13,399,680, against \$10,912,745 in the fiscal year 1897, the last full year preceding the war, while the imports into the United States from Spain in 1900 were \$5,950,047, against \$3,631,973 in the fiscal year 1897.

At Lincoln, Neb., James Burnham, publisher of the Wyomorant, at Wyomorant, Neb., shot and killed his father, Capt. Collins A. Burnham, at their home Sunday. A coroner's jury exonerated the son. Both father and son were prominent political workers in the county. The killing was in self-defense. The son gave himself up to the officers. The elder

### Does it Pay to Buy Cheap?

A cheap remedy for coughs and colds is all right, but you want something that will relieve and cure the more severe and dangerous results of throat and lung troubles. What shall you do? Go to a warmer and more regular climate? Yes, if possible; if not possible for you, then in other case take the only remedy that has been introduced in all civilized countries with success in severe throat and lung troubles, "Bosch's German Syrup." It not only heals and stimulates the tissues to destroy the germ disease, but relieves inflammation, eases easy expectoration, gives a good night's rest, and cures the patient. Try one bottle. Recommended many years by all druggists in the world. For sale by the Temple-Macmillan Drug Co.

Burnham was a captain in the civil war, and while a genial man when sober, he was a fiend when intoxicated. Many times he had threatened to kill all members of his family. Sunday the father came home and made an assault upon his son. He was armed with a butcher knife, and after getting his son in a corner, was in the act of plunging the knife in his body. When there was no other alternative, the son drew a revolver and fired a shot which went through Capt. Burnham's heart killing him instantly.

### Wanted to Warn Him.

Sir Algernon West tells this story in his "Recollections." One day the late Sir George Campbell, who had a very strident, loud, rasping voice, called on Sir Algernon, who was then secretary to Mr. Gladstone, to talk over the land question.

After he had been in conversation about three minutes the office keeper appeared, bearing the card of an M. P. who, he said, was very anxious to see Sir Algernon. The latter said he was sorry to be engaged. In another minute he appeared with the card of a well known peer who was most dearous to have a word with him. Again the latter said he was too busy to see him just then. In another minute the man again came in with a huge card saying the lord mayor and sheriffs of London wanted to speak to Sir Algernon West in the next room.

Sir Algernon apologized to Sir George and went out to such great dignitaries. When he got out of the room, the office keeper startled him by saying, "There ain't nobody here, sir, but I was afraid a madman had been shown in to you by mistake, and I wanted to warn you, sir."

### Old Fowl For Eating.

Farmers should eat more of the poultry that they grow. It is nearly always a high priced meat, says The American Cultivator, but it is so very largely because when young and well fattened the flesh is more easily digested than any other. Most of those who grow poultry content themselves, through mistaken ideas of economy, with killing for home use only those that are old, tough and unsalable.

These last, however, are not to be despised. If cooked long enough over a slow fire to reduce the muscular parts to tenderness. It is time rather than great heat that is required to make all old animals good to eat and to some taste better than the young. All kinds of meat should be cooked long enough to make them tender. There is more nourishment in the old fowl than there is in a broiler, and if it is cooked long enough it will be quite as good.

## FIRING ON PALACE.

Imperial Quarter Pekin Under Bombardment. Americans Entered Legations With Loss of Only Eight Wounded. Communication of Allies Cut. Fighting Continues Within the Walls. Dowager Empress Said to Be Detained in The Inner City. Chinese Army Making a Last Stand Behind Formidable Defenses.

Washington, August 20.—From Gen. Chaffee yesterday the war department received official confirmation of the fall of Pekin and the rescue of the besieged legations.

The dispatch of the American commander was not long, and contained few details, but the unconcealed satisfaction with which it was received by officials of the administration indicated clearly the anxiety that had been engendered by his prolonged silence. His last communication to the government, prior to yesterday's advices, was dated Augst 11, at Matow, about 30 miles from Pekin.

The explanation of his silence is suggested in advice received by the navy department yesterday from Admiral Remey, who, telegraphing from Taku on the 18th, says the telegraph line between that point and Pekin is interrupted.

The cablegram from Admiral Remey contains some important information, not mentioned by Gen. Chaffee. He makes the startling statement, on Japanese authority, that the inner city of Pekin was being bombarded by the allied forces. Admiral Remey says, also, that the dowager empress is detained in the inner city by Prince Yung-kuo.

Advices received from the foreign office at Tokyo, Japan, by the Japanese legation in this city, confirm and amplify previous accounts of the capture of Pekin by the allied troops.

GEN. CHAFFEE'S DISPATCH.

Following is the text of the dispatch from Gen. Chaffee, as made public by the war department:

"The Foo, Aug. 18, 1900.

"Adjutant General, Washington:  
"Pekin, Aug. 15.—We entered legation grounds at 5 o'clock last night with Fourteenth and light battery. Eight wounded during day's fighting; otherwise all well."

CHAFFEE.

The dispatch, which was received during the morning, was transmitted immediately to the president at the white house. He expressed his gratification at the news it contained, particularly at the small loss sustained by the American troops. A copy of the dispatch likewise was sent to Adj. Gen. Corbin, who is in New York.

It will be noted that the dispatch indicates that the American troops entered the legation grounds at 5 o'clock on the evening of the 14th instant. By the Washington officials and by the several legation officials to whom it was shown the date of Gen. Chaffee's communication is regarded as an error of transmission.

It is believed that the word "fifteen" should be "sixteen." All previous advices, official and unofficial, have indicated that the legations were relieved on the evening of the 15th, Wednesday, after a day of sharp fighting. Minister Wu, the Chinese representative, and Minister Takahira, of Japan, were quite positive on this point, all their official advices being to the contrary. The judge commanding the legation grounds, however, said that entrance to the city of Pekin was effected early in the evening of Wednesday, the 15th instant.

AMERICAN ATTACKING FORCE.

The fact that only the Fourteenth infantry and Riley's battery entered the city, as shown by Gen. Chaffee's dispatch, does not indicate that the Ninth Infantry and the marines, who were so conspicuously gallant throughout the advance upon the capital, did not participate in the engagement which resulted directly in the rescue of the besieged legations.

It is pointed out as likely that Gen. Chaffee, acting in consequence with the other commanders, divided his force, leaving the Ninth Infantry and the marines with out the walls of the city, to act as a rear guard, to prevent the escape of Chinese troops by other gates than those through which the allies entered, or for some other excellent reason.

Only two battalions of the Fourteenth regiment are with Gen. Chaffee. They comprise about 800 men. This would indicate that only about one-third of Gen. Chaffee's force actually had entered the city at the time he sent his dispatch.

The fact that only eight of the American forces were wounded, none being killed, is regarded as notably fortunate.
