

**THE SECRET OF SUCCESS**

Genuine Merit Required to Win the People's Confidence.  
 Have you ever stopped to reason why it is that so many products that are extensively advertised, all at once drop out of sight and are soon forgotten? The reason is plain—the article did not fulfil the promises of the manufacturer. This applies more particularly to a medicine. A medicinal preparation that has real curative value almost sells itself, as like an endless chain system the remedy is recommended by those who have been benefited, to those who are in need of it.  
 A prominent druggist says "Take for example, Dr. Kilmer's Swamp-Root, a preparation I have sold for many years and never hesitate to recommend, for in almost every case it shows excellent results, as many of my customers testify. No other kidney remedy that I know of has so large a sale."  
 According to sworn statements and verified testimony of thousands who have used the preparation, the success of Dr. Kilmer's Swamp-Root is due to the fact that it fulfils almost every wish in overcoming kidney, liver and bladder diseases, corrects urinary troubles and neutralizes the uric acid which causes rheumatism.  
 You may receive a sample bottle of Swamp-Root by parcels post. Address Dr. Kilmer & Co., Binghamton, N. Y., and enclose ten cents; also mention the Kinston Daily Free Press. adv

**NEW YORK LOVERS OF GOLF MAKE IT FOUR-SEASON SPORT**

By Hal Sheridan  
 (Written for the United Press)

New York, Jan. 8.—Golf enthusiasm has run riot in the United States. For some years owing to weather conditions in the northern states, it has been only a three season sport. The indomitable spirit of the golfer however has overcome even bad weather condition and for the first time several clubs will hold winter tournaments in the territory around New York.

The first of these winter tournaments was staged on the course of the Lakewood Country Club. Most of the players turned in low scores and all of them vowed that their game was just as good during the cold weather as during the summer. The only drawback is the roughness of the greens. It slows up the putting considerably, but this one disadvantage is overbalanced by long drives and snappy approaches.

A feature that has aroused interest in winter golf was the tournament held on the roof of the Astor Hotel recently. The fans who had not their clubs up for the winter thinking it was too cold to play, have had a revival of interest after seeing a number of experts using their clubs on the glass enclosed roof. The roof tournament was a play for form and was attended by many social leaders.

Golf in the southern states will have the benefit of the two prominent professionals who have started a twelve weeks tour. M. J. Brady of Wollaston and Gil Nichols of Wilmington start their southern tour at New Orleans going from there to Beaumont, Houston, San Antonio and El Paso. California will also see some of their playing and if time permits, they may go over the links at the Denver Country Club.

These two golfers expect to cover more than 10,000 miles on their trip despite the fact that Nichols was injured so badly in an auto smashup last summer that his life was despaired of.

In some of the middle western states, winter golf has been indulged in at least up to the first heavy snow. The Omaha Field Club and the courses at Des Moines and St. Paul have had their following of winter golfers this year and plans are being made to keep the links in condition up to the last minute.

Ice yachting suffered a late start this year owing to the poor ice conditions and lack of favorable breezes in the past fortnight. On at least a dozen different days when ice fleets were scheduled to sail off the cup events in rivers and bays in New Jersey, the sailors sat around the stoves whistling for a breeze and rehashing the races of other years. From this time forward, however, the prospect is good for some exciting events.

**"The Thinkers of the Country Are the Tobacco Chewers"**—  
 said one of the greatest thinkers this country ever produced.

**Says the Pilot:**  
 "Nosing a big stern wheeler along a muddy river with sandbars reaching up to grab her—that's when you need real steadiness. When there's nothing but your judgment between your boat and a shoal, take a chew of PICNIC TWIST."

In every convenient twist of PICNIC you'll find the true tobacco uplift without the letdown that comes from dark, heavy, rank tobacco. PICNIC TWIST is a light colored, soft twist of the mild, mellow parts of the leaf.

Men accustomed to "strong" tobacco will be surprised how much they can chew of this mellow twist with its sweet, lasting taste.
