Matters of Interest Condensed into Brief Paragraphs.

A LITTLE ABOUT NUMEROUS THINGS

The Pith of the World's News That Might Interest Our Readers. Antem Here and There.

Indianapolis, Ind., Oct. 20.—The populist campaign in Marion county, was opened tonight, by Thomas E. Watson, of Georgia, the People's party candidate for president, who spoke at a mass meeting.

Shipping agents at Newport News have received information from New York that the barge Kennebec, carrying two of the five submarine boats building there, has been sighted a considerable distance at sea off New York.

Fire at Willis Point, Texas, last night destroyed the national bank building and three other establishments, entailing a loss of \$30,000. Insurance, partial. Fire at Oakwood, Texas, yesterday destroyed several business houses, causing a loss estimated at \$50,000. The amount of insurance is not known.

Louisville, Ky., Oct. 20.—"The Democrats in Indiana seem to be ready to vote now," said William J. Bryan, when he concluded his tour of Indiana at New Albany tonight. The closing day of the tour through Indiana was regarded by Mr. Bryan and his party as the most successful in all, in respect to the size and enthusiasm of the audience.

St. Louis Oct. 20.—The Colonial Dames of America did honor at the world's fair today to their national president, Mrs. H. A. Claiborne, of Richmond, Va. The arrangements included a meeting and luncheon at the Missouri building, a reception at the Illinois pavilion, followed by a reception tendered by the board of lady managers of the Louisiana Purchase exposition.

Charleston, S. C., Oct. 20.—The court sessions at Lancaster, today adjourned in respect to the memory of the late Bishop Clinton, of the A. M. E. Zion church, a negro whose ministry dates back 50 years and who preached when a slave. The motion was made by the oldest member of the Lancaster bar and tributes were paid by other members and by Judge Watts, presiding.

Lake Mohook, N. Y., Oct. 20.—The morning session of the Mohook Indian Conference was devoted to the consideration of problems in the Philippines. Dr. Fred W. Atkinson, of the Brooklyn Polytechnic Institute, who organized the American public school system in the Philippines; W. Leon Pepperman, of the bureau of insular affairs, and M. G. Brumbaugh, first commissioner of education in Porto Rico, were among the speakers.

PERILS OF LAND AND SEA.

Captain Willnef's Remarkable Escape Shows What to do in Time of Trouble.

For many years, Captain Willnef, says the Times of Gloucester, Mass., was one of the best known seamen in the Gloucester fleet. The sea and its dangers had no terror for him, but the catarrhal troubles with which he suffered for fifteen years made him dread the nights at sea, for he had to walk the cabin floor, being unable to lie down and sleep on account of the constant catarrhal dripping.

Captain Willnef went to two different hospitals for treatment, but could get no lasting benefit. He constantly raised yellow and green phlegm and his trouble became so unbearable and nauseating that he was ashamed to go out in company. When despairing of ever getting relief, his wife purchased a Hyomei outfit for him, and trying it before going to bed, he enjoyed the first whole night's sleep for ten years. Captain Willnef says "I have used less than two bottles of Hyomei and have been cured by the remedy. My friends ask me what is responsible for my improvement, and I tell them Hyomei, which has given me full and complete recovery."

Captain Willnef's experience shows our readers what to do in time of catarrhal trouble,—use Hyomei. This remarkable treatment kills the germs of catarrh and makes lasting and permanent cures. J. E. Hood & Co. sell Hyomei under their personal guarantee to refund the money if it does not give quick relief.

CLOUDS PASSING AWAY.

Manchurian Skies Clearing and Military Operations Looked For.

Military operations in Manchuria are awaiting the drying of the roads and plains, fendered impassable for artillery and even for infantry by the recent heavy rains. Meanwhile the correspondents at the front have only desultory cannonading and unimportant skirmishes to record. The report that the railway station at Shakhe had been retaken by the Russians and that railway traffic between that place and Mukden would be restored at once was erroneous, the place still being in the hands of the Japanese. The Russian government is hastening the dispatch of troops to the far east to constitute the second Manchurian army.

Mukden, Oct. 21.—The Russians at Shakhe station on Thursday opened an artillery fire upon Shakhe station, where there seemed to be a Japanese outpost watching the Russian movements. The guns were then trained upon the village of Laosung, a little east of the station. The Japanese replied languidly.

The weather today is fine and sunny, with a cold, biting wind. There was a severe frost last night.

Mukden, Oct. 20.—Towards evening yesterday the fog lifted and some of the Russian guns at various points opened fire against the Japanese defenses, but they did not respond either from scarcity of ammunition or the desire not to reveal the location of their batteries. The weather and the condition of the roads have made extensive operations impossible, but the roads are now drying hard which forecasts events in the near future. The war correspondents in the field are kept in the dark, and it is difficult to say when and how this dreadful slaughter will end.

Mukden Oct. 21.—Every man of 200 Cossacks, commanded by Captain Tourgenieff who on Tuesday night reconnoitered the Japanese left southward and who, near Sandoupa, unexpectedly encountered a good sized Japanese force with machine guns, was wounded and every horse, except Captain Tourgenieff's, was hit by the bullets from the Japanese machine guns. Sourgenieff, though mortally wounded, carried off one man behind his saddle, while others managed to creep back to camp. But, as already cabled, not one man was killed on the field. There is the greatest fear on the part of the Russian, would of falling into the hands of the Japanese, the Russians being convinced that they torture their prisoners.

COMPLETING TOBACCO MERGER.

Consolidation to be Known as the American Tobacco Company. Capital of \$180,000,000.

Trenton, N. J., Oct. 20.—Papers were filed with the secretary of State today providing for the carrying out of the plan of merger of the American Tobacco Company, the Consolidated Tobacco Company and the Continental Tobacco Company. The consolidated companies are to be known as the American Tobacco Company, with an authorized capital of \$180,000,000, of which \$80,000,000 is preferred stock with 6 per cent. cumulative dividends, and \$100,000,000 common stock. The papers filed give the names of the officers and directors of the company, including J. B. Duke, president; W. H. McAllister, secretary, and M. W. Hicks, treasurer. The terms of merger in respect to the absorption of these companies are those agreed upon and published some time ago, and which have been the subject of litigation.

A Judicious Inquiry.

A well-known traveling man who visits the drug trade says he has often heard druggists inquire of customers who asked for a cough medicine whether it was wanted for a child they almost invariably recommend Chamberlain's Cough Remedy. The reason for this is that they know there is no danger from it and that it always cures. There is not the least danger in giving it, and for coughs, colds and croup it is unsurpassed. For sale by J. E. Hood & Co.

GLENN IN KINSTON

The Court House Was Packed to Hear the Great Orator.

BIG AUDIENCE HELD SPELLBOUND

As They Listen to the Eloquent Speaker as He Sets Forth the Issues of the Campaign.

The court house last night was crowded to the door to hear Hon. Robert B. Glenn speak on the issues that are now before the people of North Carolina for decision. The rear of the court house was filled with standing men, and a large number failing to obtain entrance turned away from the building.

The audience that greeted the speaker when he arrived was full of enthusiasm; and when the candidate entered the court room he was greeted with hearty applause.

Mr. Glenn was fittingly introduced in a few words by Mr. J. W. Grainger; and for nearly two hours he claimed the closest attention of his hearers.

He was worn and weary when he began his address; but under the inspiration of his subject and the audience, that "tired feeling" seemed to vanish, and the orator was himself again.

A considerable part of the audience had heard the speaker at Woodlinton on Thursday. This whetted the appetite for more of the same "doctrine" last night. National and State issues were covered, as "Bob Glenn" only knows how to cover them. And the Republican voter who was unable to see the error of his way, after hearing Glenn last night, has a hopeless case. The issues were discussed in a clear logical way appealing to the intelligence of the voter. There was no "mud-slinging," no petty fault finding, but plain, unmistakable argument.

Mr. Glenn left this morning for Greenville where he will speak today.

The Visible and Invisible.

The wisest Indian philosophy has never regarded the soul as that silly word "superstition." The Imitation says, "What is in the visible exists also in the invisible, and what is in the invisible is also here." The ultimate, albeit unreachably, is as real to the Asiatic mind as rice, and in the Bhagavad-Gita Arjuna is actually permitted to behold the embodied infinite. Indeed, it is rather this present existence which India regards as the illusion, the maya. To see the stars we must wait for night, and to live we must die. Nor is it uninteresting to note in Hindoo classics how these large and happy serenities of oriental view have softened personifications of death.—Sir Edwin Arnold.

Technical Advice.

"You see," said the young man, who was explaining the mind-war, "the attack is carried on the same as in actual warfare, except that the missiles are only technical. Now suppose that I am commanding a brigade and I should be charged by a regiment of the enemy—"

"Technically?" asked the young woman.

"Certainly. And suppose they fired upon us?"

"Technically?" repeated the young woman.

"Yes, yes. And I should be encouraging my men to make a last stand?"

"Technically?"

"Of course. And I should get in range of the enemy's fire and should be shot through the brain?"

"Oh," interrupted the fair damsel, "I know that would have to be technically too!"—Baltimore American.

Some Seasonable Advice.

It may be a piece of superfluous advice to urge people at this season of the year to lay in a supply of Chamberlain's Cough Remedy. It is almost sure to be needed before winter is over, and much more prompt and satisfactory results are obtained when taken as soon as a cold is contracted and before it has become settled in the system, which can only be done by keeping the remedy at hand. This remedy is so widely known and so altogether good that no one should hesitate about buying it in preference to any other. It is for sale by J. E. Hood & Co.

BILL OF PARTICULARS.

Judge Parker Addresses a Big Delegation.

Esopus, Oct. 21.—Judge Parker today addressed a delegation from Hudson county on the subject of administrative extravagance, answering the speech made by Secretary Taft in which the secretary called upon the Democrats to give a bill of particulars in connection with the charge that the economy in government affairs had been forgotten in the years the Republicans have been in control of national affairs.

Judge Parker quoted a few totals from the official reports, which he asserted proved the extravagance. The bill of particulars will be given, he said, when a Democratic administration gets a chance at the books.

From midnight until afternoon today the rain fell in torrents.

TO WATCH THE POLLS.

Candidate Davis Will Have Men On The Alert to Detect Fraud.

Parkersburg, Va., Oct. 20.—Henry G. Davis, Democratic candidate for vice-president, will welcome William J. Bryan to West Virginia tomorrow. Mr. Bryan will speak here during the afternoon, and Mr. Davis, who has just completed a canvass of his own state, will attend the meeting. It is the present intention of Mr. Davis to accompany the Newbraskan to Huntington and Charleston, but his fatigue from his strenuous trip of the past ten days may make it necessary to alter plans tomorrow. Mr. Bryan speaks here at 3 o'clock, at Huntington in the evening and at Charleston Saturday night.

Democratic state leaders conferred with Mr. Davis today relative to state election machinery. It was decided to organize vigilant committees to watch the polls in certain parts of the state.

A FAVORATE PRESCRIPTION.

The New Simmons' Regulator Made by Senator Simmons.

Newton, N. C., Oct. 31.—The following prescription was found on the streets Wednesday morning after Senator Simmons spoke here.

It purports to have been written by a young physician here who is a Republican. But whether he wrote it or not is a question. It is as follows: "Senator Simmons speech.

Newton, N. C., Oct. 18, 1904.

1. Roosevelt.
2. Tariff.
3. States Issues—Amendment, Watts' Law, Education.

Sig. Poisonous to Radicals. Shake well before using.

W. H. EVERHART, M. D."

This is the new Simmons Liver Regulator.

Panama Please!

Panama, Oct. 21.—General satisfaction is expressed in government circles here today at the decision of President Roosevelt to send Secretary Taft in company with Senor Obaldia, the minister of Panama at Washington, and Nelson Cromwell, counsel for the Panama Canal Company, to the isthmus for the purpose of definitely settling the pending questions and the extent of the jurisdiction of the United States, questions that for months past have been the source of unpleasant feeling between the United States and Panama. It is the general opinion that these matters should be effectually settled immediately.

How to Cure Corns and Bunions.

First, soak the corn or bunion in warm water to soften it; then pare it down as closely as possible without drawing blood and apply Chamberlain's Pain Balm twice daily, rubbing vigorously for five minutes at each application. A corn plaster should be worn a few days to protect it from the shoe. As a general liniment for sprains, bruises, lameness and rheumatism, Pain Balm is unequalled. For sale by J. E. Hood & Co.

ODD AND INTERESTING HAPPENINGS

Gossip Gathered from Murphy To Manteo of Importance to Our Tar Heel Readers.

Most of the Raleigh fair attractions have been booked for the Mecklenburg fair to be held in Charlotte.

Johnnie Patridge, aged 14 years, died from the effects of excessive cigarette smoking in Goldsboro Friday.

The Wood Grocery Co., of Selma, was chartered Friday with a capital of \$20,000. D. D. Debnam is the principal incorporator.

A well known negro of Goldsboro, Columbus Jeter, was bound over to court on a bond of \$100 because he got excited and threatened to kill his father-in-law and the whole family. He used a pistol to make more forcible his remarks.

A rumor was started in Raleigh Friday that these were over 90 cases of diphtheria in Goldsboro; and the visitors from Goldsboro were not allowed to go into the resident part of the city, but were confined to fair grounds and streets, so the story ran.

Thomas Heldrith, a mechanic at work on the A. C. L. trestle at Wadesboro, died Thursday from the shock of being thrown about twenty feet by a jack slipping. His injuries were by no means serious, but the mental strain was too much for the man.

A man supposed to be William Horne, of Snow Hill, was found beaten and bleeding in a stall at the fair grounds in Raleigh Friday. On account of cuts about his face he was unable to talk intelligibly, and it could not be learned whether his condition was due to accident or foul play.

John L. Casper, of Winston, and J. F. Smithies, of Davie county, who are interested in the Casper Company, a large whiskey concern operating in Winston, were fined \$250, and \$500 respectively for using the mails for illegal purposes. It is an ingeniously worded advertisement they agreed to send a pint of whiskey for a certain sum, but the wording gave the impression that it was a quart.

Dr. J. A. McKelway, former editor of the Charlotte News, has instructed his attorneys to bring suit against the Charlotte Observer for libel if ample apology is not made for an article alleged to be damaging, which appeared in its columns recently. The article in question was written by one of the Observer's correspondents and stated that serious charges had been preferred against Dr. McKelway in the Mecklenburg Presbytery. Editor Caldwell, of the Observer, refuses to make any retractions.

Chattel Mortgages, Lien Bonds warrantee and Mortgage Deeds, on good paper and nicely printed, at The Press office.

The Good Old Way.

A severe cold or attack of la grippe is like a fire, the sooner you combat it the better your chances are to overpower it. But few mothers in this age are willing to do the necessary work required to give a good old-fashioned reliable treatment such as would be administered by their grandmothers, backed by Boschee's German Syrup, which was always liberally used in connection with the home treatment of colds and is still in greater household favor than any known remedy. But even without the application of the old-fashioned aids German Syrup will cure a severe cold in quick time. It will cure colds in children or grown people. It relieves the congested organs, allays the irritation, and effectively stops the cough. Any child will take it. It is invaluable in a household of children. Trial size bottle, 25c; regular size, 75c. For sale by J. E. Hood & Co.
