Mrs. Thomas Ozlin
Returns to Kenbridge
Mrs. Thomas Ozlin of Kenbridge,
Va., has returned to her home, after
a visit in Kinston with her sister,
Mrs. George W. Knott, on Washing-
ton street. Mrs. Ozlin, before her
marriage last summer, was Miss
Lettie Hobgood of Oxford. After her
graduation, in 1912, from Salem Col-
lege, at Winston-Salem, she taught
Latin there for two sessions and
during this time, by her excellent
work with the classes, and with a
gracious and charming personality
endeared herself to the officials and
patrons of this historic institution,
and among the Salem graduates
throughout the South Mrs. Ozlin (nee
Hobgood) numbers her friends in
hundreds. Many Salem graduates of
Eastern Carolina will be interested
to learn of her visit here.

"SHEPHERD OF THE HILLS"
BILLED FOR BERUARY 3

Probably First Theatrical at the
Grand Theater, Which Will Be
Opened Next Monday With
Nine-Reel Program.

Harold Bell Wright's "Shepherd of
the Hills" has been booked by the
managers of the new Grand Theater
for the night of February 3. The
production will be presented by a
company of fourteen people, headed
by stars of metropolitan talent. "The
Shepherd of the Hills" is a story of
the Ozark mountains and teaches a
lesson of the simple life. Its charac-
ters live and act naturally; it is a
play that attracts by its simplicity
yet holds the auditor with breathless
interest from the first curtain to the
last. It will probably be the first
theatrical attraction at the new play-
house.

The Grand's opening will be on
next Monday, the 18th, it was defini-
tely announced by Managers Ferrell
and Stallings this morning. The bill
for that night will be exclusively of
pictures, but pictures of the best kind
and sure to fill the house. Four reels
of film scenes of the war in Belgium,
showing French, German and Belgian
troops in real action, will be the fea-
ture of the bill. The pictures were
taken by men employed by the Chi-
cago Tribune, and four-fifths of the
royalty money is being given for Bel-
gian relief. To fill out the nine-reel
bill, a feature by the World's Film
Company in five thousand feet of film
will be presented. The offering as a
whole will certainly be the money's
worth of the popular prices to be
charged.

Colds are Often Most Serious
Stop Possible Complications
The disregard of a Cold has often
brought many a regret. The fact of
Sneezing, Coughing, or a Fever
should be warning enough that your
system needs immediate attention.
Certainly Loss of Sleep is most se-
rious. It is a warning given by Na-
ture. It is man's duty to himself to
assist by doing his part. Dr. King's
New Discovery is based on a scien-
tific analysis of Colds. 50c. at your

COTTON DEVELOPMENTS
MOST INTERESTING YET

(Reported by R. H. Rountree & Co.)
New York, Jan. 11.—Developments
this week have been by far the most
interesting since the exchange resumed
business. The two factors com-
mented upon for several weeks past,
namely, the aggressive buying of Oc-
tober contracts by both western and
German interests continued. This per-
sistent absorption took so many con-
tracts from the ring that a rush of
buying early in the week shoved the
market to the highest prices of the
season, many months being nearly
120 points over the low level of less
than a month ago. This advance car-
ried December contracts to the 9c lev-
el before the market ran into suffi-
cient actual cotton to stem the rise.

The first signs of this important
fact were noticed in the New Or-
leans market, where each advance
over 8c for May there resulted in a
sharp recoil. As March contracts in
this market approached 8 1/4c, near-
ly every spot house with Southern
connections had cotton for sale. This,
nought in view of the enormous
quantity of actual cotton available in
the South, many million bales of
which still remain to be sold. The
ginning figures show that there has
been ginned something like 14,500,000
bales to date, while the amount in
sight is less than 8,000,000 bales.
Never in the history of the South has
there been so much cotton held back,
which is, of course, accounted for by
the lack of a market and shipping fa-
cilities, on the one hand, and the fact
that cotton below the cost of produc-
tion leaves the holder with very de-
cided ideas as to the value of his pro-
duct, on the other. But notwith-
standing this situation, the cotton is
there and a sufficient number of hold-
ers has seen the advance carry prices
to a level where it has appeared ad-
vantageous to let some cotton go.

When the selling became manifest,
some of those with a considerable
profit on contracts bought at low
prices began to turn their profits into
cash, and the weight of selling then
brought about a sharp setback of 25
points throughout the whole list. On
the decline, however, the buying pow-
er came into play, and today has seen
another sharp upturn of 15 to 17
points.
With distant months at 8 3/4 or 9c,
as compared with 7 3/4 a month ago,
it is an open question whether the
whole situation may not be due for
a decided readjustment. There seems
to be little doubt that the carry-over
this season will be anywhere from

five to six million bales, and this, of
course, will make absolutely impera-
tive a wholesale reduction in plant-
ing preparations for the next season
unless the cotton produced plans to
sell his production at a loss. We have
every confidence that this reduction
will take place, but even then there
is so much cotton available, and the
destruction of capital and property
in Europe is so appalling, that it
would seem the policy of wisdom for
the holder of cotton to take advan-
tage of these strong markets to grad-
ually lighten his load. It must not
ing genius of a band of alleged opium
be forgotten that only ten years ago
cotton sold at 6 3/4 c, with the world's
trade perfectly normal, simply be-
cause the solution of the supply and
demand problem brought about low
prices.

The Liver Regulates the Body
A Sluggish Liver Needs Care
Someone has said that people with
Chronic Liver Complaint should be
shut up away from humanity, for
they are pessimists and see through
a "glass darkly." Why? Because
mental states depend upon physical
states. Billiousness, Headaches, Diz-
ziness and Constipation disappear

SEVERE PUNISHMENT
Of Mrs. Chappell, of Five Years'
Standing, Relieved by Cardul.

Mt. Airy, N. C.—Mrs. Sarah M. Chap-
pell of this town, says: "I suffered for
five years with womanly troubles, also
stomach troubles, and my punishment
was more than any one could tell.
I tried most every kind of medicine,
but none did me any good.
I read one day about Cardul, the wo-
man's tonic, and I decided to try it. I
had not taken but about six bottles until
I was almost cured. It did me more
good than all the other medicines I had
tried, put together.
My friends began asking me why I
looked so well, and I told them about
Cardul. Several are now taking it."
Do you, lady reader, suffer from any
of the ailments due to womanly trouble,
such as headache, backache, sideache,
sleeplessness, and that everlasting tired
feeling?
If so, let us urge you to give Cardul a
trial. We feel confident it will help you,
just as it has a million other women in
the past half century.
Begin taking Cardul to-day. You
won't regret it. All druggists.
