of Lenoir,
THOS. D. WARREN,
of Jones.

For Congress from Second Congressional District,
CLAUDE KITCHIN,
of Halifax.

There are indications that Russia is becoming uneasy concerning her naval position in the far east. The Sviet of St. Petersburg publishes a noteworthy article in which it declares that the Russian squadron in the Pacific ocean is completely at the mercy of Japan on account of the difficulty which the Russian ships would experience in that part of the world in recalling and reprovisioning. Moreover, it says, there would be many obstacles even to their carrying out many necessary repairs, inasmuch as the docks at Vladivostok and Port Arthur are insufficiently equipped for the purpose. The Russian vessels, it remarks, are obliged to winter in Japanese ports, as Vladivostok is almost inaccessible during the cold months, while at Port Arthur there is not sufficient accommodation. Moreover, there is not a sufficient depth of water in the inner basin, and the outer basin, which is somewhat larger, is dangerously exposed to every wind. The Sviet also foresees the danger of the ships of the Russian fleet being blockaded by the Japanese in Vladivostok and Port Arthur in time of war. The article concludes by saying that, in view of these many and sinister possibilities, it is absolutely necessary that Russia should obtain a fresh point d'appui on the Pacific coast, and for this purpose Manampo, in Korea, would satisfy all requirements. It does not seem to have occurred to the writer that this was one of the plans which the Anglo-Japanese treaty was designed to defeat.

Whitcapping has received a severe shock in Arkansas. A mob was advancing on the house of a man who had received a tip that it was the laudable intention of the gang to kill him and blow up his property with dynamite. One of the mob was carrying dynamite in his pocket. The prospective victim of the whitcappers fired one shot at the advancing crowd, but that one was enough. The bullet hit the stick of dynamite, and they haven't found enough of the man who was carrying it to form the basis for a funeral. Besides, nine other men were seriously hurt.

The army uniform board, which has been in session in Washington for several months, has recommended that blue be discontinued except on dress occasions as the color of the American soldier's clothes and that khaki green suits be substituted. And must we also dispense with that stirring and patriotic old song about "the boys in blue?"

Uncle Sam: "This hot weather doesn't affect my business any."
—Cleveland Plain Dealer.

The Conflict Of the Races
By JAMES BRYCE, Author of "The American Commonwealth"

HERE ARE CASES IN WHICH THE EXCLUSION OF THE BACKWARD RACE SEEMS JUSTIFIED IN THE INTERESTS OF HUMANITY AT LARGE BY THE CONSIDERATION THAT TO ADMIT IT WOULD INVOLVE MORE OF LOSS TO THE HIGHER RACE THAN OF GAIN TO THE LOWER.

Where the races coexist a blend may have good results where physical aspect and structure approximate, but intermarriage between whites and negroes is not to be promoted. The negro race itself prefers development on its own lines, and the future of mankind demands that some races should be maintained at the highest level of efficiency. The question arises how to reduce the friction incident to the contact of an advanced and a backward race. LEGALLY THE BACKWARD RACE SHOULD RECEIVE ALL SUCH PRIVATE CIVIL RIGHTS AS IT CAN USE FOR ITS OWN BENEFIT, BUT POLITICALLY THE BACKWARD RACE MAY BE REALLY UNFIT TO EXERCISE POLITICAL POWER. The negroes in the southern states were not fit for the suffrage, and several state constitutions have been so altered as practically to exclude the vast majority of the negro voters. THE GENERAL OPINION OF DISPASSIONATE MEN HAS COME TO DEEM THE ACTION TAKEN IN 1870 A MISTAKE.

As for the social relations of such two races, one must have lived among a weaker race to realize the kind of irritation which its defects produce in those who deal with it. IT NEEDS SOMETHING MORE THAN THE VIRTUE OF A PHILOSOPHER—IT NEEDS THE TENDERNES OF A SAINT—TO PRESERVE THE SAME COURTESY AND RESPECT TOWARD THE MEMBERS OF A BACKWARD RACE AS ARE NATURALLY EXTENDED TO EQUALS.

America Leads In the Money Markets

By Senator CHAUNCEY M. DEPEW of New York

NEW YORK IS FAST BECOMING THE GREATEST MONEY CENTER OF THE WORLD.

Because of England's merchant marine London has the advantage of us as a center of exchange, but we hope to remedy that as soon as we obtain our own marine. England acknowledged our monetary supremacy when she came to the United States to float her war loan. THE TALK ABOUT MORGAN INJURING THE UNITED STATES IN THE EYES OF EUROPE BY HIS FINANCIAL COUPS IS UNFOUNDED. Among the people who want to know Morgan are all the Europeans who have anything to sell, for patriotism will never prevent Europeans from selling in the best markets. EUROPEANS PAY A TRIBUTE TO AMERICAN FINANCIAL AND COMMERCIAL GENIUS BY THEIR HASTE TO ENTER AMERICAN COMBINATIONS, AND EUROPEAN COMMERCIAL INSTITUTIONS ARE EAGER FOR AMERICAN DOMINATION.

CRUTCH-BOUND

The crutch is a poor substitute for legs, and affords a very inconvenient and tiresome mode of locomotion—there is no more pathetic sight than a person slowly and painfully moving along the street supported by these artificial limbs.

When Rheumatism settles in the bones and muscles of the legs, it is safe to predict that the victim will eventually become helpless and crutch-bound. The corrosive, irritating matter that is deposited in the joints and muscles causes the most intense pain, the knees and ankles swell, and when the natural oils and fluids that lubricate these parts are completely destroyed the joints become locked and the muscles drawn and stiff, and crutches a necessity.

The acid poisons that produce rheumatic pains form in the blood, and are distributed through the system, and lodged in the arms, shoulders, hands, back and feet, or other parts of the body—resulting often in total disability. A permanent cure of Rheumatism can be effected only by a complete cleansing of the blood, and no other remedy so surely accomplishes this as S. S. S. It neutralizes the acid effects, purifies and invigorates the stagnant blood, and the gritty particles are washed out or dislodged by the new rich blood, and relief comes to the pain-racked sufferer. S. S. S. leaves no morbid, irritating matter in the blood to reanimate and produce another attack, but expels every atom of it from the system. S. S. S. is a purely vegetable remedy, and does not impair the digestion or general health like alkali or potash remedies.

Write for our special free book on Rheumatism, and if any medical advice or other information is wanted, our physicians will gladly furnish it without charge.

HYGIENE

The human body contains a complete sewerage system in which poisonous and disease producing refuse is constantly gathering and jeopardizing the health. The same rule which applies to municipal sanitation will also apply to personal sanitation, and the danger of disease may be forestalled by flushing out this sewerage system with an excess of water, says G. T. Palmer, M. D., in Good Housekeeping. Just as truly as the gathering of filth from the city in the "sewerage veins" endangers the lives of the inhabitants, so the poisons generated by the bodily metabolism, collected in the excretory organs, will jeopardize the lives of the millions of inhabitants of the body—the living cells. Every action of muscle or of nerve is accompanied by the destruction of cells which if not eliminated will accumulate like clinkers.

Aside from the mere "choking of the flues" we must bear in mind that the body is constantly generating poisons which if eliminated freely will do no harm, but which if retained will be productive of disease. Such a poison is uric acid, which is charged justly with causing rheumatism, gout, constant headaches, dizziness and a train of other symptoms, and it must be seen that if the accumulation of refuse is the cause of such conditions the logical means of cure is its elimination. Other "products of metabolism" create their own types of disease, and all may be prevented by the free use of water.

A beginning of kidney trouble lies in the fact that people, especially women, do not drink enough water. They pour down tumblers of ice water as an accompaniment to a meal, but that is worse than no water, the chill preventing digestion and indigestion being an indirect promoter of kidney disease. A tumbler of water sipped in the morning immediately on rising and another at night are recommended by physicians as possible with meals, but take a glassful half an hour to an hour before eating. This rule persisted in day after day, month after month, the complexion will improve and the general health likewise. Water drunk with meals should be sipped as well as taken sparingly.

The Pride of the Eye...

is among the sins of the flesh of which we are all warned, but the lover of fine China hopes it doesn't mean her, for she does want to indulge a bit in this feast of beauty. Our lines of China and Glass-ware are complete.

DO YOU WANT A ROOF THAT DON'T LEAK?

Moore & Parrott puts them on.

DO YOU WANT VENTILATORS?

We make them. Sky lights too, water works. We are headquarters for all **PLUMBING WORK**, Guttering, Pump, Galvanized and Copper Work of all descriptions. Come to see us. We will treat you right.

MOORE & PARROTT.

ENGINEERING

A marine engineer of Rochester, England, has patented a new system for steering twin screw steamships. His device, as described by the Scientific American, consists of a special throttle valve attached to each set of engines, the valves being connected by means of bell cranks and linkwork to a tiller.

When the tiller is resting centrally, an equal supply of steam enters each engine, but directly the tiller is deviated from its central position in either direction the throttle valve fitted to one set of engines reduces the supply of steam, so that the propeller actuated by that particular engine revolves more slowly, the rotary motion of the crew diminishing according to the degree to which the tiller is moved over.

Summer Excursion Rates.
June 1st to Sept. 30th—round trip.

Kinston to:
Washington, N. C., \$ 8.50
Newport News, Old Point, Ocean View and Virginia Beach, Va., 7.50
Washington, D. C., via Norfolk, 12.50
Baltimore, Md., via Norfolk, Va., 12.50
Philadelphia, Pa., via Norfolk, Va., 16.50
New York, via Norfolk, Va., 20.50
Providence, R. I., via Norfolk, Va., 25.50
Boston, Mass., via Norfolk, Va., 25.50

Rates to New York, Philadelphia, Providence and Boston include meals and state rooms on steamer.

Rates to any point furnished on application.
