SOME DON'TS

For Stomach and Liver Sufferers
Don't take medicine for your Stomach ailments morning, noon and night, as usually such medicines only give temporary relief and simply digest the food that happens to be in the stomach.
Don't permit a surgical operation. There is always serious danger in operations, and in many cases of Stomach, Liver and Intestinal Ailments the knife can be avoided if the right remedy is taken in time.
Don't go around with a foul-smelling breath caused by a disordered Stomach and Liver, to the discomfort of those you come in contact with.
If you are a Stomach sufferer, don't think you cannot be helped; probably worse cases than yours have been permanently restored by Mayr's Wonderful Remedy.
Most Stomach ailments are mainly caused by a catarrhal condition. Mayr's Wonderful Remedy not only removes the catarrhal mucus, but also the chronic inflammation and assists in rendering the entire alimentary and intestinal tract antiseptic, and this is the secret of its marvelous success.
Don't suffer constant pain and agony and allow your stomach ailments to physically undermine your health. No matter how severe your case may be or how long you have suffered—one dose of Mayr's Wonderful Remedy should convince you that you can be restored to health again. Mayr's Wonderful Remedy has been taken, and is highly recommended by members of Congress, Justice of the Supreme Court, Educators, Lawyers, Merchants, Bankers, Doctors, Druggists, Nurses, Manufacturers, Priests, Ministers, Farmers and people in all walks of life.
Send for FREE valuable booklet on Stomach Ailments to George H. Mayr, 154-156 Whiting St., Chicago, Ill.
Mayr's Wonderful Remedy is sold by leading druggists everywhere with the positive understanding that your money will be refunded without question or quibble if ONE bottle fails to give you absolute satisfaction. advt

TO THE FARMERS:
KEITH'S GROUND AGRICULTURAL LIME
Composed of sea product, petrified fish, clams, oysters, shells, etc., has solved the high cost of fertilizers. One-fourth price of guano, good for all crops on any soil, can be used alone or mixed with compost, cotton seed meal, or fertilizer material. Shipped loose or sacked. For prices write B. F. Keith Company, R. F. D. No. 3, New Bern, N. C.

\$100 Reward, \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in their compound that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address B. F. Keith Company, Inc., Toledo, O. Sold by all Druggists. Take Hall's Family Pills for constipation.

Stop That Cough—Now
When you catch Cold, or begin to Cough, the first thing to do is to take Dr. Bell's Pine-Tar-Honey. It penetrates the linings of the Throat and Lungs and fights the Germs of Disease, giving quick relief and natural healing. "Our whole family depend on Pin-Tar-Honey for Coughs and Colds," writes Mr. E. Williams, Hamilton, Ohio. It always helps. 25c at your druggist. advt

The Liver Regulates the Body
A Sluggish Liver Needs Care
Someone has said that people with Chronic Liver Complaint should be shut up away from humanity, for they are pessimists and see through a "glass darkly." Why? Because mental states depend upon physical states. Bilioousness, Headaches, Dizziness and Constipation disappear after using Dr. King's New Life Pills. 25c at your Druggist. advt

"BILL DONOVAN" DAY
ARRANGED BY EBBETS

By Hal Sheridan
(Written for the United Press)
New York, Jan. 19.—You guessed it. Charley Ebbets is going to spring another "dedication day"—and spring it early. Before the spring robins are properly thawed out and before the baseball bugs get acclimated and blasé on the subject of baseball, Mr. Ebbets will hit 'em with a "Bill Donovan" day.
The wires had scarcely ceased ticking the news that Bill was to manage the New York Yankees when Ebbets began singing songs of praise for Donovan. The fact that the same "Wild Bill" once hopped from Ebbets' club to the Detroit Tigers in the old baseball war was forgotten by the Dodger prexy and he turned loose a galaxy of pleasing adjectives to voice his sentiments.
"Likeable fellow," said Ebbets. "Great personality. That wide smile and good nature gets the fans and players alike."
All this having been dutifully enrolled by careful scribes, Ebbets got down to the business of the meeting. "That reminds me," said he. "The Dodgers play a couple of exhibition games with the Yankees next April before the season opens. Why not a holiday? Why not? We'll have it. We'll call it 'Bill Donovan Day' and have the usual festivities. The Ebbets Marching and Chord association will march and there'll be a big crowd."
Passing up Charley Ebbets and his dedication days, it seems to be a sure bet that the move that brought Donovan to the Yankees was a popular one. They may be singing a different tune about July 4, but "Wild Bill" comes to town with the best wishes of the fans. The feeling runs, too, that with Caldwell back on the hurling corps, Donovan may turn out a team that will hum its way into the first division.

MANY WILLING TO AID STATE IN WAR
ON WHITE PLAGUE
Raleigh, Jan. 16.—The Proximity Manufacturing Company of Greensboro wants an opportunity to help North Carolina eradicate the Great White Plague. If the State will do its part in this fight, this great corporation seems willing to lend a hand financially in the caring for patients and spreading the gospel of prevention. Doubtless others will follow. Following is a letter just received by the State Board of Health, from J. W. Cone, vice-president of the Proximity Manufacturing Co.
"Referring to the visit which you asked me to make to us last spring, in reference to a plan whereby our company could take steps toward suppressing tuberculosis, we believe that there is urgent need of adequate measures for dealing effectively with this truly vital problem, and we are anxious to in some way co-operate with your board in furthering this end."
"It seems to us that if the present General Assembly will make it possible for the State Board of Health to carry out their proposed policy for dealing with this disease, that they will be doing one of the greatest services that has ever been rendered the State, and if the General Assembly will make some definite plan toward eradicating this disease, by which our company could join with others in helping financially those in charge of the work at the present sanatorium, we would be very glad indeed to have the opportunity of doing so."
"Please keep us advised from time to time what is being done along this line, and oblige."
Nor is this all. Within the last few months patients have had their expenses paid, and financial assistance has been received by the institution from the following sources:
The Presbyterian Church, the Episcopal Church, the Baptist Church, Thompson Orphanage, J. O. U. A. M., Knights of Pythias, Odd Fellows, Masons, local Red Cross Seal Committees, lumber companies, Visiting Nurse Associations, also private contributions from various sources for orphan children, and even a small legacy from the estate of a good lady in the western part of the State.
Judging from these voluntary benevolences from every part of the State, bestowed upon this young institution as upon no other state institution it would seem to indicate more than ever the interest of the people at large in the welfare of such an undertaking.

Montgomery, Ala., Jan. 18.—Charles Henderson was inaugurated Governor of Alabama at noon today, swearing allegiance on the same Bible on which Jefferson Davis swore fidelity as President of the Confederate States of America.

MORE EVIDENCE OF BIG BUSINESS CONFIDENCE

Southern Railway Preparing to Spend a Million and a Half On Piece of Track in Virginia—Labor Needed.
Washington, D. C., Jan. 18.—Southern Railway will proceed at once to revise and double track the 28.7 miles of its Washington-Atlanta line lying between Orange and Charlottesville, Va., the work to involve an expenditure of \$1,500,000 and to result in a greatly improved line both as to grades and curvature. Bids for the grading are being received from contractors today in the office of Mr. W. H. Wells, chief engineer of construction, under whose direction the work will be done.
The completion of this work together with other work now under way, will give the Southern a continuous stretch of 121 miles of double track out of Washington, and a total of 338.7 miles of double track between Washington and Charlotte, leaving only 41.3 miles of single track, divided into four stretches the longest of which is 20 miles.
The revision between Orange and Charlottesville will eliminate 1,303 degrees of curvature or nearly four complete circles, and will give a maximum grade northbound of 0.9 per cent. and southbound of 1 per cent. as against 1.41 per cent. in both directions at present.
The work to be done is very heavy and will furnish labor for a large number of men, and cause heavy expenditures in the territory immediately affected. In undertaking it at this time when receipts from both freight and passenger traffic are much below normal, the Southern Railway Company is giving striking evidence of President Harrison's faith in the business future of the South and his determination to furnish adequate facilities, the necessary capital fortunately having been provided before the outbreak of the present European war.

LACK OF FUNDS GREATEST DRAWBACK TO REFORMS

Rep. Mintz of Wayne Thinks General Assembly Will Go Very Slow About Increasing Bonded Indebtedness.
Mr. Fred. R. Mintz, representative from Wayne in the lower branch of the Legislature, and chairman of the Committee on Education, passed through the city this morning, en route from Snow Hill, where he spent the week-end with Mrs. Mintz, to Raleigh. Mr. Mintz is the editor of the Mount Olive Tribune, and is one of the progressive members of the General Assembly. In discussing the outlook of several bills now pending before the Legislature looking to the establishment of more State institutions, particularly the bill for a reformatory for fallen women, Mr. Mintz said that the matter had some general and informal discussion last week among the members, but that he did not know just what the prevailing sentiment was. His opinion was that the lack of funds and the necessity for retrenchment all along the line would perhaps be the greatest obstacle in the way of the passage of this bill, and other such reform measures. He was in sympathy with the movement, but was hardly prepared to say just what he would do with reference to the bill now pending, not having given it very close study so far.
The financial question is the most serious one confronting the State, Mr. Mintz thinks and although, as he said, there is a small surplus in the treasury at present as compared with a deficit, which had to be taken care of in 1913 by a bond issue, he felt that the General Assembly would stay pretty close to shore in making appropriations which would require additional bond issues. Mr. Mintz agreed that it was not the part of wisdom to cut the "cloth too close." He left on the 10:28 a. m. Norfolk Southern train for Raleigh.

LAST WEEK'S COTTON MARKET A REPEATER

May Went to 8 1/2, Hedge Selling Against Actual Staple in South, and Prices Recoiled, Only to Work Back to High Level
(Reported by R. H. Rountree & Co.)
New York, Jan. 15.—The course of the cotton market this week has been practically a repetition of the previous one. That is to say, after an advance that carried May to 8 1/2c, the market ran into so much hedge selling against actual cotton in the South that prices recoiled 20 points, only to work back toward the high level of the season.
Sentiment has continued extremely favorable to the market, owing to the general spot cotton in the South, and continued uncertainty over the character of our new contract. Although the stock of cotton in New York now amounts to over 60,000 bales, less than 2,000 bales of this cotton has been certificated under the Government standard types, and not enough of this has been done as yet to give the trade a fair idea of the actual percentage of cotton now coming to New York that will measure up to requirements under the Lever Law. According to reports, not more than 75 per cent of the daily receipts will be available for delivery on the new contract, and this has a tendency to hold near positions in this market, as well as preventing the creation of any bearish sentiment in distant months.
The fact that the market runs into actual cotton around 8 1/2c for May, may or may not be very significant. If the investment demand keeps up on a large scale, and Southern holders persist in maintaining their present idea of values, the market can very easily work higher. But, as we pointed out last week, with an enormous surplus of cotton to be carried over into the coming season, inspires considerable caution on the part of the conservative element.
Of course no one takes a bearish view of cotton when it sells under the cost of production, no matter what the surplus may be. The enormous profits being reaped by the farming community from the sale of grain at prices not reached in years, brings in the West as a buyer of a commodity selling at comparatively low prices, these buyers having contracts which will be carried for a long pull.
Until the New York stock reaches figures that are of menacing proportions, there is not likely to be actual weight on the contract market, since the figures issued by the Census Bureau show that neither American nor foreign spinners has as yet purchased their normal stock of raw material, notwithstanding the very low prices reached during the early part of the season, when the cotton exchange itself was closed.

SAVES DAUGHTER
Advice of Mother no Doubt Prevents Daughter's Untimely End.

Ready, Ky.—"I was not able to do anything for nearly six months," writes Mrs. Laura Bratcher, of this place, "and was down in bed for three months."
I cannot tell you how I suffered with my head, and with nervousness and womanly troubles.
Our family doctor told my husband he could not do me any good, and he had to give it up. We tried another doctor, but he did not help me.
At last, my mother advised me to take Cardui, the woman's tonic. I thought it was no use for I was nearly dead and nothing seemed to do me any good. But I took eleven bottles, and now I am able to do all of my work and my own washing.
I think Cardui is the best medicine in the world. My weight has increased, and I look the picture of health."
If you suffer from any of the ailments peculiar to women, get a bottle of Cardui today. Delay is dangerous. We know it will help you, for it has helped so many thousands of other weak women in the past 30 years.
At all druggists.

SOLOMON OF DIVORCE COURT GIVES ADVICE

(By the United Press)
Cincinnati, O., Jan. 19.—"Women are three times as faithful to their marriage vows than men, but when strife is laid at their door it generally traces to complete ignorance of the art of cooking and a general unpreparedness for the marriage state."
Such is the logic of Judge Almon M. Warner who closes his career of six years on Cincinnati's "divorce bench" after hearing 6,000 cases of domestic woe. Excerpts from Judge Warner's wisdom:
"If husbands have clean comfortable homes they will not seek amusement outside."
"A marriage founded on a month's acquaintance is almost sure to be ship-wrecked."
"Young folks should know each other at least a year if they expect to live a lifetime in peace and love."
"Married folks should have kindred tastes and best of all—real love."
"Prospective voyagers on the sea of matrimony should ask themselves first: 'Will my affections remain the same when we are old and gray?'"
"Liquor is a foe to marriage and an aid to divorce."
"Among the wealthier people 'the other woman' is most generally the husband's fault."
"When a woman falls, she falls far lower than a man."
"If I had not been sworn to uphold laws, only scriptural grounds and absolute mental incompatibility would be the grounds for divorce in my court."
"It is only the abnormally unusual family that needs court adjustment; there are millions of husbands and wives whose lives are perfect."
