# OLD NORTH STATE NEWS AND GOSSIP

ODD AND INTERESTING HAPPENINGS.

Decapitated by Car Wheels.

News and Observer: Oscar Jenkins a negro carpenter was completely de-capitated yesterday morning by a train of the Raleigh and Cape Fear railway. A freight train of the Raleigh and Cape Fear was being made up on the main line of the Southern railway, and was back-ing slowly. A Southern railway engine, shifting on the side track, was proceeding in the same direction, several yards ahead of the Mills train. Jenkins was walking along the track and stopped to look at the shifting engine. He stepped backwards upon the main track, immediately in front of the backing freight trair, which struck him and passed over him, the wheels of one car cutting his head entirely off and severing his left arm above the elbow.

Monroe secial to Charlotte Observer: About a year ago Sallie Smith, an old lady, who represented herself to be in-digent, unable to work and without rela-tives, was taken to the county home. as follows: Yesterday she was seen to have some money and a search of her trunk was de. The search resulted in finding \$714, nearly all in gold. It was placed in the bank and the woman will remain at the home until the commissioners meet, when the case will be looked into. meet, when the case will be looked into. The woman came to Monroe about 15 years ago from Chatham county and had served as a cook and housekeeper.

SHORT STATE STORIES.

Chatham Record: Quicksilver is re-orted to have been found at Hot Springe in purest form. The deposits are the first known in Western North Carolina. They give indications of being most valuable.

Chatham Record: There is a colored roman in Oakland township, wife of surry Fouschee, aged 44 years, who has then children buried in the graveyard

operative, being caught in the beit of a lit was the largest and most representa-tive judicial convention ever held in the district.

Goldsboro Argus: The crops in this section are the best they have been for years, and are so very different from what they were last year at this time, when the country was flooded with excessive rains. All crops are looking very well, except tobacco and it is improving since the recent delightful rains.

## COMPORT.

BAST CAROLINA LEAGUE. The Kinston Club Has Been Greatly Strengthened.

The Kinston base ball club returned rom their trip to Wilson and Tarboro resterday morning and so far from being yesterday morning and so far from being discouraged by the string of deleats the members, particularly Captain Harvey, are bubbling over with enthusiasm and confidence. They played Wilson to a standatill and should have won both games but for errors of the umpire, which be frankly acknowledged after the game, and as it was they would have won but for two errors in the outfield. Even though they lost it the first game at Tar-boro was a credit to them and was gen-erally pronounced to be one of the finest ever played in that hot base ball center. In the second game the boys labored un-der various disadvantages, which are not likely to occur again. Throughout the series the team was weak in the out field, while the infield is acknowledged to be the strongest ever seen on an amateur team, playing three games without an error. The team has been strengthened by the addition of Mills, formerly of Wake Forestand Taylor of Tarboro, and shifting players so that each position will be a tower of strength and the outfield is expected to show up as strong as the infield. Wilson comes Wednesday and the line up of the home team for the game is Meacham, 2b.

## DIRECTORS' MEETING.

The members of the Board of Directors of The Kinston Publishing Company are requested to meet in Tan Fame Panes annex, No. 107 W. Gordon street, Wed-

needay, July 2, at 8 p. m. sharp, to hear reports of the present condition of the business, discuss plans for the future and transact such business as may come be-fore it. By order of the president. F.M. HARRISOTON, Secretary.

Spring fever is another name for billiousness. It is more serious than most people think. A torpid liver and inactive bowels mean a poisoned system. If neglected, serious illness may follow such symptome. DeWtt's Little Early Risers remove all danger by stimulating the liver, opening the bowels, cleansing the system of impurities. Safe pills. Never gripe. "I have taken DeWitt's Little Early Risers for torpid liver every spring for years," writes R. M. Everly, Moundsville, W. Va. "They do me more good than anything I have ever tried."

A Real Friend.

"I suffered from dyspepsia and indigestion for fifteen years," says W. T. Sturdsvant of Merry Oaks, N. C. "After I had tried many doctors and medicines to no avail one of my triends persuaded me to try Kodol. It gave immediate relief. I can eat almost anything I want now and my digestion is good. I cheerfully recommend Kodol." Don't try to cure stomach trouble by dieting. That only further weakene the system. You need wholesome, strengttening food. Kodol enables you to assimilate what you est by digesting it without the stomach's aid.—J. E. Hood.
