 EINSTEIN BROS.—Monday's Bargain List.  
 S. A. QUINERLY.—Our Flannel and Serge Suits.

Not one set of marriage license was issued by the register of deeds of this county the past week, something unusual in this place.

Capt. Richard Williams, register of deeds of Pitt county, and Miss Bessie Jarvis, daughter of Mrs. M. A. Jarvis, of Greenville, were married at Greenville yesterday. Several from LaGrange were attendants at the wedding.

The committee appointed by the Odd Fellows Lodge to arrange the annual outing or picnic have secured the steamer Goldsboro and will go to Seven Springs on Thursday next, the 23rd inst. All Odd Fellows, their wives, daughters and sweethearts are expected to go.

A full dress rehearsal by the Masonic entertainers was held at the court house last night at which a full meeting was had of the members of the company. Next Thursday night, April 23rd, is the date set for the entertainment. A large bunch of fun is in store for Kinston people in this entertainment.

Services will be held, in the Free Will Baptist church tonight, tomorrow morning and tomorrow night. Tomorrow afternoon baptismal services will be held at the river. The recent meeting has been very successful, several besides the eight candidates for baptism having been reclaimed. Tomorrow night Rev. Mr. Alford will preach his farewell sermon in Kinston, having accepted a call to other work.

LaGrange people are circulating a petition asking the Atlantic and North Carolina Railroad company to deliver and receive mail on the early morning and late evening train so that LaGrange will have the benefit of four mails a day. This is very proper that our sister town should have this convenience and further, a mail agent should be put on the "Shoofly" train so that people along the A. & N. C. could have the benefit of an extra and competent local mail service. The FREE PRESS has pointed out the need of this before.

An exhibition of wonderful nerve by a creature of the brute creation was witnessed by some young men last night in front of Hood's drug store, when a rat that had been caught in a steel trap deliberately knawed off its foot to gain its liberty. After Mr. Hood had closed his store last night, a rat got one foot caught in a trap that had been set for rats and being in full view of the young men in front of the door attracted their attention by its struggle. They watched the rodent to see what he would do, rattling the door latch a little to frighten him, and he knawed off his foot as stated.

Mr. S. H. Abbott returned yesterday afternoon from Petersburg, Va., where he went in the interest of the Chesterfield Manufacturing company, which was recently incorporated under the laws of Virginia by a company composed mostly of Kinston capitalists. The object of Mr. Abbott's visit to Petersburg was to arrange for the establishment of a brick making plant on the property owned by the company, and to be operated by them. On the land bought by the company was found valuable rock quarries and good brick clay. The Chesterfield Manufacturing company will develop this property in all of these branches, as well as the manufacture of cotton yarns.

**A Pleasant Party.**  
 Miss Katie Sutton delightfully entertained eight or ten couples of her friends at her home on Capitola street, north Kinston, last evening.

Various kinds of music, both vocal and instrumental was had and a general good time by all was enjoyed. Delicious refreshments were served after which an historical guessing contest was engaged in for a prize and resulted in Mr. W. M. Herbert capturing the first prize by his superior knowledge of things historical, and in solving the knotty problems of which the minds of most had lost. The prize was a pretty silver pencil.

Mr. Richard Parker disclosed great density in regard to ancient things of moment, answering not a single question of the twenty propounded, and was awarded the booby prize, a jeweled bug boutonniere for his lack of knowledge.

The party broke up about 12 o'clock and the guests reluctantly departed for their homes.

**A Question.**  
 DEAR MR. EDITOR:—I wish to ask if it is not making people vote blindfolded, by having the bond issue the same election with our city officers, when the personality of the latter will wholly govern the votes of so many of our citizens for the former?

**A NATIVE CITIZEN.**  
 [As a matter of fact the nominations, which are equivalent to an election of officers, will be held two weeks before the election on the bond issue.]—Ed.  
 Kinston, N. C., Mar. 16, 1903.

**Have Your Stove Repaired.**  
 Jerry J. Rogers, professional stove repairer will be in the city for a few days. Cook stoves repaired at your home between meals. Steel backs and dampers. All orders should be left at Moore & Parrott's. Reasonable prices.

**Too Great a Risk.**  
 A reliable remedy for bowel complaints should always be kept at hand. The risk is too great for anyone to take. Chamberlain's Colic, Cholera and Diarrhoea Remedy never fails and when reduced with water is pleasant to take. For sale by J. E. Hood.

The public is cordially invited.

**Fire at Mantel Company's Plant.**  
 A small blaze started at the Kinston Sash and Blind Co.'s plant (the old Mantel Co.) this morning about 11 o'clock, in the boiler room, but was quickly extinguished, and very little damage was done.

The fire caught in shavings piled in the fire room and soon a lively blaze was going, which was put out by the people at the factory.  
 The fire department responded to the alarm promptly, but owing to the distance from the engine house, the fire was out before they arrived at the place.  
 The factory and stock are partly insured, but not enough but that the burning of the property would entail considerable loss on the owners.

**Chicago Sewage Reaches St. Louis.**  
 Municipal Journal & Engineer.

That the public water supply of St. Louis is in danger of pollution from the sewage of Chicago has been circumstantially demonstrated by Dr. Ravold, former city bacteriologist of the former place, in his testimony before the Chicago drainage canal commission. Dr. Ravold stated that imported bacteria such as are entirely foreign to the vicinity of Chicago were dumped in quantity into the drainage canal near Chicago and in a few days bacteria of this same kind were taken from the river at St. Louis where no such bacteria had ever been found before. This was partial evidence that the pollution from the drainage canal was polluting the water of all the cities and towns that obtained it from the Mississippi river below where the Illinois river meets the other.
