S. A. QUINERLY.—Listen.
 MISS MEACHAM & CO.—Back Combs.
 JAMES C. COGGINS.—Atlantic Christian College.

How would you like to be the leeman?

We are pleased to note that Mr. John R. Phillips is sufficiently improved in his condition to ride out in his buggy, which he did one day this week.

The Wilson Concert Company, a colored troupe from Wilson, have given two concerts in the court house this week and the music rendered was of a very creditable order.

Mr. J. F. Eweens, of Baltimore, adjuster for the Northern Assurance Co., is in the city adjusting the loss of his company in the recent fire at T. E. Roberts & Co.'s stemmery.

There will be a meeting of the Retail Grocers and General Merchants' Association at the mayor's office tonight. Live matters to every member will be taken up and all are urged to attend. The delinquent list will be revised at the meeting.

Prof. Coggins, of the Atlantic Christian College, will address the teachers' institute tomorrow morning at 9:15. All persons, and especially the teachers, are invited to attend. All who do not wish to remain after the address may quietly retire.

Hatch Bros' excursion returned last night from Norfolk between 11 and 12 o'clock and the excursionists say they had a pleasant trip. The train was filled with passengers before it got to Norfolk and the excursion was a financial success to the managers.

Misses Clara Lincoln and Elise Holderby entertained a dozen of their friends last evening on the lawn at the latter's home on east King street. Refreshments were served in the shape of ice cream and cake and the young folks spent a delightful evening.

The assessment of the railroads for taxation in the town of Kinston is \$9,107 for the A. C. L. and \$7,917 for the A. & N. C. This figure is reached by apportioning pro rata to each town, through which the roads pass according to mileage of right-of-way in the town.

It was stated in yesterday's FREE PRESS that Miss Birdie Koonce, the musical assistant at the R. M. I., was educated at the New England Conservatory. We were in error in making this statement. Prof. Rhodes informs us that she was educated by graduates of that institution.

Mr. Ellis Goldstein, formerly of this place but now in business in Dunn, and Miss Mayme Isaacs, of Goldsboro, were married in the latter city yesterday afternoon at 4:30 o'clock and left last night for northern cities on a bridal tour. Mr. Goldstein was well known in this city.

At the last meeting of the fire company of Kinston a resolution was passed making it a rule in cases of fire that the three first to the hose wagon, and they only, should ride on the wagon to the fire. By request of the chief we publish this for the benefit of those who were not there.

Frank Howard, colored, yesterday swore out a claim and delivery for things removed from his house by his wife, aided by Wilson Vines, also colored. Howard says that Vines and his wife induced his (Howard's) wife to leave him and then when he was away went there and removed the things from the house.

A great deal of complaint is being made by the residents along King street about the fast driving of parties on that thoroughfare. The parents of children say that they fear for their children's lives. The town ordinance prohibits driving in the corporate limits at a faster gait than eight miles an hour and it is alleged that this is frequently exceeded.

What came near being a very serious accident and one that did result in much pain to the party involved, occurred at the A. & N. C. depot this morning as the westbound passenger train was pulling out from the station. The wife of Preacher Pritchard, of the colored Episcopal church of this city, was on the train bidding friends goodbye, when the order to leave was given and the train began to move rapidly out from the station. She, in jumping off the train, sustained a right painful sprain of her ankle.

House Burned in Vance.
 Fire was discovered in Mr. Jesse Fields' house in Vance township, about six miles from Kinston, yesterday morning at 12:15 and in a few minutes the building and nearly everything in it was destroyed.

Mr. Fields' daughter discovered the fire from the smoke in her room and gave the alarm. Five feather beds and a few quilts and a little wearing apparel were saved, and all the furniture, a large supply of provisions and even the shoes of the occupants were burned.

No fire had been in the house since five o'clock the evening before and some suspicion that the fire was the work of an incendiary.

The amount of the loss is not known but it was learned that Mr. Fields had \$275 insurance with the Farmers' Mutual Protective Association.

Cut this out and take it to J. E. Hood & Co.'s drug store and get a free sample of Chamberlain's Stomach and Liver Tablets, the best physio. They clean and invigorate the stomach, improve the appetite and regulate the bowels. Regular size, 25c. per box.

SEEN AT THE TRAINS

Coming and Going. People you know or Somebody Else Knows.

Rev. C. W. Blanchard was in the city today.
 Mr. G. P. Fleming returned home this morning.
 Miss Myra Outlaw went to Newbern this morning.
 Miss Nannie Smith went to Goldsboro last night.

Mr. J. J. Hickey returned to Richmond last night.
 Dr. Wm. Edwards went to Spring Hope this morning.
 Miss Zelle Cox went to Morehead yesterday afternoon.

Mrs. Aaron Adler returned to Dover yesterday afternoon.
 Rev. G. N. Cowan returned this morning from Goldsboro.
 Col. W. D. Pollock returned this morning from Seven Springs.

Miss Lydia Yates, of Wilmington, came this morning to visit Mrs. L. J. Mewborne.

Prof. Ernest Hines, of Trinity High School, after spending a few days with friends here, returned home this morning.
 Mrs. J. T. Lewis, of Farmville, who has been visiting at Mr. Benj. May's, left this morning for Goldsboro to visit.

Mr. W. B. Coleman and sister, Mrs. J. H. Ellis, left last night for Lynchburg, Va., to visit their sister, Mrs. W. H. Farley.

Mr. T. E. Roberts, of Chase City, Va., came this morning on business concerning the burning of T. E. Roberts & Co.'s stemmery.
 Mr. Johnnie Pate returned yesterday afternoon from Asheville, where he has been in the encampment of the first regiment, being a member of the Goldsboro company.

Weekly Crop Bulletin.

The general condition of crops appears to be very satisfactory; fall plowing is beginning to advance more rapidly.

Cotton continued to shed forms badly on light sandy land in the southern counties; some damage by rust is also reported; but generally the crop is doing extremely well; on good, heavy land cotton is making too much growth, yet it is heavily fruited; bolls are opening in many counties; several correspondents state that cotton now has fully an average size, and that the outlook for the crop is very promising.

Corn continued to do well except in eastern and southern lowlands, where the ground is much too wet for this crop; late corn, and most of the corn crop was planted late, is in very good condition; a few correspondents report stalks without ears.

The week was favorable for curing tobacco in the north central portion; some tobacco is taking second growth, which has delayed cutting. Late Irish potatoes are sprouting well. The condition of all minor crops, especially field peas, peanuts, rice, sweet potatoes and sorghum, appears to be as good as could be desired. Crimson clover is coming up nicely. Rye is being sown in Henderson county. Peaches and apples are still rotting, and the prospects for fall apples is not favorable, grapes are yielding well and melons are more abundant.

A Dangerous Tobacco Disease.

A destructive tobacco disease has recently broken out with extreme violence in certain portions of the State. It is the desire of the station to accumulate all information concerning the disease which may lead to a checking of its ravages. The point now most to be desired is to find out how widely the disease is distributed over the State. To that end we request that all people interested in tobacco growing, who are troubled with any disease of their tobacco plants will send specimens consisting of the lower part of the stem and the roots to the Station. We particularly desire these specimens if the disease consists of the wilting of the leaves, accompanied by a brown color in that portion of the stem just inside the bark. We urge upon all tobacco growers the importance of notifying the Station immediately after this disease appears in the neighborhood, so that we may advise as to the means of preventing its spread. Two diseased stalks in the field this year may mean the loss of the entire crop the next year you put tobacco on the field.

F. L. STEVENS, Biologist.
