RIGHT TEACHING IN SUNDAY SCHOOL

PROF. BARWICK'S CONVENTION PAPER

"The Sunday School as a Business Investment."

Following is the Excellent Address of Prof. A. J. Barwick to the County Sunday School Committee Thursday Afternoon.

On observing the subject lightly one is apt to consider the immediate and direct material results of the Sunday school. But upon careful thought he will notice that those results which most influence the status of the business world are less immediate and less perceptible than appear at first sight.

I fear, however, that I am expected to confine myself closely within the limits of the subject as assigned me, which I must admit considered in itself alone, is least worthy of consideration of all that pertains to the Sunday school work.

Just as the whole aim of education is to stimulate the life of childhood to morality, so that of the Sunday school is to beget spirituality and to teach an every day ethics by which children grow up into manhood and womanhood regenerate their own conduct in accordance with the teachings of God.

Herbert Spencer declares that the object of education is not simply to teach how to live, but how to live completely. Men often misunderstand and interpret this high purpose to mean how to make a living.

And in no other way can the subject before us be considered, for only incidentally as the Sunday school teaches high and noble virtues of right living does its value become manifest to the community as affecting the material growth and development of that community.

Whatever argument can be used in favor of the common schools as a business investment is equally applicable to the Sunday school.

MY! BUT IT WAS HARD TO LOSE

A GREAT GAME OF BALL YESTERDAY

Kinston Won it Once and then Lost it in the Shuffle.

Our Unseasoned Amateurs Gave Wilson's Hired Hands a Strong Argument and Kept the Crowd Wild With Excitement—Krause Was the Hero of the Day and it Was a Fight Worth a Journey.

Well, suppose we did get beaten out at the finish? Did anybody fail to get his money's worth. Did anybody ever see a little bunch of remnants put up a harder or pluckier fight?

All honor to every man of 'em! Before the visitors arrived a Kinstonian telephoned down here that it would be useless for our ponies to risk their lives crossing the bridge—they might as well lie down in the shade and let the game go 9 to 0, for Wilson was bringing as strong a bunch of professional players as had been got together in the state.

The ponies were crippled and two good men, McDonald and Cook, were on the sick list, but they roped in three of the old vets, who have trifled with the ball but little this year and went out to give battle—and such a battle!

It was full of honor and glory for every man, especially the unseasoned vets, and the professionals were kept hustling and guessing up to the last minute.

For four innings not a man saw third base and but one got to second. Then Wilson got a man around the squared circle. Kinston saw it and went one better in the sixth. Wilson had been touching the ball quite freely but the amateurs killed the hits with brutal regularity.

Luck favored Wilson in the sixth and they sent four men around. Then Kinston did the same and the score stood 8 to 5, while the crowd went wild with joy.

Krause had seemed to work about as hard as a man could up to this point, but he had steam to spare and put it all in in the eighth and retired the giants 1, 2, 3. Kinston got the same dose. In spite of Krause's efforts Wilson made the circuit again in the ninth. Kinston was blanked and the score was tied just where it was in the game a week before.

It was 1, 2, 3 for both in the tenth and in the eleventh it looked equally, but the agony was abruptly ended by a double play Wooten to Meacham to Lewis. Kinston got a man to third but he died in his tracks. Kinston got two men on bases in the twelfth, but they died. Two Wilson men were out and it looked like a draw, but Lewis dropped a throw ball, his only error, and the Wilson lead preserved the life thus given him and got around.

Fudge! The details of the battle will be found in the summary:

MRS. PEARY AND HER RESCUE SHIP, THE WINDWARD. Mrs. Peary, wife of the intrepid Polar explorer, Lieutenant Peary, is now on her way in the good ship Windward to the "frozen north," in search of her husband. Lieutenant Peary will probably have returned from his projected dash to the pole by the time the Windward shall have reached Cape Sabine. If nothing unforeseen intervenes, the Windward should get back to the United States by October 15. On her perilous journey Mrs. Peary is accompanied by her nine-year-old daughter Marie.

CONVENTION CLOSES.

Officers Elected and Committees Appointed for the Year.

The Sunday school convention finished its session after a short business meeting yesterday afternoon.

Mr. Y. T. Ormond was reelected as president and Rev. E. D. Brown was chosen as vice-president and Mr. L. R. Varner secretary and treasurer. Efforts were made to reelect Mr. J. J. Rogers as secretary and treasurer but after thanking the convention Mr. Rogers said that business as well as work in the Sunday school association in the eastern part of the state as a member of the executive committee of the State Sunday school association prevented him from giving his whole time to the Sunday school work in this county. Mr. Rogers' work as secretary during the past year has been greatly appreciated.

Resolutions were passed by the convention thanking the president, Mr. Ormond, and the secretary, Mr. Rogers for the time and help they have given the Sunday schools during the past year. Thanks were also given the members of the different choirs of Kinston for the best music that has been heard in Kinston for years, and the Baptist church for the use of the church. The Free Press was likewise thanked for advertising and reporting the convention.

Speaking personally Mr. Rogers said the Free Press had been of the greatest help to him in creating interest in the convention by the items it printed before and during the convention.

The executive committee for the coming year chosen as follows: Messrs. J. J. Rogers, M. H. Wooten and H. A. Edwards.

Delegates to the State Sunday School convention which meets at Kinston next February are as follows: S. H. Bright, H. M. McDonald, M. F. Holland, W. C. Croom, C. P. Barrow, S. H. Abbott, Richard Alexander, J. J. Harper, A. G. Croom, H. H. Wilson, Mrs. R. H. Lewis and W. C. Fields.

The place for the next meeting was left with the executive committee.

Reunion of Confederate Veterans. The Confederate Veterans of North Carolina will hold their annual reunion at Greensboro on the 20th and 21st days of August, 1902. Governor Aycock has kindly consented to loan the tents of the State Guard for the occasion, and the city of Greensboro will entertain all those in camp free of charge. The railroads have agreed to sell tickets at 1 cent a mile, which would make the round trip from Oxford \$1.75. It will be a great event for our grand old heroes.

In Possession of Waterworks. Goldsboro Headlight: At last the city has come in possession of the water works plant, the amount of \$50,000 being paid over to the company last Thursday. In addition the city owns the sewerage system and electric light plant, and it is to be hoped that after a while water and lights will be cheaper to private consumers.

From Hot to Cold. Dysentery is prevalent everywhere in summer and is due to miasmatic poisons and begins abruptly with inflammation of mucous lining of the large bowel. In America the disease is common, but properly treated does not result as seriously as in the tropics. Perry-Davis' Peppermint Cure is the best known remedy and the most efficacious in the treatment of dysentery.

Five Struck by Lightning. A special from Tillery (Halifax county) says that the news was received there Tuesday that five colored people were struck by lightning while taking shelter in a rain house in Lassiter's field on Pollock's ferry plantation, three and a half miles distant. Joe James, a man 32 years of age, was killed, two daughters of Anna Sims were killed, and Mary James and one other were stunned for some time before recovering. A mule was killed under the shed and it also was killed.

Judicial Convention. The judicial convention for the fifth district, which includes Lenoir, was held at Wilmington Thursday and Rodolph Duffy, Esq., the present incumbent was re-nominated for solicitor by acclamation. There was some very good speaking and Mr. Duffy was highly applauded, in response to which he made a speech which took the house by storm. The executive committee for the ensuing term was elected, as follows: B. G. Empey, New Hanover; Frank Thompson, Onslow; H. E. Falson, Sampson; Bruce Williams, Pender; Hampton D. Williams, Duplin, and Y. T. Ormond, Lenoir.

City Clerk Mawborn received a postal card the other day addressed "Kinston City, Goldsboro, N. C." That's all right, only the writer got it twisted. Some day Goldsboro will be a pleasant suburb of the Greater Kinston.

But little further needs to be said in this column concerning the proposed Farmers' Day, except just enough to keep alive the flame and prevent business men in general and tobacco men in particular from forgetting the public meeting to be held in the court house Monday evening to crystallize the scheme and get committees at work carrying out the details. No man should wait for an invitation to participate. This is a public affair and is everybody's business who is interested in Kinston's progress.

TIMELY TOPICS TERSELY TREATED.

Short Local Stories, Editorial Notes.

The wisest of men sometimes make the most foolish of mistakes.

The more you think of yourself the less others will think of you.

A western preacher is up before court charged with praying too much.

It is wrong to kick a man into the gutter and then curse him for being muddy.

There are a great many good men who oppose in practice what they advocate in theory.

The man with an itching tongue is a greater pest than the man with an itching palm.

The man who doubts the honesty of everybody else will bear a good deal of watching.

Of course brains tells but as a general thing the more brains a man has the less he does tell.

It is not right to look a man in the "cooler" and then blame him because he doesn't sweat.

In the competitive struggle for existence it is not the best who survives, but the heartless and cruel.

While deaths on shipboard at sea are not uncommon, there are also a great many births.

When people commit a fault or neglect a duty they are quick to put the blame on somebody else.

Experience beats book learning every time. There is many a fine theory that works only disaster.

Why is it that the man who knows the least about a subject is always the most anxious to discuss it?

Between these-called divine healers and their patients there is one great similarity, they all want to be "well healed."

It may be sweet to lie a bed, but it is far from sweet to lie about a fellow that is bigger and stronger than you are.

A notable difference between men and women is that a vain man likes to air his views and a vain woman likes to view her airs.

The faults which men condemn when running for office they commit without any qualms of conscience when they are once in.

In China married people often go to school. There are lots of married people in this country that would be much better off in school than where you usually find them.

A man may be a man if no bigger than a Tom Thumb, but a man is not a man though as big as Goliath if he lacks the moral courage to accept the responsibility for his own acts.

"He that by the plow would thrive himself must either hold or drive." Poor Richard says and he that would have a thing done right must do it himself or keep a sharp eye on the fellow who is doing it.

City Clerk Mawborn received a postal card the other day addressed "Kinston City, Goldsboro, N. C." That's all right, only the writer got it twisted. Some day Goldsboro will be a pleasant suburb of the Greater Kinston.

But little further needs to be said in this column concerning the proposed Farmers' Day, except just enough to keep alive the flame and prevent business men in general and tobacco men in particular from forgetting the public meeting to be held in the court house Monday evening to crystallize the scheme and get committees at work carrying out the details. No man should wait for an invitation to participate. This is a public affair and is everybody's business who is interested in Kinston's progress.

Dollars and cents come from the common schools by an intelligent citizenship, which makes a state industrious and prosperous, and from the Sunday school by a good citizenship, which makes a state peaceable and wholesome. A good citizenship allows free scope to a cultivated mind and encourages and protects the product of activities of intelligence.

Then, dear, the Sunday school will strike a good, God-fearing blow, straight of wrong, doing the right, knowing the
