

OF LOCAL INTEREST

PYTHIANS' MEETING.

The Knights of Pythias, will meet in their castle hall this evening at 8 o'clock.

COOLEST WEATHER

SINCE WINTER.

The mercury in the official government thermometers here dropped from 61 to 47 Wednesday night, a decrease of 14 degrees. This was the minimum since last winter.

HAS OLD SPANISH COINS.

Mrs. W. H. Dail, a Greene county lady, is the owner of two rare Spanish coins of old issues. They are silver dollars, one coined in 1799 during the reign of Charles IV., the other in 1811, during the regency of Ferdinand VIII.

OPEN SEASON FOR SQUIRREL

NOW NEAR AT HAND.

Squirrel may be shot in Lenoir county after September 15. Frequent requests for information concerning the game seasons are being had at the clerk of the court's office. The season for birds does not open until some time later.

PAINTING FIRE ALARM BOXES.

Poles on which are fastened fire alarm boxes throughout the city are being painted to make them easily discernible. A red band about two feet wide is had on both sides of the boxes, with white streaks at the bottom and top of red, making a conspicuous combination.

SUGGS WINS HIS GAME.

In the first game of a double-header at Baltimore Wednesday, George Suggs pitched the Terrapins to victory over Indianapolis. The score was 6 to 3. The Kinstonian pitched consistently. He allowed nine hits, and his opponent, Mosely, was touched up for 11.

SHOOTS MAN AND HIS WIFE.

Washington, N. C., Sept. 10.—The authorities in nearby towns have been asked to look out for Joe Cratch, colored, who is charged with seriously wounding William Peele and Lizzie Peele, residents of a negro section here. Cratch and the Peeles had a difficulty, and the former used a revolver. William Peele may not recover, but his wife has a chance, it is stated.

WATCH FOR FUGITIVE CONVICT.

The police in Kinston and Goldsboro were on the lookout Wednesday night for Gardner Jones, a negro convict who, with only three months of a sentence to complete, walked away from the Greene county roads camp near Snow Hill Tuesday night. Jones was a trusty, and had no difficulty in making his escape, which was not discovered until some hours after he had left. He is described as a medium-sized, black negro, wearing overalls.

THERE IS A MARKET

HERE FOR COTTON.

A cotton buyer, who was absent from the city Tuesday, when Jere Sutton brought the first bale here and returned to his farm with it, stated today that the planter would have had a bid of more than 63-4 cents, said at the time to be the best that would have been offered, had not Sutton declined to consider less than 10 cents, had he been on the exchange. This buyer declares the market is open, and that prices as reasonable as conditions warrant will be offered for the staple.

GREENE PLANTERS

DISCUSS STORAGE.

The Farmers' Union of Greene county has been called to meet and discuss the cotton situation. The crop there is satisfactory in quality and quantity, and the planters desire to take some action for storage and loans upon it. Many of them confront a dilemma similar to that which is worrying many other Tar Heel farmers, giving the crop over at nearly a total loss to themselves to supply men who have advanced them, the latter in turn, being able to dispose of it at trifling prices if they desire to secure their recompense, and nobody in particular being benefited. Some of the poorer farmers, who are depending principally upon cotton, declare they may have to hire out to their more fortunate neighbors in order to tide over the winter.

Jesse Willis, a Cedar Island, Carteret county, man, was here this morning, and stated that the prospects for a fine game season in the great hunting grounds along the sounds are splendid. Everything joints to an early and a cold winter, the fishermen of Core Sound believe, and as amateur prognosticators they have got the world beat, Mr. Willis is confident. With the first severe weather in the

5 or 6 doses of 666 will break any case of Fever or Chills. Price, 25 cents. (Adv.)

North he expects great flocks of geese and ducks to migrate to eastern Carolina. The professional hunters among the bankers are many, and in the cold months the shooting of duck, geese and brandt is almost as lucrative for many as oystering and fishing. The oyster crop in Pamlico sound is the finest in years, Willis states, and he believes the private preserves in Mouse harbor are superior to any that can be found in Chesapeake Bay or Long Island Sound. North Carolina, he thinks, in five years, will be the greatest oyster producing section in the world.

NARROW ESCAPE OF LUMBERMAN

Joseph Campen, a sawyer at the Hines Bros. lumber mill, in Southeast Kinston, is suffering with a painful injury that might easily have been fatal, and gave him the worst scare of his life. Campen was operating the big carriage in the saw room when a slab broke off from a log which he was sawing, and was hurled with lightning speed in his direction. The heavy slab struck him on his right leg, knocking him prostrate, and continued on its way, tearing through everything it encountered in its wild flight. Had it struck the rapidly revolving saw it would have torn it to pieces. The workers around Campen, badly frightened, believed he was badly hurt, but when they picked him up they found his only injury, almost miraculously, was a badly bruised thigh. Had the slab struck Campen on the head or stomach he would most probably have been killed outright.

WAR BOOMS HOME CHEMICAL PRODUCTION

(By the United Press.) Chicago, Sept. 10.—The European war has afforded an opportunity for the development of domestic mining properties, according to Chicago chemists, who today are busy trying to find supplies of certain chemicals for large manufacturers. Potash salts and tungsten oxide, used in the manufacture of steel, can be mined in America, but the supply has been coming from Europe. With the European supply cut off, Chicago chemists say potash salts can be found in abundance in the Great Basin and tungsten oxide in Pennsylvania and Colorado in sufficient quantities to meet the demand.

NEBRASKA FAIR ON.

Lincoln, Neb. Sept. 7.—Nebraska's forty-sixth annual State fair opened today at the State grounds here. Aviator Lincoln Beachy, in loop-the-loop and upsidedown flights, was to be one of the attractions. The fair will continue until September 11.

RHEUMATISM PAINS STOPPED.

The first application of Sloan's Liniment goes right to the painful part—it penetrates without rubbing—it stops the Rheumatic Pains around the joints and gives relief and comfort. Don't suffer! Get a bottle today! It is a family medicine for all pains, hurts, bruises, cuts, sore throat, neuralgia and chest pains. Prevents infection. Mr. Chas. H. Wentworth, California, writes:—"It did wonders for my Rheumatism, pain is gone as soon as I apply it. I recommended it to my friend as the best Liniment I ever used." Guaranteed. 25c at your Druggist.

Florence Told All the Neighbors

"You come in and see my Florence oil cook stove work just once—and you won't be happy until you have one. You can have a slow, simmering fire on one burner at the same time you have a quick, hot fire on another—and the other one regulated exactly to any work you want done. Just set the levers as you want them—and you can go away for two hours and find all the burners at exactly the same heat when you come back. That's because the oil supply is automatic and there are no wicks. It's so simple, so clean, so convenient, so cool, that I don't know what I should do without it. My husband has tested the FLORENCE with other stoves and he says it produces a wonderful amount of heat for the oil consumed and that it costs only about two cents an hour to run four burners."

"The Turning Point in Oil Stove History" FLORENCE Oil Cook Stoves

"Look for the Lever" In the Florence you have—at last—the safe, reliable oil stove. Safety—and simplicity—and economy. They go together. Come in and see these wonderful cook stoves. They carry the manufacturer's guarantee in addition to our own.
