Saturday Evening..... July 18, 1914.

Quit your knocking and observe how brightly shines the silvery lining.

A walk through Lenoir county's court house suggests that a little cleaning wouldn't be amiss. The halls are in a very unsightly condition.

The drinking fountain, newly installed at Gordon and Queen, has been "rejuvenated" and both sides are giving forth nature's most refreshing fluid.

The Lenoir county Bar Association has endorsed Judge Clark for the vacancy in the United States Supreme Court. The Judge will certainly have plenty of home folks to endorse for him, whether he is in the running or not.

Mrs. Carman was indicted for manslaughter in the first degree. If the evidence placed the responsibility for the death of the Bailey woman on her, it is hard to understand how any but an indictment for murder in the first degree was found.

Old man Huerta thinks his successor, we can't remember his name at this writing, was a little premature in inviting Carranza to partake of his hospitality but then the new man naturally didn't want to take any chances on a surprise party.

Announcement is made that the general repair shops of the Norfolk Southern, which have been located at Biscoe, will be removed to Raleigh and enlarged. This is rather interesting and when taken in connection with the rumor, that has been abroad for some days, that the Norfolk Southern was to be acquired by one of the larger railroad systems, further developments may be looked for.

A few days ago The Free Press called attention to an ordinance, adopted by the Elizabeth City council, barring carnivals, and further suggesting that Kinston would do well to follow the example. This suggestion might have left the impression that Kinston had no law at present regulating these shows but as a matter of fact there is a city ordinance prohibiting any performance within a thousand feet of a residence or church. This means in effect that they are barred from the city for there is no available plot within the city limits, where they could show and conform to the law. The Free Press is very glad to call attention to this fact and claim priority for Kinston and its Council over Elizabeth City in the matter of such legislation.

The Free Press calls attention to the request, appearing at the head of its Saturday church notice column, in which the pastors are requested to furnish their weekly notices Friday afternoon, and expresses its appreciation to those pastors, who have complied. This request is made because by its compliance the pastors can assist in giving full publicity to their services and at the same time not make it necessary for these items to be handled at the rush hours on Saturday. The Free Press does not want to leave the impression among the pastors that it will arbitrarily turn down copy furnished later than Friday afternoon and in cases of emergency, where the Sunday program is changed or cannot possibly be made up in time to furnish the notice as requested, every effort will be made to accommodate the late com-

ers. Such instances will, no doubt, be comparatively few.

The evacuation of Huerta is generally regarded as a victory for President Wilson's watchful waiting policy. The English and French Press take this view while all consider the danger of further hostilities not yet passed. The elimination of Huerta is certainly what was to be desired and the first declaration of the new president, Carrbal, that there shall be no armed resistance to the entry of the constitutionalists forces into Mexico City, tends to indicate that an era of peace is in sight. The disposition of the various petty chiefs is the most serious aspect of the whole matter. Their personal ambitions overshadow their patriotism, if in fact they are possessed of that trait, and unless the rewards are forthcoming to suit them, smaller factions are more than apt to crop out and prolong the peaceful settlement and organization of a stable government.

WHAT OTHERS SAY

Very Calamitous Indeed.

(Statesville Sentinel.)

Calamity Item: The Wilson administration finished its first fiscal year \$33,984,452.07 to the good.

Calamity Item No. 2. The Kansas wheat crop exceeded all previous records by 60,000,000 bushels.

Liquor Must Get Out of Way.

(News & Observer.)

"Liquor fight on in Iowa." Fact is that there is hardly a place anywhere in the United States where there is not a fight of some sort being made on liquor. Old John Barleycorn is being attacked from every direction and has not a ghost of a chance of ultimate victory.

We Have no Fears.

(Durham Sun.)

Mrs. O. H. P. Belmont startles the despised male persons of this country by saying that the time is approaching when it will not be tolerated in them to refer to a married woman as so-and-so's wife. In that golden age mere man will be referred to as so-and-so's husband.

Must be Getting Thirsty.

(Seotlan Neck Commonweath.)

One thing is certain, and that is: If the present commissioners haven't enough courage and common sense to go ahead and amend the Blue Laws, there is such a thing as calling a special election and boosting them out of office and elect men who will use a little discretion in saying "what is, and, what aint."

Somewhat of Exaggerated Ego

(Fairbrother's Everything)

President Wilson has congratulated Colonel Osborn on the good work he has done since he took charge of the revenue department at Washington. Inasmuch as we last week congratulated the Colonel and printed his picture, it appears that the president wanted to be with the big crowd that is singing the praises of Colonel Bill.

Rural Landscape Betterment.

(Progressive Farmer.)

Old Dr. Knapp referred once to neglected country graveyards "that looked as if they did not believe in the resurrection." We commend to all our readers the following suggestion from the Chester News:

"If you live near a rural graveyard that is neglected don't rest a moment after laying crops by till you have gotten the neighbors and friends together and put it in nice shape. This can be done and should be done."

KINSTON'S VARIED INDUSTRIES

NO. 1—TOBACCO

If Kinston sells 14,000,000 pounds of tobacco, as the authorities on the crop predict, this fall will see the busiest period here in the city's history. Every indication points to an increase over the production in 1913, and experts put the increase at 2,000,000 pounds. About 12,000,000 were handled here last season.

Enlargement of all the warehouses and some of the factories, together with the erection of a large new factory—that of the John Hughes Company—is evidence of the confidence with which the big interests regard the growing crop.

If 14,000,000 pounds are marketed here during the coming fall and winter, and prices range about as those of the past two seasons, the planters and tobaccoists of Kinston and Lenoir county will be enriched by about \$2,500,000.

Small markets in a number of the surrounding towns are expected to get an increase in their share of the banner crop now requiring the attention of the farmers in the section LaGrange is building another warehouse. But Kinston's market is now so large that the inroads of the little markets on the territory's production is an insignificant matter.

Around 125,000 feet of floor space are embraced in the four sales warehouses—the Atlantic, at Heritage Washington streets; the Central, at 300 North Heritage; the Eagle, at 200 East Lenoir, and Knott's at 112-116 East Washington street. This floor space is surpassed by only three other markets in the state, probably.

The co-operative methods of the Tobacco Board of Trade and the individual tobaccoists was, one of the biggest influences in the upbuilding of one of the country's greatest markets here, and the same square dealing methods of Kinston with the farmers is instrumental in the market's growing greater yearly.

The buying here this year will be large. All the larger manufacturers will have their men here early in August, and competition is expected to be sharp.

The special adaptability of the soils of this section to the production of bright tobacco has long been recognized, and the now immense output of the weed is known the world over as of the finest quality. The industry had its principal impetus in 1896, when it had been proven that an experimental market would make good. In 1895 Kinston had sold 800,000 pounds. In the year following barns sprung up as if by magic throughout Lenoir Duplin, Jones, Onslow and Greene counties, and in the second season the farmers of the five counties marketed 3,000,000 pounds of the golden stuff here. The third year saw very little increase, but in the fourth year the sales were increased to 5,000,000 and the third warehouse was in operation.

The brights of this part of the state are unapproached by any other type of tobacco in color, texture or aroma. From every point of view they are the finest in the world for pipe-smoking, cigarettes and long-cut chewing. The demand for it is greater than the supply, and exports are immense.

Helping Kidneys By Clearing Blood

A Function Greatly Assisted By a Well-Known Remedy.

Most readers will be interested to more clearly understand why analysis of urine is so important. In the use of S. S. S. to purify the blood, its action is a stimulant to the myriad of fine blood vessels that make up the constructive tissues of the kidneys. All the blood from all over the body must pass through the kidneys. They act as testers and assayers. And according to what they allow to pass out in the urine, both as to quantity and materials, the health of the kidneys and the quality of the blood is determined. The catalytic energy forced by S. S. S. is shown in the urine. It is also demonstrated in the skin. And as the blood continues to sweep through the kidneys the dominating nature of S. S. S. acting as it does through all the avenues of elimination, shows a marked decrease of disease manifestations as demonstrated by urine analysis. This assistance is a great relief to the kidneys. The body wastes are more evenly distributed to the excretories; their elimination is stimulated by the tonic action afforded the liver, lungs, skin and kidneys. Thus, in cases of rheumatism, cystitis, chronic sore throat, buskiness of voice, bronchitis, asthma and the myriad of other reflex indications of weak kidney action, first purify your blood with S. S. S., so it will enable the tissues to rebuild the cellular strength and regain the normal health.

S. S. S. is prepared by The Swift Specific Co., 527 Swift Bldg., Atlanta, Ga., and if you have any deep-seated or obstinate blood trouble, write to their Medical Dept. for free advice.

YOU HAVE THE RIGHT TO BLAME THE DEALER IF YOUR FURNITURE GOES WRONG.

Furniture purchasing is an important transaction. It usually involves the expenditure of a fair sum of money. It always involves your comfort and satisfaction. The furniture sold in this store is not made "simply to sell"—it is made for service and it must satisfy you. It is also made to please. Notwithstanding the above statement you will find nothing in this store that does not represent true economy—true economy depends on quality—we prefer to sell furniture of quality. We are determined to sell you furniture, to sell the sort which will not cause you to complain and compel us to explain. Furniture Of Quality—For Kinston People—They Deserve It.
