The special rate to the State fair has been put on at the local station. The fare to Raleigh, including one admission to the fair grounds, is \$2.95.

After October 15, Miss Katie Brown, of Kinston, who formerly did faithful work for The Orphans' Friend and Masonic Journal, will be its representative in the eastern part of North Carolina—Orphans' Friend.

Mr. N. B. Broughton, the noted temperance worker of Raleigh, will address the people of Kinston tomorrow afternoon at 3:30 o'clock. All are invited to hear him. Good singing and good speaking in abundance.

On account of the Weldon fair the A. C. L. will sell round trip tickets from Kinston, including one admission into the grounds, on October 27th to 30th inclusive, good to return October 31st, for \$3.35. The regular passenger schedule out from Kinston will govern but returning the train will be held at Weldon till 5 p. m., reaching here at 8:35.

In the list of contributors to the relief of the wounded man, Flanders, we noted a contribution of \$15 from Hines Bros. This should have been Hines Bros' lumber mill crew and we make this correction at the instance of Mr. Hines, who doesn't want credit for his men's generous act. The contribution was taken up in the mill and Hines Bros. subscribed to it.

A young man created a laugh at the A. & N. C. depot this morning by the manner in which he alighted from the train. He had been on the cars to bid some one good bye and the train was moving off when he jumped. He jumped kind of backwards and the forward motion from the train caused him to lose his balance and he landed broadside in a mud puddle. He was a sorry looking sight when he picked himself up.

Mr. Kleber Denmark has in the show window of his jewelry store a remarkable little clock of Swiss movement that runs 400 days with a single winding. It is encased in a glass globe to keep out dust and other friction-causing things and thus reduces the wear and tear to a minimum. The delicate machinery is so regulated that no "indecent haste" is shown in the movements and it is said that the same correct time is maintained at the end of the long running as at the beginning. It is a very pretty ornament as well as remarkable and serviceable clock.

Success brings its reward and begets respect and in view of the fact that the Rev. I. B. Hicks, the famous weather prognosticator, foretold of the present stormy conditions, to the exact date, more than a year ago, it will be of interest to know that he also predicted two other storm periods for the last days of October. The next one will begin after a short interval of respite from the present one, beginning October 18th, and resulting in a considerable decline of the mercury. He predicted sleet and snow in abundance from the northwest, the latter part of the month, and it is but natural for us to expect to be affected also.

IN MEMORY OF MR. HOELL.

Members of the Eighth and Ninth Grades Pass Resolutions of Respect.

Whereas the angel of death has taken the soul of our beloved teacher, Mr. Charles F. Hoell from the shadowy plains of earth to the sunlight of Heaven; and

Whereas we, his former pupils, do love and reverence his memory, and do feel that in the death of Mr. Hoell each of us has lost a personal friend,

Resolved, first, that we will strive to follow in the path which he pointed out, upward toward true and noble manhood and womanhood.

Resolved, second, that we will keep a copy of these resolutions inscribed upon the minutes of our classes, that we will send a copy to THE KINSTON FREE PRESS and will send a copy to the bereaved mother and sister with whom we do so heartily sympathize in this dark hour of sadness and grief.

Many Mothers of a Like Opinion.
 Mrs. Pillmer, of Cordova, Iowa, says: "One of my children was subject to a group of a severe type, and the giving of Chamberlain's Cough Remedy promptly, always brought relief. Many mothers in this neighborhood think the same as I do about this remedy and want no other kind for their children." For sale by J. E. Hood & Co.

What a Kinston Man Saw.

One of Kinston's business men who has been endeavoring "put liquor down" for several years recently spent some time in Trenton, and makes an interesting report of the changed conditions down there since the local dispensary law went into effect.

Not one time did he see any evidence of drunkenness in the town limits. Business seemed just as lively as usual, but somehow the town seemed cleaner. There was not even a lemon peeling on the sidewalk to entrap the unwary pedestrian.

The reason is that "king" alcohol is a slave and not a king.
