**LIVER TROUBLES AND THEIR
CURE.**
Polk Miller's 25 Years' Fame.

For more than twenty-five years
the name and fame of our beloved
Southerner, Polk Miller, has spread.
Mr. Miller was a practical druggist
and believed in practical methods of
prescribing drugs. His prescription
for a liver medicine has indeed be-
come practical and a most safe reme-
dy. Polk Miller's Liver Pills are
sold and recommended by thousands
of druggists. Calomel and salts are
dangerous to the delicate organs.
Polk Miller's Liver Pills act gently,
removing the deadly bile and secre-
tions quickly and tone up the sys-
tem, cures biliousness, headaches,
constipation. Ask your druggist or
general store, 10c box. 2-1-2c free
coupon in each box. Free sample on
request by writing to Polk Miller
Drug Company, Inc., Richmond, Va.

Mr. E. B. Hargett spent today in
LaGrange.

Miss May Brantton is visiting in
Durham.

Mr. J. M. Perry, of Dawson, spent
the day here.

Mr. Wiley Moseley went to Golds-
boro this morning.

Mrs. J. A. Vernon, of Knoxville,
Tenn., is the guest of friends here.

Miss Lula Taylor, of Greenville,
Miss Maud Hodges, of Washington,
and Miss Ruby Morgan, of New Or-
leans, are the guests in the home of
Sheriff A. W. Taylor, on North Queen
street.

HARD STORM IN RALEIGH

Put Lights and Cars Out of Commis-
sion and Floods Buildings.
Raleigh, July 14.—Being the meet-
ing place of two heavy storm clouds,
Raleigh and this whole section expe-
rienced the heaviest rainfall with one
exception that has occurred during all
the history of the weather bureau
here, and with the rain there were
terrible electric disturbances, the
floods doing great damage in many
parts of the city and the lightning
putting the power and lighting wires
out of commission for a considerable
time. The rainfall was 3.04 inches
within 55 minutes from 3.50 to 4.45.
The heaviest damage done was on
Martin street between the union sta-
tion and Fayetteville street. The Peo-
ple's laundry and Wright's hotel build-
ing were flooded to such an extent that
five or six feet of water stood in the
basement, completely submerging the
laundry machinery and at one time
there was over a foot of water in the
storerooms on the street floor. On
the opposite side of the street the
basement of Uzzell and company,
state printery, took in five feet of wa-
ter, and the pressroom and other base-
ment rooms of the News and Observer
building came in for serious flooding.
At the union station the Martin and
Harrington streets drain choked and
floods poured into the station just as
the Southern and Seaboard trains for
the west and south were arriving, and
eight and ten inches of water swept
through the waiting room, forcing the
hundreds of men and women to the
tops of the seats for "dry roasts." The
city was without electric lights or
street car service for three hours, the
transmission lines having gone down
in the midst of the storm.

Keenest Rivalry in Elks Drill
Denver, July 15.—Keen rivalry be-
tween the various Elk lodges of the
United States reached a climax today
when the annual competitive drill by
teams from all sections of the country
featured the third day of the Golden
Jubilee Reunion of the order here.
Several thousand dollars in prizes
have been offered to the competitors.
The Broadway baseball park where
the teams performed their evolutions,
was the mecca of Elksdom during the
morning.

The first parade of the Reunion was
held this afternoon. This was the
Industrial Parade in which all lodges
of the state, excepting Denver, com-
peted for prizes. The object of the
display was to depict the natural re-
sources of the Centennial State. Scores
of decorated floats portrayed the de-
velopment of manufacturing, mining,
agriculture and stock-raising. Elec-
trically decorated autos tonight will
perform the second parade of the day.
Several hundred machines will be in
line and the most brilliant pageant
ever shown here is promised. Cash
prizes have been offered. Meanwhile
the grand lodge was in session all
day discussing matters of vital inter-
est to the order.

Self Denial Day.
New York, July 15.—Campaign
funds for the suffrage fight in six cam-
paign states are being collected today.
The day is known as "self denial day"
among suffragists. For several weeks
they have been pledged to deny them-
selves something and contribute the
unused money to the cause.
The suffragettes hope to collect \$50,
000. This sum will be distributed in
North Dakota, Nevada, Nebraska,
Montana and Missouri.

FLIGHT IS POSSIBLE

Possibility of Over-Sea Voyage
Pointed Out.

Dr. Bell in Communication to National
Geographic Society Says Trip in
Heavier-Than-Air Machine in
13 Hours is Feasible.

Washington.—The possibility of a
trans-Atlantic ocean flight in a
heavier-than-air machine in 13 hours
is pointed out in a communication to
the National Geographic society at
Washington from Dr. Alexander
Graham Bell, inventor of the tele-
phone and former president of the
society.

"The distance from Newfoundland
to Ireland is less than two thousand
miles," says Doctor Bell. "This
means that if you go at 100 miles an
hour you will cross the Atlantic in 20
hours—less than a day. We have fly-
ing machines that go at a greater
speed than that. We already have
machines that could cross the ocean
if their engines can keep going for 20
hours. Of course, these are excep-
tional machines, but even the ordinary
machines of today make 50 miles an
hour with ease.

"Now, a flying machine flies faster
as you go higher up, because the rarer
air offers less resistance to the mo-
tion, while the propeller gives the
same push with the same power, what-
ever the elevation. As you get into
the rarer air the propeller spins

Dr. Alexander Graham Bell.

around faster. A 50-mile-an-hour ma-
chine flying two miles high in the
air—and we have machines that have
gone twice as high as that—will fly
much faster than 50 miles an hour.
Then at an elevation of two miles
high in the air there is a constant
wind blowing in the general direction
of Europe having a velocity anywhere
from twenty-five to fifty miles an
hour.

"As a net result of all these things,
there can be little doubt that any or-
dinary machine that is able to sup-
port itself in the air at an elevation
of two miles high will attain a speed
of at least one hundred miles an hour
in the direction of Europe, and that
means going from America to Europe
in a single day. Calculation shows
that, taking all these circumstances
into consideration, our best machines
should be able to cross the Atlantic
in 13 hours. I hardly dare say it
aloud for publication. It is suffi-
ciently startling to know that it is not
only possible, but probable, that the
passage may be made in a single day.
But if, as I imagine, it can be done
in 13 hours, you may take an early
breakfast in Newfoundland and a late
dinner in Ireland the same night."

THIEF CUTS OFF HER HAIR

Young Woman Learns of Burglar's
Visit When She Finds Her
Locks Are Gone.

Franklin, Pa.—A burglar who en-
tered the home of Miss Margaret V.
Graham, aged twenty-four years, cut
off her hair and carried it away. There
is no clue to the culprit.

Chief of Police H. S. Edwards is of
the opinion that the burglar was hid-
ing in the house when the family went
to bed, for there is nothing to indi-
cate that entrance was forced.

That the cutting of the hair was a
sudden inspiration to the burglar is
indicated by the fact that a pair of
shears owned by the young woman
was used. Her hair was 16 inches
long, and the burglar took all except
four inches. The girl didn't awaken
then, but discovered the loss of her
hair when she awoke at three o'clock
in the morning. The culprit escaped.

Country Road Remains Untouched.
St. Joseph, Mo.—The maple-lined
country road immortalized by Eugene
Field in his "Lovers' Lane, Saint Jo"
will not be encroached upon by im-
provements, but will be allowed to
remain the same as it was in the days
of the writer.
