WILL HUNTER, JR.—Vino Frappe.
T. W. MEWBORN & CO.—The Story of Town Talk Flour.

Cantaloupes are being shipped from here now quite freely.

Mr. G. A. Ham, of Vance township, has tobacco seven and one-half feet across the plant and individual leaves two and one-half feet wide.

The James City colored baseball team will play a team of colored players here tomorrow afternoon at 4:30 o'clock at the baseball park.

Mr. J. Frank Wooten has accepted a position with a large tobacco company at Mullins, S. C., and will leave Wednesday, July 15th, to enter into his duties.

We have been requested to announce that the Newbern lodge, Knights of Harmony, will run a grand excursion to Wilmington and Wrightsville Beach and return on August 5th.

Rev. J. W. Alford came from near LaGrange this morning, where he has been conducting revival services. He will preach at the Free Will Baptist church here Wednesday night.

Lenoir Council, No. 75, Jr. O. U. A. M., will meet in Canada's hall tonight and every member is urged to be present as there is degree work and other matters of importance to come before the council.

Mr. H. W. J. Corbett, who fainted on the streets a few days ago from pain caused by acute abdominal hernia, and for which a very delicate operation was performed, is able to sit up now and, we are glad to state, is much improved.

Dr. Hargrove is back from Baltimore where he went with Mr. J. R. Phillips for the purpose of having Mr. Phillips' leg amputated. Dr. Hargrove says that Mr. Phillips' condition is very good under the circumstances and that it is favorable for his ultimate recovery.

Watermelons are very scarce in Kinston, only a few small ones having made their appearance on our market thus far. A darkey was heard to remark on the streets today that "if he couldn't get no watermelons in his town he wuz goin' back to Nooburn where every train brought a boat load."

"Go to 'Dummy', thou lazy one, consider his actions and get busy." He will find something to do and his public spiritedness knows no bounds. He was seen this morning by the reporter with a little shovel levelling the cart track at the entrance to Parrott's bridge, and the result of his efforts will be very beneficial to people driving teams along there.

The board of equalization is in session today and they are kept pretty busy with listening to complaints from people who think they have been over-assessed. The board will canvass the returns of the assessors of the several townships and hear these complaints and make their reports. Nothing definite has resulted from the meeting at the time this paper goes to press.

The fire engine house and equipment are being remodeled and refitted for the better convenience of the fire company. A change is to be made whereby an entrance can be gained into the fire alarm tower without going up into the city hall as one does have to do now to turn in the alarm. The hose wagons are being remodeled, also, and when completed will be much more convenient and will help to expedite work at fires.

Dr. Jas. M. Parrott performed a very successful operation on Miss Hettie Casper, of Jones county, ten days ago, in which he removed a tumor and one of her kidneys, and today the young lady is able to be up, which speaks well for the skill of Dr. Parrott in this very delicate operation. Kinston physicians are as good as any in the world, anyhow, and can treat with success the most difficult cases as well as any other M. Ds.

The "shoofly" train on the A. & N. C. Railroad came near having a serious wreck Saturday, the rear wheels of the tender leaving the track and running on the crossties for a hundred yards. The train was crowded with passengers for Morehead City and being behind was making fast time, about a mile a minute. The trouble occurred about eight miles this side of Newbern and but for the cool head of the engineer a serious wreck might have happened. As it was no one was hurt.

At the passing of every "shoofly" train, and especially the train at night to Goldsboro, is the necessity of having a mail clerk on this train made more apparent. The people who are not familiar with the inadequate mail service are constantly being disappointed by trying to get mail off on this train. The business of the patrons of the postoffice department and the railroad is sufficient to justify a better mail service and a little organized effort on the part of our people with the co-operation of other towns along the road would undoubtedly gain a favorable audience from the proper authorities. We need it and ought to have it and let's ask for it and get it.

Vick Bros. Resume Operations.
Vick Bros. have resumed operations at the laundry and say they are better equipped now for turning out work than they were before they were burned out last spring.

The plant has been moved to Dr. Hyatt's place near Parrott's bridge, which makes it much more convenient to people down town who miss the wagon.

They did some work Saturday which proved very satisfactory and will begin in earnest this week.

Pepsi-Cola is the most healthful, delicious and refreshingly cool drink at the soda fountain. Every glass contains pepsi and will relieve indigestion and does not excite themselves. Sold at all soda fountains.

Warm Weather Suits for Men.

Outing Styes and Serges

A man can be comfortable in hot weather and yet be well dressed. Not so much a question of what's to pay as of tailoring. The Summer Woolens are light in weight and cool—loosely woven, yet strong, but requiring careful tailoring because of its looseness of weave. Coat linings are of the scantiest—often done away with altogether, as in the "skeleton" style. It is solving the problems of making such coats hold their shape that makes the expert tailor.
