Get Wilcox out of This Jatl.

Elizabeth City, N. C., Oct. 2. "Get Wilcox out of this jail by Saturday night, if you don't want trouble. "YOX POPULI."

These words were scratched upon a piece of paper and nailed upon the outer walls of the county jail some time dur-

ing the dead hours of last night. Some one saw it early this morning and before long hundreds had flocked thitherwards, and questioned its import. This created no little excitement, and

many thought it was a warning from some organizing mob. Others believe with the authorities that it is some plot of Tom Wilcox, to leave the Impression upon the outside world that Jim was being hounded.

He Shot Himself.

Sanford, N. C., Oct. 2 .- Mr. J. B. Makepeace, a prominent business man here, committed suicide at his home at noon today by shooting himself through the head with a 32-calibre Winchester rifle. Death followed instantaneously. The cause of the rash act is said to have been melancholy. The deceased was in terested in several cotton mill ventures and was wealthy.

Large Crowd to Witness "Reap-|GLENN'S SPEECH

The opera house was filled to overflowing and standing room tickets were sold last night to "Reaping the Harvest." It was the first time in several seasons that a higher price show has filled the house until there was not a single seat left and even standing room was in demand. When "Reaping the Harvest" was presented here a year ago it made a decided Over 300 Of Our Citizens Hear and hit with our people and they did not forget the clean wholesome stage story as was ably told in the presentation of this play. Last night the people were again captivated. The heauti ui play-a play that touches the heart-was ably presented to the large crowd and during the applause that meant much. Everyone connected with the show did his or her part in a manner that showed ability. Mr. John B. Hymer, who played the leading part, was the favorite, while Mr. George H. Rowe, who did the villian act did his part with a smoothness that showed ability. The play itself is a beautiful story and as long as "Reaping the Harvest" is presented here by J. H. La-Pearlie there will be large crowds out to witness it .- Durham Herald.

REPUBLICANS HARD BLOWS

Appland.

The Hon. R. B. Glenn spoke last night to a highly appreciative and enthusisetic audience of about 300 of Kinston's best best business men and representative evening there were frequent outbursts of citizens, with an appreciable sprinkling of ladies.

Mr. Glenn was introduced by Mr. J. W. Grainger in a few well chosen remarks, and proceeded in his convincing style to annihilate the republican sophistry as to their claim for recognition at the handof the white people of North Carolins There was not a single negro in the au-

Mr. Glenn was in fine fettle, and his treatment of the issues, both state and national, was characteristic of him, and met with sympathetic response from his audience, who at times were vocifirous in their applause.

How to Repair a Mackintonh.

To mend a mackintosh procure a small tin of india rubber cement or dissolve some strips of pure india rubber in naphtha or sulphide of carbon to form a stiff paste. Apply a little of the cement on the surface of a strip of the same material of which the mackintosh is made, which can be purchased by the yard or in remnants from the waterproofer's; also apply a little cement to each side of the part, and when it begins to feel tacky bring the edges together and place the patch nicely over, and keep in position by putting a weight over it until quite hard, which will be in a few days.

How to Breathe Correctly.

To breathe correctly keep the chest up, out, forward, as if pulled up by a button. Keep the chin, the lips, the chest, on a line. Hold the shoulders on chest, on a line. Hold the shoulders on a line with the hips. Breathe upward and outward, as if about to fly, drawing the air with slow, deep breaths and leiting it out gently. This conscious deep breathing repeated ten or twenty times at intervals during the day tends to expand the chest permanently, to give it classic poise and style. Repeated forty times, it is said to be a sure for wore:

### SOME TIMELY ADVICE.

How to Avoid Danger During t

When a severe thunderstorm is raging, the safest place is in the open, close to the earth. If the body is erect, it acts as an excellent conductor for the lightning to find its way to the earth. For this reason it is dangerous to take refuge under a tree, says the Buffale Courier. Doubtless mos of the persons who perished while under trees would be alive today had they remained in the open. It is also injudicious to huddle under thrashing machines, sheds or in the grand stands of race tracks or county fairs, especially under or near the flagstaffs which usually adorn such structures.

Avoid standing in doorways, near chimneys and fireplaces, close to cattle or near the ends of a wire clothesline during a thunderstorm. On the other hand, there is not much sense in going to bed or trying to insulate oneself in feather beds. Small articles of steel or iron, as a knife, kettle or key, do not attract lightning, as it is popularly believed.

If one has been struck by lightning the first thing to do is to go to work to restore consciousness, as lightning oftener brings about suspended animation than somatic death. The condition of a person struck by lightning is much the same as that of a person rescued from drowning. Try to stimulate respiration and circulation. Do not cease in the effort to restore animation in less than an hour, as you value the life of the sufferer.

How to Mend Umbrellas.

Sometimes an umbrella that begins to show tiny cracks and pin holes may be mended at home. Open the umbrel-la and hold it up to the light. Mend the holes on the inside with black alik courtplaster cut slightly larger than the holes. Sun umbrellas and parasols are more effectively mended in this way than umbrellas, which sometimes require a repetition of the mending after being thoroughly wet.

How to Prepare a Manuscript. In preparing manuscripts use plain white paper and good black ink. Don't use paper that is filmsy or transparent or so spongy that the ink is likely to blur or sheets that are of different sizes or that have been torn out of a notebook and left with the rough edges untrimmed. The two sizes of sheets that are most generally used are commercial note and letter paper. If you have to send out hand written copy. pencil or in backband, which as a rule is extremely difficult to make out, says a writer in the Ladies' Home Journal. Cultivate a round, clear, good sized, almost vertical hand and form the habit of leaving a wide space between the lines. Write, of course, on only one side of the paper, and if you find near the end that you are going to run a few lines over what you thought would be the last sheet don't squeeze the final lines together at the bottom of the page or write them on the back of it in order to save another sheet. In both handwritten and typewritten copy leave a margin of at least an inch at both sides of the sheet as well as at the top and bottom.

How to Make Pineapple Salad. For a pineapple salad the pines should be ripe and tender enough to admit of shredding thoroughly. Put the shredded fruit into a deep glass dish and pour over it a half pint of powdered sugar mixed with a tablespoonful each of brandy and curacao. This should be done at least three hours before the salad is needed, as the sugar must be quite dissolved.

How to Make Washing Fluid. A good washing fluid is made by mixing five pounds of salsoda, one pound of borax, half a pound of fresh, unslaked lime and four ounces of liquid ammonia. Pour one gallon of boiling water upon the soda and borax. Let this cool, then add the ammonia. Pour one gallon of bot water over the lime and let it stand until entirely settled, then carefully pour off the clear fluid and turn it upon the dissolved borax and sods. Add eight gallons of cold water. Six tablespoonfuls of this fluid may be added to a tubful of
